As a chef or restauranteur, you take pride in crafting unique dishes that reflect your personality and style. The presentation of your culinary creations says as much about you as the food itself.

At COSTA NOVA, we understand this and take pride in curating tabletop collections that are as unique as they are beautiful and functional. Our collections are designed for restaurants that appreciate innovative tabletop solutions. Our European handcrafted stoneware products combine enticing design, functionality, and durability to make COSTA NOVA a unique brand in the hospitality industry.

Sustainable stoneware Sustainable industry

«One of the key decisions that Chefs, hotels, and restaurants can make is to source from suppliers with a strong commitment towards protecting the environment.»

Miguel Casal, Founder and CEO at COSTA NOVA

At COSTA NOVA we are committed to making stoneware more sustainable.
Our products are guaranteed to be **eco-friendly, reusable, and recyclable**. They are crafted with non-toxic, lead-free materials.

We manufacture in Portugal, using the best local natural resources, which minimizes our ecological footprint. Our single-fired production saves energy and reduces emissions into the atmosphere. We save water, carefully treating and reusing it for internal cleaning processes or reintroducing it in our production processes. In addition, we reuse the heat from our kilns to other equipment.

Our original formula results in a unique ceramic body with a special bonding between the clay and the glazed surface, making our products more durable – as they are resistant to both thermal and mechanical shocks. This means our stoneware doesn't chip or scratch easily, and it can withstand high temperatures. It also means it has a longer lifespan, compared to more fragile ceramics, reducing the frequency of replacement and the associated resource consumption.

VICTOR

Ecogres®

From the earth, for the Earth

At COSTA NOVA we are committed to making stoneware even more sustainable. In partnership with the University of Aveiro (Portugal), we developed Ecogres®, a new raw material created by collecting, recycling, and reusing clays and glazes from our operations, along with waste materials from nearby industries.

The result is Ecogres® (ecogres), a reinvented clay made entirely from recycled materials.

Eco-design

Our designers play a key role in promoting sustainability in stoneware manufacturing. We minimize the environmental impact of our products by considering form, ergonomics, aesthetics, and durability, while optimizing the use of resources like clay, glaze, energy, and water. All products are made to be eco-friendly, reusable, and recyclable, with minimal waste during production.

Packaging

Our packaging is 100% plastic-free and recyclable, using only non-hazardous dyes. To reduce waste, we developed Ecocard, made from crushed internal cardboard waste, used in 15% of our boxes. Our boxes are FSC* certified (75% recycled cardboard), sealed with recycled paper tape, and designed to be reusable.

*Forest Stewardship Council.

Ethical business practices

We are committed to high ethical standards across all operations, ensuring full compliance with EU regulations. Regular audits, conducted by both official regulators and independent auditors, verify these standards. We also ensure that all employees receive fair wages above the required minimum.

Waste management

The waste we generate is mindfully managed. 99% of our waste is either recycled or reused within our production process. We transform excess materials into new products and recycle waste from our factories back into new stoneware. With Ecogres®, we created a new material made from recycled clays and glazes, as well as waste materials from nearby industries.

Water treatment

In addition to our reducing consumption practices, 100% of our water is carefully treated and reused for internal cleaning processes or reintroduced in our production process. Each one of our factories is equipped with an industrial wastewater treatment plant, complying with EU standards.

Energy efficiency

At COSTA NOVA, we prioritize energy efficiency by harnessing 1180 kW of solar power, enabling our newest factory to run entirely on self-generated energy during daylight. Our other factories use solar and renewable sources. Our kilns are 15% more efficient than the most energy-efficient models, thanks to our closed-circuit system that reuses heat. Additionally, our single-firing process reduces energy consumption and CO2 emissions, and we lead Europe by testing hydrogen-powered firing for utility ceramics.

Meet the designers

Carsten Gollnick

Born in 1966 in Germany, Carsten Gollnick has been running his own design studio just outside Berlin since 1997. Although he once considered becoming a chef, his passion for creativity led him down a different path, one that has since shaped his reputation as a celebrated designer. Gollnick's work is driven by a deep respect for what he calls the *"culture of things"*, where every material has a story, and attention is paid not just to how objects are made, but to the people behind their creation and those who will ultimately hold them. Inspired by nature and its quiet beauty, Gollnick finds a unique balance between function and elegance in everything he designs. His portfolio is incredibly diverse, ranging from writing instruments and lamps to interiors and showrooms. He designed the Nótos, Âmbar, Coastland, Resonance, and Escada ceramic collections, and Ramo and Sen cutlery collections.

Torres Euracini

A Portuguese designer, born near the Atlantic, in Póvoa de Varzim, with decades of experience in the ceramics industry and a global portfolio of impactful creations. With a degree in Industrial Design from the School of Arts and Design in Caldas da Rainha (Portugal) and specialized training in ceramics, he began his career in the mid-90s. Over two decades later, his designs are found across the globe, bringing joy and functionality to people's lives. For Torres, the greatest reward is knowing that his pieces are loved and used by so many. His work has contributed to the transformation of the ceramics sector, with focus on innovation, creativity, and sustainability. His inspiration led to the creation of the Roda and Redonda collections.

Christian Tortu

Christian Tortu is a renowned French designer with a deep-rooted love for nature. His journey began in his parents' garden in the Anjou region of France, where he first discovered the beauty of the untamed, natural world. When he moved to Paris, he felt something was missing in the city's meticulously planned parks: real, wild nature. This realization drove him to create designs that captured the freedom and raw beauty of the natural world, much like the landscapes of his childhood. Tortu's work invites people to experience nature in a new way, where plants and flowers are not just objects but living, breathing elements that bring softness and beauty to life. His floral arrangements and scenography have been celebrated globally, from the Cannes Film Festival to fashion shows for Chanel, Dior, and Valentino. Riviera and Marrakesh are among his creations.

PORCELAIN

Resonance, designed by Carsten Gollnick, merges porcelain and stoneware in a harmonious collection that invites you to push the boundaries of table setting creativity. Soft and smooth textures, waving patterns, and innovative shapes make this collection perfect for mix and match.

«Both materials have their own aesthetic and functional qualities. Both materials are assigned very different characteristics and attributes. In the design, I therefore tried to reconcile or harmonize the two material qualities of porcelain and ceramics. My wish was to support each of these individual and "personal" qualities of ceramics and porcelain and not to level them or make them the same.»

âmbar

carsten gollnick

Âmbar strikes a balance between artisanal beauty and the high performance that chefs demand, a perfect canvas for today's sustainable food stories. The material ecogres is both an aesthetic statement and a sustainability highlight.

«Âmbar is a tribute to the circular shapes and soft contours of nature. My first inspiration was stone and ring shapes as found in nature. Amber always has a transparent outer body and inclusions and precious round objects inside. In my design process, I developed a language of forms in which sensual, circular outer contours and edges, concentric and irregular, are arranged in conjunction with each other. This results in exciting relief surfaces that go beyond the familiar.»

Escada

carsten gollnick

Designed by Carsten Gollnick for hosts who want to offer their guests a distinctive aesthetic experience during buffets, going beyond gastronomic quality. A cork staircase serves as the collection's core, enabling flexible stacking of stoneware elements for innovative presentations. Tilting and positioning these elements vertically allows for the creation of striking backgrounds and visual depth. Escada is designed to offer multiple presentation solutions in terms of height and depth. The various flat and staircase-shaped stoneware pieces can be stacked and positioned freely.

«Escada is a versatile buffet collection for hotels, inspired by the architectural building traditions of the cities and the wide horizons of the Portuguese countryside. Regional materials that reflect the history of Portuguese artisan culture and nature are an integral part of the concept.»

Pearl

The Pearl collection was inspired by the richness of the 18th and 19th century European ceramics. Round shapes with highly resistant beads were reinvented to create a new classic concept, that is, at the same time very contemporary and versatile. The combination of Pearl items creates a sophisticated event setting. Its dinnerware impacts purely by its appearance, but it is also its global outstanding performance that should be highlighted.

ECO GRES

This collection is designed to offer creative combinations for professionals. Tall plates can double as lids, while wooden trays become plates or lids for bowls. Flat plates paired with matching wooden ones create new ways to present casual dining dishes. These combinations open fresh possibilities, like bento-style setups, aperitif presentations, relaxed brunches, and sharing experiences.

«Coastland was inspired by the aesthetics of landscapes between sea and land. The material aesthetic responds to the material beauty of the coasts, beaches, and dune landscapes. The magical area in between, full of soft natural colors, nuances, and strong contrasts. Between the vastness of the sky above the sea and the intense beauty of the hinterland. An imaginary walk from the sea to the land.»

Grespresso Collection

COSTA NOVA's Grespresso collection was designed to elevate the coffee experience, offering a diverse selection of sizes, colors, textures, and styles. These cups, crafted intentionally without handles, are perfect for serving the world's favorite beverage. But beyond their main purpose, the Grespresso collection proves its versatility.Thanks to its design and range of options, these cups are ideal for professional settings, easily adapting to serve multiple functions. Whether used for espresso shots, small desserts, or unique presentations, they go beyond coffee service. First introduced in 2018, the Grespresso collection expanded in 2022 with Grespresso Ecogres, incorporating eco-friendly materials. We are now excited to broaden the collection further, offering more colors, materials, and designs.

«At COSTA NOVA, we understand the importance of creating memorable experiences in hospitality, where coffee often takes center stage.»

Marrakesh

Christian Tortu

Designed by French floral artist Christian Tortu, the Marrakesh collection harmoniously blends sustainable craftsmanship, nature's essence, and Moroccan mystique. Inspired by the enchantment of the Majorelle Gardens, the collection's delicate floral forms invite diners on a sensory journey. Infused with the vibrancy of Moroccan markets, the distinctive interplay of speckled glazes and sandy, unglazed textures adds a unique touch to your culinary creations. Made of ecogres, Marrakesh isn't just an aesthetic choice; it's an invitation to showcase your dedication to sustainability.

«My inspiration comes from everything I've worked on before. It's all about the beauty of gardens and nature. It feels like a journey, crossing the Mediterranean to Morocco. The shapes are traditional, but they're also influenced by the fluidity of water and the grace of eucalyptus trees.»

[nótos]

carsten gollnick

Nótos is a complete, vital hotelware programme great for multiple applications. This signature collection presents a large selection of stoneware items that can be combined with metal, beechwood and cork accessories. With a sophisticated design, Nótos is the ideal choice for different food styles, from casual to fine dining.

«I paid particular attention to the design of the bowls, which are ideal vessels for me in the border area between cooking, serving and eating. The addition of cork, used here in a dark smoked finish, was intended to complement the functional advantages of the material and also to build a 'design bridge' to the material and product culture of Portugal. My secret wish was to promote and support the culture of cooking, eating and communicating together at the dining table through the versatility and aesthetics of the NÓTOS collection. For me, this is what culture at the table means.»

NEW COLLECTION

Silvina

Silvina is a collection that tells a story, beginning with its name. It honors the grandmother of COSTA NOVA's founder and celebrates Portuguese heritage, reflecting the sense of tradition associated with the name Silvina. Drawing inspiration from 16th-century Palissy ceramics, where texture is a defining feature, the collection delivers a sophisticated sensory experience to enhance the guest experience. Its white reactive glaze and craquelé terracotta finish provide a refined contrast, making it suitable for both modern and elegant settings.

Cutlery

At COSTA NOVA, our cutlery is made from premium 18/10 stainless steel. Each piece undergoes a meticulous process that blends ancestral know-how with contemporary innovation. The use of 18/10 stainless steel ensures durability and resistance to corrosion, while the thickness of the material contributes to the robustness and perfect balance of the pieces. **The manufacturing process is meticulous and largely manual, with each piece passing through the hands of expert craftsmen - true artists and sculptors, not just factory workers.** Inspired by COSTA NOVA's brand essence, our cutlery is designed to harmonize with every table setting, creating a relaxed and inviting atmosphere. Each collection blends perfectly with our stoneware, glassware, and linens, yet is versatile enough to complement existing tableware. We offer a variety of styles, exclusive designs, and innovative shapes and finishes, all crafted with attention to detail, transforming every meal into an elegant, memorable experience.

Exclusive tones curated for a fresh palette

Modern and stylish, Mito was designed to upgrade any table setting. With its vegetal resin handle in five different colors and a perfect balance with the steel, this collection appears original and contemporary.
Mito now comes in two new soft colors - Mint and Cloud Grey - adding two perfect shades that pair perfectly with COSTA NOVA tableware collections.

THE PRODUCTION PROCESS

Crafted in Portugal, Mito's production involves a careful manual process that honors craftsmanship and attention to detail. In the production process, the metal is directly injected into the resin handles, creating an exceptionally strong and durable bond between the two materials. Resin, a high-quality mineral fiber, is ideal for everyday cutlery. It is resistant to scratching, chipping, and impact, while maintaining a neutral temperature for a comfortable grip. Its non-porous surface prevents the absorption of water or stains, ensuring effortless cleaning and long-lasting beauty.

NEW COLORS

Featuring resin handles in five contemporary colors, it offers a comprehensive range of items that combine functionality with elegant, everyday sophistication.

Exclusive new finishes

Nau's new antique finish evokes a sense of authenticity, true to the COSTA NOVA spirit. Each piece feels lived-in and full of character, hand-finished with authenticity taking precedence over perfection. Because they are handmade, no two pieces are ever exactly alike - and that is precisely their beauty.

Striking, solid, and full of character, the Nau cutlery design draws inspiration from the Portuguese “nau” ships of the Age of Discoveries.

Like the vessels themselves, this collection embodies both strength and personality. Originally available in four finishes - Brushed, Polished, Copper, and Gold - Nau now introduces two exclusive new ones: antique-inspired, brushed, and gently worn (Antique-Black and Antique-Brown).

NEW COLORS

Nau

The Antique finish has a sense of history. It feels lived-in, experienced, and full of memories. Each piece is finished by hand, where authenticity matters more than perfection.

In the hospitality industry, this almost-forged look and aesthetic adds character to the experience and can enhance the guest experience with added interest.

The vintage look and unfinished aspect are the key features of both these new finishes, which bring new opportunities to hospitality storytelling.

RAMO BY CARSTEN GOLLNICK

carsten gollnick

Ramo was designed by Carsten Gollnick for COSTA NOVA. Its history and the creative process behind it are worthy of a closer look and appreciation...

“Designing cutlery is a great challenge for me as a designer, and one that I enjoy. It is a pleasure that I savour. It is a fact that cutlery is literally ‘held’ when in use. It is an important extension of the hands and an aesthetic aid in the process of dining.

For me, cutlery is not just a tool, but also an aesthetic instrument that is inextricably linked to the fascinating world of table culture. Many aspects of ergonomics and functionality have to be combined with an inspiring design language.

During this design process, which always begins analogously for me, I thought a lot about natural structures in the plant world.”

Carsten Gollnick, Product Designer

NEW COLLECTION

Ramo

Ramo cutlery combines exclusivity, sculptural design, nature-inspired elegance, and superior functionality.

Designed by Carsten Gollnick for COSTA NOVA, it is available in three finishes - Polished, Brushed, and Black. Its luxurious, sophisticated, and distinctive design makes it ideal for creating striking and aesthetically pleasing table settings.

With a thickness of 5 mm, it is exceptionally solid, offering maximum strength, a luxurious look and feel, and perfect balance in the hand - substantial without being heavy.

While it complements any existing tableware, Ramo was specifically designed to harmonize with COSTA NOVA styles.

SEN BY CARSTEN GOLLNICK

carsten gollnick

Sen is a reflection of bold, statement design, with a more expressive look. Designed by German designer Carsten Gollnick, this COSTA NOVA own-design collection elevates the dining experience with a quiet yet memorable aesthetic.

“My design intention for Sen was clear from the outset: I wanted to translate attributes such as minimalist elegance, generosity, shadow effects, and fine surfaces into a three-dimensional form.

I deliberately designed Sen as an architectural and geometric collection. The result is an atmosphere of calm and restraint. For me, cutlery is a partner to tableware and glassware in the context of use. With ‘Sen’, I wanted to design a partner for calm, elegant, minimalist, and material-conscious tableware and glassware.”

Carsten Gollnick, Product Designer

NEW COLLECTION

Sen

Sen is a cutlery collection designed by Carsten Gollnick for COSTA NOVA.

It features a minimalist, architectural, and sensorial design - bold yet delicate, modern, and distinctly geometric.

With a thickness of 5 mm, it provides a luxurious feel, while its perfect balance in the hand ensures exceptional comfort.

Sen is ideal for any setting that seeks to make a statement.

Use & Care

FINE STONEWARE

Not all stoneware is created equally. In fact, there is not a standard, universal definition of stoneware and the word is frequently misused to describe other ceramic products.
At our factories in Portugal, the ancient skills of modeling and decorating are combined with modern technology in a special process that produces high-quality fine stoneware products capable of withstanding everyday use over many years. Manufactured in a single firing system heated up to 1180ºC (2160ºF) our stoneware is very strong and durable. Its glazed surface is fully vitrified which gives it high resistance to both thermal and mechanical shock.

Oven, freezer and microwave safe
All pieces manufactured in fine stoneware have high thermal shock resistance, withstanding temperature variations between -20ºC and 250ºC (0ºF to 500ºF). The maximum thermal variation advised is 180ºC (350ºF). All stoneware products can be safely used in the oven, microwave, and freezer.
Recommendations:
- Avoid placing pieces straight from the oven on a cold surface.
- Do not use stoneware over a direct flame.
- Avoid using products with **craquelé surfaces*** in the oven or freezer (e.g., Cristal - Nacar, Dori - Nacar, Elements - Algarve, Madeira, Riviera and Silvina - Terracotta).

*Craquelé glaze is always reactive.

Dishwasher safe
All our pieces are easy to clean and can withstand abrasive cleaners due to their high durability and low porosity. Most items are dishwasher safe for daily use.
Recommendations:
- Assure items don't rub or bump against each other in the dishwasher.
- Hand wash oversized or delicate pieces.

*PVD gold-coated (Riviera) stoneware items: Not safe for oven, microwave, or freezer. Hand washing is advised.
*Lagoa metal's glaze should be protected by avoiding prolonged contact with acidic foods.
*Nótos' Mill is not dishwasher safe.

Food safe
All COSTA NOVA products meet international standards, including those set by the U.S. Food and Drug Administration (FDA) for lead and cadmium, securing they are safe for food use.

Craftsmanship
All COSTA NOVA fine stoneware products are hand-finished, giving them a unique character. Any irregularities, color variations, or small imperfections are signs of authenticity.

CUTLERY

At COSTA NOVA, our stainless-steel cutlery is designed to last a lifetime – combining design, functionality, and durability. With proper care, each piece will maintain its beauty, performance, and finish for years to come.

Washing - General care
- Rinse immediately after contact with acidic or salty foods to prevent discoloration or corrosion.

Dishwasher
- Our stainless-steel cutlery is dishwasher safe.
- Place the cutlery in the appropriate holder or compartment within the dishwasher, with handles facing downward and knives separated to prevent scratching.
- Avoid mixing cutlery made from different metals to prevent chemical reactions.
- Remove items immediately after the cycle and dry with a soft cloth to prevent water marks.
- Pieces with hollow handles, and made with wood, fiber/resin or PVD coatings may be placed in the dishwasher. Follow these guidelines:

- Wash at a maximum temperature of 60ºC (140ºF).
- Use detergent containing less than 10% phosphates.

Knives
- Blades are tempered for superior performance but may oxidize if left wet.
- Wash and dry knives immediately after use.
- Store in a knife block, sheath, or dedicated drawer to prevent dulling and damage.

Maintaining Shine & Handles
- To restore shine, soak stainless steel pieces briefly in a solution of 1 part vinegar to 8 parts warm water, then rinse and dry thoroughly.
- Wooden handles (such as maple or rosewood):

- Avoid prolonged exposure to water.
- Natural color changes over time are normal and add character.
- Occasionally apply a small amount of food-safe oil to preserve the wood's tone and texture.

Storage
- Store cutlery in a dry, ventilated environment.
- Use dividers, trays, or protective cases to prevent scratches.
- Keep knives protected to maintain their sharpness and surface integrity.

If Handwashing
- Handwashing is suitable for all stainless-steel cutlery.
- Use warm water and a mild detergent, and avoid abrasive sponges, steel wool, or harsh cleaning products.

Ceramic metal marking cleaner

In hospitality settings, regular use of metal utensils may result in light marks on COSTA NOVA glazed stoneware. These are normal and occur because the metal is softer than the glaze. They are not defects and do not affect the performance or durability of the product. Marks can be easily removed using COSTA NOVA's metal cleaner, ensuring your stoneware continues to look pristine and perform beautifully in every service.

GLASSWARE

COSTA NOVA glassware collections are made from either machine-made glass or handmade glass. Wine glasses, water glasses, and tumblers are dishwasher safe, though hand washing will help extend their lifespan. To maintain their original qualities, we recommend the following care:

- Before dishwashing: Rinse glasses in lukewarm water to remove any residues.
- In the dishwasher: Place glasses in the appropriate rack to avoid scratches. Set the dishwasher to 65ºC (149ºF) for washing, with a rinsing phase at 65ºC (149ºF), and a cycle of 90–120 minutes. Use the correct amount of brightener — too much can cause iridescence; too little may leave water marks. After washing, open the dishwasher door slightly for 5–10 minutes to let steam escape and prevent halos caused by condensation.
- Hand washing: Wash glasses individually with a non-abrasive detergent, warm water, and a soft sponge or cloth.
- Drying: Use a microfiber cloth for best results.

*For oversized or delicate items (decanters, glass domes), hand washing is recommended.

Note: Recycled glassware may have natural imperfections, which are part of the manufacturing process and add to its unique character.

LINENS

Made in Portugal from high-quality natural fibers, our linen collections are durable, easy to use, and simple to care for. They can be machine washed and ironed according to each fabric's specifications. While some 100% linen items recommend a gentle washing cycle, they can safely withstand a regular cycle -this precaution helps preserve the fibers. All items display a "no dry cleaning" symbol, though they can tolerate gentle professional cleaning if needed; this guidance is included because harsh solvents can damage the fabric.

BIO-BASED FAUX LEATHER

Contains 30% renewable plant-based content and incorporates copper nanoparticles with antibacterial properties.

LEATHER

Handcrafted in Portugal, our leather accessories are vegetable-tanned using one of the oldest and most eco-friendly methods. This process results in durable leather that ages beautifully over time. To maintain the original qualities, we advise some extra care:

- Wipe clean with a damp cloth.
- For maintenance, occasionally rub with appropriate oil.

CORK & CORK/RECYCLED EVA

COSTA NOVA cork collections are crafted from either 100% cork (Nótos, Redonda and Cork collections) or a blend of 20% cork and 80% recycled EVA (Cork collection). Cork acts as a natural insulator, retaining temperature, while recycled EVA is an eco-friendly material made from production waste. To maintain the original qualities, we advise some extra care:

- For daily cleaning, use a soft, dry cloth to remove impurities.
- When needed, use a moistened cloth, but do not soak.
- Store away from sunlight, moisture, and heat sources.
- Avoid strong alkalis, as they can dissolve cork.
- Although food contact is safe, avoid smoke odor and taste transfer.
- Do not place food directly on the surface.

WOOD

COSTA NOVA wooden accessories are handcrafted in Portugal from premium quality woods. Natural variations in tone and grain make each piece unique. To maintain the original qualities, we advise some extra care:

- Handwashing is recommended.
- Wipe wood pieces with a damp cloth; do not soak.
- Use mild dish detergent when necessary.
- To maintain the wood's original qualities, before first use rub with food-safe mineral oil.
- Use boards and boxes for dry food only.
- Re-treat wooden items over time with food-safe wax or oil. Avoid scented oils, as it can go rancid. Walnut oil, flaxseed, coconut oil, and linseed oil are good options.

Additional care:

1. Never place wooden accessories in the dishwasher or leave them soaking in water.
2. If edges become fuzzy after contact with water, lightly sand with fine-grit sandpaper and moisturize with wood oil or wax.

OTHERS

1. **Metal:** Clean with a moistened cloth when necessary; dry immediately after cleaning to prevent moisture damage.
2. **Horn napkin rings:** Clean with a moistened cloth.
3. **Teapot infusers and handles:** Dishwasher safe, but hand washing is recommended. Rinse immediately after use to remove tea leaves, and wash as soon as possible. Avoid using harsh cleaning agents. Dry immediately after washing and store in a dry place.

Our love for life, family, friends,
and healthy food has inspired us to
create fine stoneware collections
that combine quality and design
with the best techniques in ceramic
craftsmanship.

We produce innovative and sustainable
stoneware made from the best natural
resources in Portugal.

We embrace handmade and
preserve our European heritage
in manufacturing our stoneware
collections.

From tableware to moments, *inspire your table.*

At our core, we believe that a beautifully set table brings people together. More than just tableware, our collections create spaces where family and friends gather, share stories, and build memories that last a lifetime.

From stoneware to linens, cutlery to glassware, we design not just for the moment, but for the memories that follow - always with sustainability in mind.
Crafted with care and conscious materials in Portugal, our products honor European tradition and the environment, so that your moments are as lasting as they are responsible.

Every detail, perfectly curated

Cutlery

Crafted from premium 18/10 stainless steel, our cutlery combines durability with refined design, making it ideal for everyday use. In 2026, COSTA NOVA introduces three exclusive Designer Cutlery Collections - distinctive creations designed to complement our stoneware lines while pairing seamlessly with any tableware you already own. This landmark year also brings colors and innovative finishing techniques, adding unmatched character, elegance, and versatility to our portfolio.

Glassware

Our glassware, made with purpose in Europe, tells a story of tradition and innovation. From handmade glass to machine-made techniques, each piece reflects thoughtful craftsmanship. For those who care about the planet, we offer recyclable glassware designed to minimize environmental impact.

Linens

Crafted from the finest natural fibers in Portugal, our linens are sourced and produced through sustainable methods. We proudly support small and family-owned businesses, certifying that each piece reflects quality, care, and a commitment to people and the planet.

Cork and Wood Collections

Portuguese cork, a highly sustainable material, is harvested without harming the tree, while our premium oak wood is renewable, biodegradable, and non-toxic. Each piece varies in tone and grain, making it uniquely yours. These natural elements reflect our commitment to blending design with nature and honoring the landscapes we cherish.

Sustainable Stoneware Sustainable Industry

We manufacture in Portugal, using the best local natural resources, which minimizes our ecological footprint. Our original formula results in a unique ceramic body with a special bonding between the clay and the glazed surface, making our products more durable – as they are resistant to thermal and mechanical shocks. This means our stoneware doesn't chip or scratch easily, and it can withstand high temperatures. It also means it has a longer lifespan, compared to more fragile ceramics, reducing the frequency of replacement and the associated resource consumption.

Eco-design

Our designers play a key role in promoting sustainability in stoneware manufacturing. We minimize the environmental impact of our products by considering form, ergonomics, aesthetics, and durability, while **optimizing the use of resources** like clay, glaze, energy, and water. All products are made to be eco-friendly, reusable, and recyclable, with minimal waste during production.

Packaging

Our packaging is 100% plastic-free and recyclable, using only non-hazardous dyes. To reduce waste, we developed **Ecocard**, made from crushed internal cardboard waste, used in 15% of our boxes. Our boxes are FSC certified (75% recycled cardboard), sealed with recycled paper tape, and designed to be reusable.

Ethical Business Pratices

We are committed to high ethical standards across all operations, ensuring full compliance with EU regulations. Regular audits, conducted by both official regulators and independent auditors, verify these standards. We also ensure that all employees receive **fair wages** above the required minimum.

Energy efficiency

We prioritize **energy efficiency** by harnessing 1180 kW of solar power, enabling our newest factory to run entirely on self-generated energy during daylight. The remaining factories operate with a combination of solar and other renewable sources. Our kilns are 15% more efficient than even the most energy-efficient kilns on the market, thanks to our innovative closed-circuit system that reuses heat. Additionally, our single-firing process further minimizes energy consumption and CO2 emissions, and we are leading the way in Europe by testing hydrogen-powered firing at an industrial scale for utility ceramics.

Waste management

The waste we generate is mindfully managed. 99% of our waste is either recycled or reused within our production process. **We transform excess materials into new products** and recycle waste from our factories back into new stoneware. With **Ecogres®,** we created a new material made from recycled clays and glazes, as well as waste materials from nearby industries.

Water treatment

In addition to our reducing consumption practices, 100% of our water is carefully treated and reused for internal cleaning processes or reintroduced in our production process.

Each one of our factories is equipped with an industrial **waste water treatment plant,** complying with EU standards.

We recycle all of our factory's excess clay into brand new dinnerware, therefore limiting transport emissions.

Ecogres®

From the earth to the Earth

At COSTA NOVA we are committed to making stoneware even more sustainable. In partnership with the University of Aveiro (Portugal), we developed Ecogres®, a new raw material created by collecting, recycling, and reusing clays and glazes from our operations, along with waste materials from nearby industries.

The result is Ecogres® (ecogres), a reinvented clay made entirely from recycled materials.

Stoneware

Not all stoneware is created equal, and COSTA NOVA's stoneware is definitely different. Manufactured in Portugal, a country with a long standing ceramic tradition, the know-how used to produce COSTA NOVA's stoneware is not easily found elsewhere. Resistance, durability, and innovative and distinctive design are just a few features that set our stoneware apart, making it both recognizable and unique.

Each piece features a matte glaze on the interior while retaining its unglazed underside, a distinctive detail that easily imparts an artisanal aesthetic to the collection.

Hand-painted in a small Portuguese *Atelier*

Each and every rim of the Beja collection (red & blue) is hand-painted in a small, family-owned atelier. Each piece is placed on a turntable which, as it spins the artist touches it with the brush, and begins to form what becomes Beja.

STYLE - HERITAGE

SPECIAL FEATURES AND HIGHLIGHTS

Design inspired by old enamel dinnerware.
Hand-painted fine rim with a striking glaze.
Combines vintage style with a modern update.

Botanica

Botanica mimics hornbeam and oak leaves with a golden coating that makes this collection perfect for gifting, decorating, and hosting. But beyond its beautiful look, Botanica represents the beauty found in nature's processes: hornbeam leaves stay on the tree during winter to provide protection, while oak leaves gracefully fall, making way for new growth and symbolizing renewal.

Brisa

The warm breeze that blows from the east and cascades along the Algarve coast with fruity aromas and the flavors of Ria Formosa was the inspiration for this collection. The blended white and blue glazes and organic shapes transport us to the intricate landscape of lagoons, canals, salt works, and sandy beaches stretching across deserted islands. Brisa adds light to every gathering and turns any table into a memorable experience.

[nótos]

For his first collaboration with COSTA NOVA, the renowned German designer Carsten Gollnick took inspiration from the aesthetic world of Portuguese Atlantic coast, and created a distinctive tableware collection in fine stoneware. The remarkable color contrasts and structures of the Portuguese Atlantic coast, especially the border between water and land, was his source of inspiration.

RODA

Roda is a modern and elegant collection by Torres Euracini. Each piece is thoughtfully designed to exceed expectations in adaptability and efficiency. The word “Roda” originates from the Latin “rota,” used by the Romans to describe things that move in circles. In Portuguese, “Roda” refers to any circular formation or gathering, symbolizing the act of bringing people together. According to the designer, this concept inspired the collection’s name: “By gathering everyone around the table, in a circle of friends, we awaken the joy of sharing flavors, experiences, and stories filled with emotions and shared memories.”

Silvina

Silvina is a collection that tells a story. It begins with its name, honoring the grandmother of COSTA NOVA's founder and recognizing Portuguese heritage, as the name Silvina brings to mind tradition. Inspired by 16th-century Palissy ceramics, where texture is prominent, this collection emerges as a sensory experience for the table, in both dinnerware and serveware pieces. Ideal for rustic settings, its white glossy glaze also works beautifully to contrast with more modern or sophisticated spaces.

Poterie

The Poterie Coffee Cups are a new chapter in our Coffee Story narrative. Each cup presents a reactive glaze that is attentively applied to the edge, allowing the glaze to drip naturally down the sides, resulting in a finish that makes every piece unique. In Portugal, where coffee breaks are valued, this artistic and carefully controlled - yet delightfully unpredictable - decoration process guarantees that each cup tells its own story, much like the conversations shared over a warm espresso.

Cutlery

At COSTA NOVA, our cutlery is made from premium 18/10 stainless steel. Each piece undergoes a meticulous process that blends ancestral know-how with contemporary innovation. The use of 18/10 stainless steel ensures durability and resistance to corrosion, while the thickness of the material contributes to the robustness and perfect balance of the pieces. The manufacturing process is meticulous and largely manual, with each piece passing through the hands of expert craftsmen - true artists and sculptors, not just factory workers.

In this edition, we celebrate artistry and heritage in cutlery design. The new Ramo and Sen collections by Carsten Gollnick embody elegance and precision, while Douro draws inspiration from Portugal's terraced vineyards and showcases traditional craftsmanship. We also introduce a contemporary touch with new colors and finishes in Mito and Nau, blending timeless design with authentic character.

NEW COLLECTION

Douro

The Douro collection is inspired by the iconic terraced vineyards of the Douro Valley. These schist stone terraces, known as “socalcos vinhateiros”, were carved into the steep hillsides over centuries, allowing for the cultivation of vines in one of Portugal’s most dramatic landscapes. Douro features wavy, ergonomically shaped handles and a classic, timeless silhouette. Available in polished and vintage brushed finishes, it captures the enduring charm of traditional craftsmanship while remaining effortlessly stylish.

STYLE - HERITAGE

A vintage-inspired classic, finished with timeless, heritage touches.

NEW COLLECTION

Ramo

Ramo cutlery combines exclusivity, sculptural design, nature-inspired elegance, and superior functionality. Designed by Carsten Gollnick for COSTA NOVA, it is available in three finishes - Polished, Brushed, and Black. Its luxurious, sophisticated, and distinctive design makes it ideal for creating striking and aesthetically pleasing table settings. While it complements any existing tableware, Ramo was specifically designed to harmonize with COSTA NOVA styles.

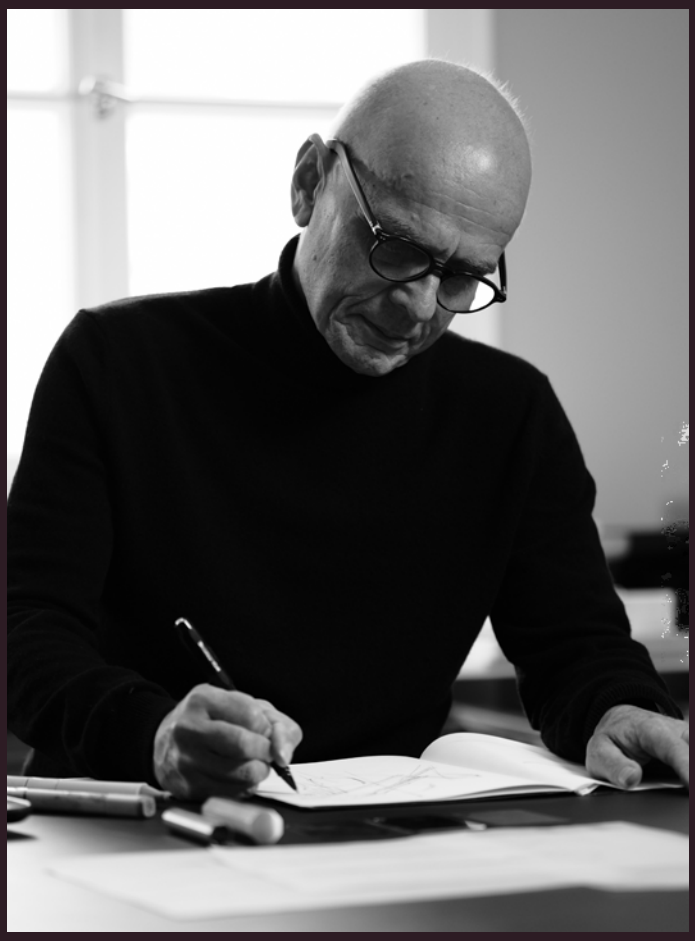
MADE IN INDONESIA.

The Vision of Carsten Gollnick

Ramo is a designer collection, thoughtfully curated for the table.
With a thickness of 5 mm, it is exceptionally solid, offering maximum strength, a luxurious look and feel, and perfect balance in the hand - substantial without being heavy.



“

Designing cutlery is a great challenge for me as a designer, and one that I enjoy. It is a pleasure that I savour. It is a fact that cutlery is literally ‘held’ when in use. It is an important extension of the hands and an aesthetic aid in the process of dining. For me, cutlery is not just a tool, but also an aesthetic instrument that is inextricably linked to the fascinating world of table culture. Many aspects of ergonomics and functionality have to be combined with an inspiring design language.
During this design process, which always begins analogously for me, I thought a lot about natural structures in the plant world.

I naturally start the design process for Ramo analogously. This means that I create a large number of drawings and nature studies of branches, twigs and floral structures. I carried out an abstraction process in several design steps. The result: three-dimensional cutlery.

Ramo is my attempt to combine elegance, function and nature in an aesthetic tool.

Here, branch knots, ramifications and tense natural structures form a functional sculpture. I made sure that the stainless steel material was both functional and aesthetically pleasing. I deliberately designed the shape to soften the hardness and severity of the stainless steel. To achieve this, I made the lines and surfaces appear more natural without making them look too soft.

Brushed (BRS)

Polished (POL)

It was particularly important to me that the Ramo cutlery harmonises naturally with the COSTA NOVA range – with its nature-inspired stoneware collections and interesting natural-coloured glazes. I deliberately paid a lot of attention to the surface variations, matte finishes and colour tones.

NEW COLLECTION

Sen

Sen is a cutlery collection designed by Carsten Gollnick for COSTA NOVA. It features a minimalist, architectural, and sensorial design - bold yet delicate, modern, and distinctly geometric. With a thickness of 5 mm, it provides a luxurious feel, while its perfect balance in the hand ensures exceptional comfort. Sen is ideal for any setting that seeks to make a statement.

Brushed (BRS)

by carsten gollnick

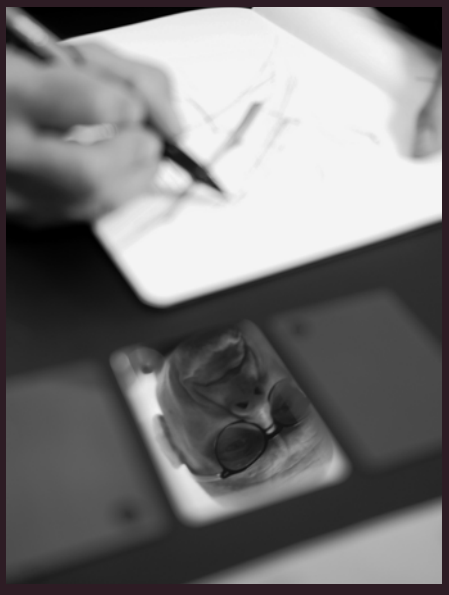
STAINLESS STEEL 18/10, 5 MM, BRUSHED FINISH (BRS, BLK), POLISHED FINISH (POL), PVD COATING (BLK), SOLID HANDLE.
MADE IN INDONESIA.

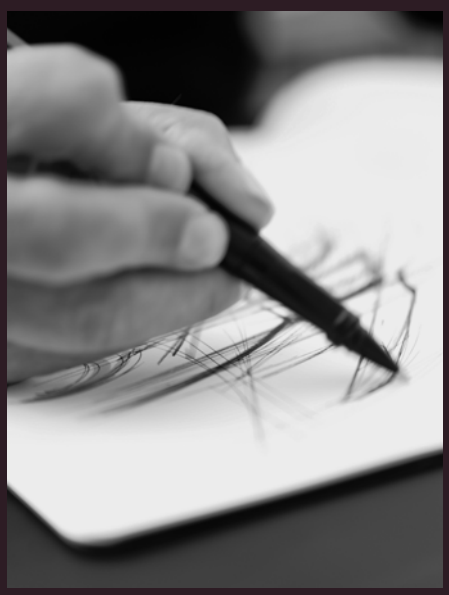
The Vision of Carsten Gollnick

“

For me, cutlery is not just a tool, but also an aesthetic instrument. Table culture and these products are inextricably linked. Here, many aspects of ergonomics and functionality must be combined with an inspiring design language.

My design intention for Sen was clear from the outset: I wanted to translate attributes such as minimalist elegance, generosity, shadow effects and fine surfaces into a three-dimensional form.
I deliberately designed Sen as an architectural and geometric collection. The result is an atmosphere of calm and restraint.





Polished (POL)

For me, cutlery is a partner to tableware and glassware in the context of use. With 'Sen', I wanted to design a partner for calm, elegant, minimalist and material-conscious tableware and glassware.

The materiality of stainless steel and the effect of the surfaces and materials are strikingly emphasised by the long and dominant handle sculpture. It was important to me that the surface quality was right and that the style surfaces had a high-quality, silky sheen.

With Sen, I deliberately wanted to make a strong design statement.

Brushed Black (BLK)

My wish was to combine architectural elegance, self-evident function and urban style in an aesthetically appealing tool.

Cork pieces bring a natural warmth to the table, and beyond their aesthetic beauty, they offer countless practical advantages. Naturally antibacterial and water-repellent, cork resists moisture and prevents mold, making it the best option for kitchen use.

Use & Care

STONEWARE

Not all stoneware is created equally. In fact, there is not a standard, universal definition of stoneware and the word is frequently misused to describe other ceramic products.

At our factories in Portugal, the ancient skills of modeling and decorating are combined with modern technology in a special process that produces high-quality fine stoneware products capable of withstanding everyday use over many years. Manufactured in a single firing system heated up to 1180ºC (2156ºF) our stoneware is very strong and durable. Its glazed surface is fully vitrified which gives it high resistance to both thermal and mechanical shock.

OVEN, FREEZER AND MICROWAVE SAFE

All pieces manufactured in fine stoneware have high thermal shock resistance, withstanding temperature variations between -20ºC and 250ºC (0ºF to 500ºF). The maximum thermal variation advised is 180ºC (350ºF). All stoneware products can be safely used in the oven, microwave, and freezer.

Recommendations:

// Avoid placing pieces straight from the oven on a cold surface.

// Do not use stoneware over a direct flame.

// Avoid using products with craquelé surfaces* in the oven or freezer (e.g., Cristal-Nacar, Dori-Nacar, Elements-Algarve, Lisboa, Madeira, Riviera and Silvina-Terracotta).

*Craquelé glaze is always reactive.

FOOD SAFE

All COSTA NOVA products meet international standards, including those set by the U.S. Food and Drug Administration (FDA) for lead and cadmium, securing they are safe for food use.

DISHWASHER SAFE

All pieces are easy to clean and can withstand abrasive cleaners due to their high durability and low porosity. Most items are dishwasher safe for daily use.

Recommendations:

// Assure items don't rub or bump against each other in the dishwasher.

// Hand wash oversized or delicate pieces.

*__PVD gold-coated__ (Botanica, Resonance, Riviera and Taormina) stoneware items: Not safe for oven, microwave, or freezer. Hand washing is advised.

*Lagoa metal's glaze should be protected by avoiding prolonged contact with acidic foods.

*Nótos' Mill is not dishwasher safe.

CRAFTSMANSHIP

All COSTA NOVA fine stoneware products are hand-finished, giving them a unique character. Any irregularities, color variations, or small imperfections are signs of authenticity, not defects.

CUTLERY

Ceramic Metal Marking Cleaner

Over time and with regular use, you may notice gentle marks on your COSTA NOVA stoneware from metal utensils. These occur because the metal is softer than the glaze. They are completely normal, not a defect, and not permanent. You can easily remove them with our COSTA NOVA metal cleaner. Your stoneware remains as beautiful and resilient as ever.

Made from high-quality stainless steel (18/10), all COSTA NOVA cutlery collections are crafted for exceptional durability and suitable for everyday use. To maintain the original qualities, we advise some extra care:

// Remove food residues after each use to avoid prolonged contact.

// For manual washing, use hot water, neutral detergent, and a soft cloth or sponge.

// Do not use abrasive or mechanical aggressive agents.

// Place cutlery in the dishwasher's basket or tray, keeping knives separate from other pieces.

// After each dishwasher cycle, dry cutlery with a soft cloth.

// Pay special attention to knives, especially hollow-handle knives, as they are sharper and more prone to oxidation. Dry them thoroughly after washing.

// To restore shine and remove stains, use a soft cloth with a few drops of lemon juice.

// Special materials like Fiber/Resin or PVD should only be washed in the dishwasher, following specific instructions: use temperatures no higher than 60ºC (140ºF) and a detergent with less than 10% phosphates.

// Keep cutlery in a dry place.

// Rehydrate resin handles with a moisturizing cream.

*Steak/Cheese Knives: Dishwasher safe, but hand washing is recommended. The wood handles will naturally change color over time, adding a charming, lived-in character.

GLASSWARE

COSTA NOVA glassware collections are made from either pressed glass or mouth-blown glass using semi-manual methods. Wine glasses, water glasses, and tumblers are dishwasher safe, but hand washing will extend their lifespan. To maintain the original qualities, we advise some extra care:

// Before dishwashing, rinse glasses in lukewarm water to remove any residues.
// In the dishwasher place glasses in the appropriate rack to avoid scratches. Set the dishwasher to 65ºC (149ºF) for washing, with a rinsing phase at 65ºC (149ºF), and a cycle of 90/120 minutes. Use the correct amount of brightener; too much can cause iridescence, and too little can leave water marks.

After the wash, open the dishwasher door slightly for 5-10 minutes to let steam escape and prevent halos on the glass due to condensation.
// Hand washing: wash glasses individually with a non-abrasive detergent, warm water, and a soft sponge or cloth.
// For drying use a microfiber cloth.

*For **oversized** or **delicate** items (such as decanters, glass domes, Gomos and Sensa sprayed colored glass, and pieces from the Tosca recycled glass collection), hand washing is recommended.

TABLE AND KITCHEN LINENS

Made in Portugal from high-quality natural fibers, our linen collections are durable, easy to use, and simple to care for. They can be machine washed and ironed according to each fabric's specifications. While some 100% cotton items recommend a gentle washing cycle, they can safely withstand a regular cycle - this precaution helps preserve the fibers.
All items display a "no dry cleaning" symbol, though they can tolerate gentle professional cleaning if needed; this guidance is included because harsh solvents can damage the fabric.

COMPLEMENTS

Cork & Cork/Recycled Eva

COSTA NOVA cork accessories are made from either 100% cork (Cork, Modern Storage and Redonda collections) or 20% cork/80% recycled EVA (Cork collection). Recycled EVA is a byproduct from sole production waste, making it a recycled and eco-friendly material.
To maintain the original qualities, we advise some extra care:
// For daily cleaning, use a soft, dry cloth to remove impurities.
// When needed, use a moistened cloth, but do not soak.
// Store away from sunlight, moisture, and heat sources.
// Avoid strong alkalis, as they can dissolve cork.
// Although food contact is safe, avoid smoke odor and taste transfer.
// Do not place food directly on the surface.
// Store away from sunlight, moisture, and heat sources.
// Avoid strong alkalis, as they can dissolve cork.
// Although food contact is safe, avoid smoke odor and taste transfer.
// Do not place food directly on the surface.

COMPLEMENTS

BIO-BASED FAUX LEATHER

Contains 30% renewable plant-based content and incorporates copper nanoparticles with antibacterial properties.

LEATHER

Handcrafted in Portugal, our leather accessories are vegetable-tanned using one of the oldest and most eco-friendly methods.
This process results in durable leather that ages beautifully over time.
To maintain the original qualities, we advise some extra care:
// Wipe clean with a damp cloth.
// For maintenance, occasionally rub with appropriate oil.

WOOD

COSTA NOVA wooden accessories are handcrafted in Portugal from premium quality woods. Natural variations in tone and grain make each piece unique. To maintain the original qualities, we advise some extra care:
// Handwashing is recommended.
// Wipe wood pieces with a damp cloth; do not soak.
// Use mild dish detergent when necessary.
// To maintain the wood's original qualities, occasionally rub with food-safe mineral oil.
// Use boards and boxes for dry food only.
// Re-treat wooden items over time with food-safe wax or oil. Avoid scented oils, as it can go rancid. Walnut oil, flaxseed, coconut oil, and linseed oil are good options.

Additional care:

01 Never place wooden accessories in the dishwasher or leave them soaking in water.

02 If edges become fuzzy after contact with water, lightly sand with fine-grit sandpaper and moisturize with wood oil or wax.

Others

METAL

Clean with a moistened cloth when necessary; dry immediately after cleaning to prevent moisture damage.

HORN NAPKIN RINGS

Clean with a moistened cloth.

TEAPOT INFUSERS

Dishwasher safe, but hand washing is recommended. Rinse immediately after use to remove tea leaves, and wash as soon as possible. Avoid using harsh cleaning agents. Dry immediately after washing and store in a dry place.

TERRACOTTA (EARTHENWARE)

Handmade and hand-painted in Portugal by artisans, slight design and color variations are normal. Earthenware is low-fired and tends to "craze" with repeated use, which is natural and does not significantly affect the ceramics. Most items are dishwasher safe if handled with care, but handwashing will extend the product's lifespan. Not recommended for microwave or freezer use.

Bath collection

We've designed a collection of stylish, durable bath complements to enhance the guest experience. With nine distinct sets to suit a range of interior styles, each piece is dishwasher safe, easy to maintain, and made from sustainable materials in ethically run factories in Portugal.

// Zinc Alloy: Resistant to corrosion, wear, and impact. Wipe with a soft, damp cloth, using warm water and a mild soap if needed.
// Easy to maintain: All stoneware items are dishwasher safe.
// Avoid: Harsh chemicals (bleach, ammonia, or strong disinfectants) and abrasive cleaners or metal scouring pads.

CUTLERY CATALOG

2026 - 2027

ANCESTRAL KNOW-HOW. CONTEMPORARY INNOVATION.

Expertly crafted *cutlery*

STAINLESS STEEL
18/10

At COSTA NOVA, our cutlery is made from premium 18/10 stainless steel. Each piece of cutlery undergoes a meticulous process that blends ancestral know-how with contemporary innovation. The use of 18/10 stainless steel ensures durability and resistance to corrosion, while the thickness of the material contributes to the robustness and perfect balance of the pieces.

The manufacturing process is meticulous and largely manual, with each piece passing through the hands of expert craftsmen – true artists and sculptors, not just factory workers.

Inspired by COSTA NOVA's brand essence, our cutlery is designed to harmonize with every table setting, creating a relaxed and inviting atmosphere. Each collection blends perfectly with our stoneware, glassware, and linens, yet is versatile enough to complement existing tableware.

We offer a variety of styles, exclusive designs, and innovative shapes and finishes, all crafted with attention to detail, transforming every meal into an elegant, memorable experience.

Every piece of cutlery passes through the hands of master artisans, where skill and care transform metal into functional art.

A FÁBRICA

The Art of Cutlery Manufacturing

At COSTA NOVA, the cutlery manufacturing process combines careful selection of 18/10 stainless steel, precise blanking and forming, optional forging, meticulous grinding and polishing, handle attachment, decorative finishing and a rigorous quality control.

Exclusive Designs and *Unique Finishes*

THE COSTA NOVA
SPIRIT

Our cutlery catalog presents collections designed for COSTA NOVA by renowned designers, whose expertise seamlessly blends ergonomic functionality with sophisticated design.

In this edition, we celebrate artistry and heritage in cutlery design. **Ramo** and **Sen,** created by the acclaimed German designer Carsten Gollnick, exemplify elegance and precision. **Douro,** by contrast, draws inspiration from the breathtaking terraced vineyards of Portugal's Douro Valley and is crafted using time-honored techniques that honor tradition and authenticity.

Adding a contemporary touch, COSTA NOVA introduces exclusive colors and finishes:

Mito unveils two new colors, perfectly designed to complement our stoneware and textile collections.
Nau, in turn, introduces two new finishes and colors – antique-inspired, brushed, and gently worn – that bring character and charm, transforming functional cutlery into a statement of style and craftsmanship. Each piece is truly unique, ensuring no two are ever exactly alike.

Every cutlery collection tells a story, seamlessly balancing form, function, and the unmistakable COSTA NOVA spirit.

DOURO

Inspired by the terraced vineyards of Portugal's Douro Valley, this collection features wavy, ergonomically shaped handles and a classic, timeless silhouette. Available in polished and vintage brushed finishes, it captures the enduring charm of traditional craftsmanship while remaining effortlessly stylish.

Escada high cork riser.

Douro: *The inspiration*

The **Douro** collection is inspired by the iconic terraced vineyards of the Douro Valley. These schist stone terraces, known as "socalcos vinhateiros", were carved into the steep hillsides over centuries, allowing for the cultivation of vines in one of Portugal's most dramatic landscapes.

A true testament to human adaptation to nature, this unique scenery led to the Alto Douro Wine Region being designated a UNESCO World Heritage Site in 2001. The intricate details on the cutlery handles reflect the winding paths of these historic vineyards, paying tribute to the land where some of Portugal's most celebrated wines are born.

The production process: Table Knife with Hollow Handle

Douro's professional table knife is available with two handle options – sleek hollow or robust solid – giving chefs the freedom to choose the feel and balance that suits their style.

Hollow handles are prized for their reduced weight and superior balance, offering comfort and precision in every cut, while their production demands expert craftsmanship – including precise internal shaping, careful engineering for strength, secure blade attachment, selective materials, and meticulous finishing – to ensure both durability and a flawless appearance.

RAMO

BY

carsten gollnick

Ramo cutlery combines exclusivity, sculptural design, nature-inspired elegance, and superior functionality. Designed by Carsten Gollnick for COSTA NOVA, it is available in three finishes – Polished, Brushed, and Black. Its luxurious, sophisticated, and distinctive design makes it ideal for creating striking and aesthetically pleasing table settings. While it complements any existing tableware, Ramo was specifically designed to harmonize with COSTA NOVA styles.

Design *inspiration*

"I naturally start the design process for Ramo analogously.

This means that I create a large number of drawings and nature studies of branches, twigs, and floral structures. I carried out an abstraction process in several design steps. The result: three-dimensional cutlery.

Here, branch knots, ramifications, and tense natural structures form a functional sculpture. I made sure that the stainless steel material was both functional and aesthetically pleasing.

I deliberately designed the shape to soften the hardness and severity of the stainless steel. To achieve this, I made the lines and surfaces appear more natural without making them look too soft."

"For me, cutlery is not just a tool, but also an aesthetic instrument. Table culture and these products are inextricably linked. Here, many aspects of ergonomics and functionality must be combined with an inspiring design language."

SEN

BY

carsten gollnick

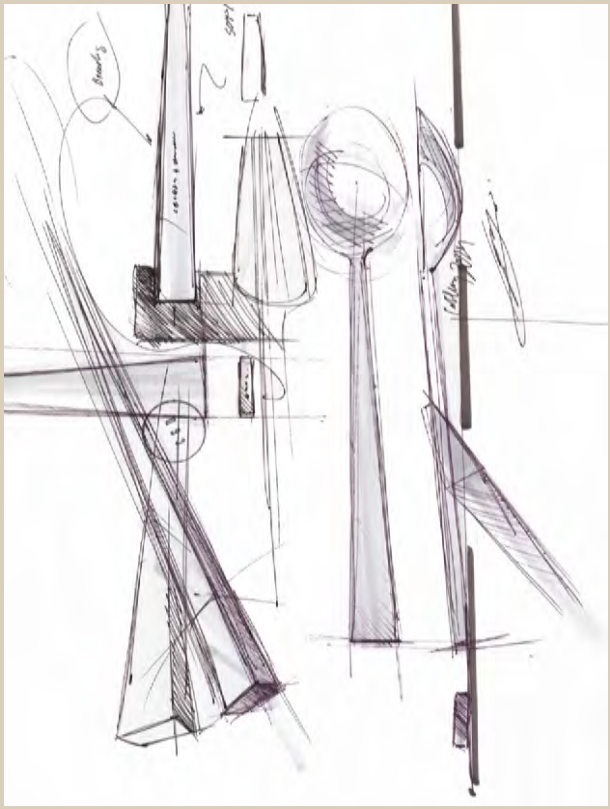
Sen is a cutlery collection designed by Carsten Gollnick for COSTA NOVA. It features a minimalist, architectural, and sensorial design – bold yet delicate, modern, and distinctly geometric. With a thickness of 5 mm, it provides a luxurious feel, while its perfect balance in the hand ensures exceptional comfort.

Sen is ideal for any setting that seeks to make a statement.

Design *inspiration*

"My design intention for Sen was clear from the outset:

I wanted to translate attributes such as minimalist elegance, generosity, shadow effects, and fine surfaces into a three-dimensional form.
I deliberately designed Sen as an architectural and geometric collection."



"The result is an atmosphere of calm and restraint. For me, cutlery is a partner to tableware and glassware in the context of use. With 'Sen', I wanted to design a partner for calm, elegant, minimalist, and material-conscious tableware and glassware."

Pieces with hollow handles, and made with wood, fiber/resin or PVD coatings may be placed in the dishwasher. Follow these guidelines:

- Wash at a maximum temperature of 60ºC / 140ºF.

- Use detergent containing less than 10% phosphates.

Knives

Blades are tempered for superior performance but may oxidize if left wet.

Wash and dry knives immediately after use.

Store in a knife block, sheath, or dedicated drawer to prevent dulling and damage.

Maintaining Shine & Handles

To restore shine, soak stainless steel pieces briefly in a solution of 1 part vinegar to 8 parts warm water, then rinse and dry thoroughly.

Wooden handles (such as maple or rosewood):

- Avoid prolonged exposure to water.

- Natural color changes over time are normal and add character.

- Occasionally apply a small amount of food-safe oil to preserve the wood’s tone and texture.

Storage

Store cutlery in a dry, ventilated environment.

Use dividers, trays, or protective cases to prevent scratches.

Keep knives protected to maintain their sharpness and surface integrity.

If Handwashing

Handwashing is suitable for all stainless-steel cutlery.

Use warm water and a mild detergent, and avoid abrasive sponges, steel wool, or harsh cleaning products.

TABLES OF SUN

COSTA NOVA SPRING SUMMER'26

ALGARVE

COSTA NOVA

PORTUGAL

COSTA NOVA **SPRING SUMMER 2026**

When the first rays of sun appear, we head south.
It's almost instinct. The Algarve calls — a promise
of light, salt, and stillness.

Every year, we return. For long spring weekends.
For Easter. For summers that seem to never end.
The South becomes our pause, our way of breathing again.

This season, we translate that feeling into
form, bringing it to the table.
Heritage lines softened by time, textures that speak of craft
and the Portuguese sun. Each piece is a quiet celebration of
reinvented tradition, of innovation, form, color, and light.

For this journey, we looked beyond the tourist bustle
and the summer rush — to places where the Algarve
reveals its quieter side: sophisticated, timeless, and true.
Here, authenticity endures. Tradition and the
contemporary coexist with ease, in spaces that remain
true to themselves - quiet, refined, and full of soul.

Venha daí! Join us on this journey and let
the Algarve sun lead the way.

HOSPEDARIA, ALGARVE

Vila / Hospedaria
A Journey of Connection

At Hospedaria, **Vila** finds its perfect setting: among walls whitewashed with lime, heirloom pieces, the quiet rhythm of the countryside, and the timeless light of the Algarve.

In Sítio da Cumeada, set in the heart of the Algarve's barrocal region — between the sea and the hills, near the historic town of Tavira and the village of Cacela Velha — stands Hospedaria, a rural retreat created by the Pensão Agrícola Group.

Once a roadside tavern and trading post dating back to 1917, it was for decades a meeting place for farmers and travelers — a space of exchange, stories, and celebration, remembered fondly for the "bailes da Cumeada" (the Cumeada dances).

After thirty years of silence, Hospedaria was brought back to life with care and intention. The architecture preserves the essence of the original venda, reinterpreting its materials and memories through a contemporary lens.

This harmony between past and present mirrors the spirit of the **Vila Collection** — a line inspired by traditional Portuguese ceramics and reimagined for modern living.

Inspired by the romantic spirit of late 19th-century Portugal, **Vila — COSTA NOVA's new collection** pays homage to the delicate charm of traditional floral faience.

Back then, floral motifs adorned ceramics that reflected the warmth and intimacy of Portuguese homes: modest yet exquisitely cared for.

Drawing from a rich heritage of craftsmanship, the new collection reimagines romantic motifs through a contemporary lens. Soft glazes, tactile textures, and gentle tones echo the hand-painted ceramics of a bygone era. **Vila** is a quiet homage to faience shaped by French, English, and Portuguese hands, where artistry and local devotion intertwined: a timeless expression of beauty for the modern table.

New Cutlery
— **Nau** – Antique Brown

A Table Full of Sun

QUINTA DO PINHEIRO, ALGARVE

Vila / Quinta do Pinheiro
A Journey of Connection

The **Vila collection** brings tradition to the table with a modern twist. Its classic colorways — the forever elegant combination of **white with red** and **white with blue** — recall 19th-century Portuguese floral motifs, while its naturally flowing edges and contemporary reinterpretation make them a today's timeless must-have.

Set against the serene backdrop of **Quinta do Pinheiro**, the collection finds its perfect home. The Quinta's 19th-century architecture - red-framed windows, local stone floors, and interiors bathed in shifting natural light - harmonizes with Vila's colors and textures. Surrounded by orchards, vineyards, and the Ria Formosa, the estate's historic charm and natural beauty amplify the collection's vibrant yet refined spirit.

Renovated in 2021 by a Dutch couple who preserved its original character while bringing modern comfort, Quinta do Pinheiro mirrors Vila's philosophy: a dialogue between tradition and reinvention. Together, collection and estate celebrate heritage, summer light, and the effortless elegance of Tavira, offering a setting where timeless design and contemporary life meet.

Lunch in a Portuguese Kitchen

In Portugal, family tradition begins in the kitchen, where informal lunches are savored amidst the hum of daily life. Setting the table beautifully in the kitchen — a room so lived in, where meals are prepared with care and shared with joy — is as natural today as it was in the 19th century. **Vila**, a reinvented classic, finds its perfect place, whether on the grand dining table or amid the warmth of the kitchen, its elegance understated, timeless, and effortlessly modern.

Every detail whispers of summer afternoons and leisurely meals. **Vila in white-red** and **Fattoria** take center stage, their colors and forms composing a scene straight from a book about the Algarve's new luxury way of living — a kitchen where tradition, reinvention, and the simple joy of being together come alive.

A Table Beneath Time

PENSÃO AGRÍCOLA, ALGARVE

We arrived at **Pensão Agrícola**, a 1920's farmhouse reborn with quiet grace as a rural hotel.

Every corner carries the warmth of the Algarve - whitewashed walls, terracotta floors, orange, fig, almond and arbutus trees that have seen generations come and go. Under the shade of a secular olive tree, a table awaits - rustic, honest, and true. It is set with **Beja**, COSTA NOVA's tableware collection inspired by antique enameled pieces, heritage turned modern, a tribute to the everyday beauty of Portuguese craft.

Opposite page: **Beja** dinner plate 28, soup/pasta plate 21 and round ramekin 9 in white & red, pitcher 219 cl and serving bowl 30 in white & cream with **Mito** table fork in wood, **Remo** rosewood steak knife, **Gomos** wine glass 23 cl in clear, and **Carolina** napkin in white-red.

Beja / Pensão Agrícola
Beja, a moment suspended

This rural hotel is as authentic as it is genuinely sophisticated, a place where eating outdoors beneath an olive tree or a vineyard becomes a luxurious experience.

Guests are served with COSTA NOVA tableware, thoughtfully mixed with relics in silver, crystal, and antique French faience and porcelain.

Here, time bends gently backward. The past and present share the same table.
The **Beja collection** carries this spirit. It is more than tableware. It is a feeling. A memory made tangible.

1 red bell pepper
½ cucumber
½ small onion
1 garlic clove
50 ml extra virgin olive oil
20 ml red wine vinegar (or to taste)
Salt and pepper to taste
100 ml cold water (optional, to adjust consistency)
Fresh basil or coriander leaves (optional, for garnish)

INSTRUCTIONS

Blend: Combine tomatoes, pepper, cucumber, onion, and garlic in a blender until smooth. **Season**: Add olive oil, vinegar, salt, and pepper. Blend again. Thin with a little cold water if needed. **Chill:** Refrigerate for at least 1 hour. **Serve:** Pour into COSTA NOVA soup plates, bowls or glasses. Garnish with herbs or diced vegetables and a drizzle of olive oil.

Salada Montanheira

Rustic Algarve salad born from the mountains, yet perfect for leisurely summer dining.

INGREDIENTS

200 g boiled potatoes, diced
200 g green beans, blanched and cut
1 red bell pepper, roasted and sliced
1 small onion, thinly sliced
2 hard-boiled eggs, quartered
100 g cooked smoked sausage or chorizo, sliced (optional)
50 ml extra virgin olive oil
15 ml red wine vinegar
Salt and black pepper to taste
Fresh parsley, chopped

INSTRUCTIONS

Prepare the vegetables: Boil potatoes until tender. Blanch green beans for 2–3 minutes. Roast the red pepper, peel, and slice. **Assemble the salad**: In a large bowl, combine potatoes, green beans, roasted pepper, onion, eggs, and sausage (if using). **Dress:** Drizzle with olive oil and vinegar. Season with salt, pepper, and sprinkle with parsley. Gently toss. **Serve**: Best served in a large serving bowl, slightly chilled or at room temperature. Rustic, colorful, and full of mountain flavors.

Pão de trigo e alfarroba

A beautiful, rustic loaf with a light crumb and the gentle sweetness of carob - earthy, soft, and full of Algarve tradition.

INGREDIENTS

8 cups (1 kg) unbleached all-purpose flour (Type 65 or bread flour, if available)
2 tablespoons carob flour
3 cups (700 ml) water
1 tablespoon active dry yeast
1 tablespoon salt

INSTRUCTIONS

Mix flours: Combine wheat and carob flour, sift once or twice until evenly blended. **Prepare liquid**: In a large bowl, dissolve yeast and salt in water. Warm the water slightly in winter. **Combine**: Stir in the flour mixture with a wooden spoon until no dry spots remain. **Rise**: Cover and let the dough rise until nearly tripled in size (about 2–3 hours). **Shape**: Dust with flour, cut off portions of dough, and gently shape. Rest 40 minutes. **Bake**: Preheat oven to 450°F (230°C), then lower to 375°F (190°C) once the bread is in. Bake on a floured or cornmeal-dusted baking sheet or terracotta dish. **Steam**: Place a small pan of water in the oven for a crisp, golden crust.

Azeitonas Britadas

A cherished Algarve tradition, where olives are gently cracked and cured with salt and herbs, creating a simple yet flavorful treasure.

INGREDIENTS

500 g green or mixed olives
100 g coarse salt
Water (enough to cover the olives)
2 garlic cloves (optional)
Fresh herbs (thyme, rosemary, bay leaf — optional)
Lemon or orange peel (optional, for aroma)

INSTRUCTIONS

Prepare the olives: Wash the olives thoroughly. Using a knife or a small mallet, lightly crack each olive, just enough to open the skin without smashing the flesh. **Salting**: Place the olives in a glass or ceramic container. Sprinkle with coarse salt and mix well. Cover completely with water. **Curing**: Let the olives sit for 5–7 days, changing the water daily to reduce bitterness. **Flavoring (optional)**: After curing, drain the olives and place them in a clean jar. Add garlic, fresh herbs, and citrus peel to taste. Cover with olive oil or salted water. **Serve**: The olives are ready to enjoy after 1–2 weeks of maturation in the jar. Keep refrigerated to maintain freshness.

Nova / Casa Utspan
A Journey of Connection

Nestled on a gentle hill in the eastern Algarve, near Moncarapacho, **Casa Utspan** lies just fifteen minutes from the beaches of the Ria Formosa and 10 minutes from Mercado de Olhão. Originally built in the 1980s, the house has been lovingly reimagined by its family owners - part private retreat, part creative destination.

Every corner tells a story: handcrafted clay tiles, custom ceramic sinks, and treasures gathered from travels and local flea markets. Inside and out, the house reveals its character in details.

The outdoors extend the living — a pool for languid afternoon swims, a yoga shala open to the breeze, a skate bowl and basketball court adding a playful contrast to the rural calm. From the terraces, the sunlit hilltop captures the essence of the Algarve: light, leisure, and natural ease.

Here, COSTA NOVA meets the coast that inspired it — the Atlantic influence felt in every breeze, in every reflection of light on the ceramic glaze, and in the collection's graceful forms. The brand's coastal soul echoes the Portuguese shoreline itself: simple, natural, timelessly elegant.

A Table under the Moonlight

Ramo Cutlery Collection

Summer nights invite long meals, laughter, and quiet moments of reflection. COSTA NOVA tableware catches the last rays, filling every corner with warmth and conviviality. A table set with **Riviera** becomes the perfect stage for a **new introduction**: **Ramo cutlery**, designed by Carsten Gollnick. Inspired by nature, this sculptural collection is available in Polished, Brushed, and Black finishes.

New Cutlery
— Ramo Cutlery

Ramo cutlery brings nature to the table. Sculpted like a delicate branch, its botanical form merges artistry and function, offering effortless balance and visual elegance. Available in Polished (as pictured on page 129), Brushed, and Brushed Black finishes.

Above: **Riviera** dinner plate 27 in terra and hydrangea leaf 22 in tomate with **Ramo** cutlery in brushed black.

Under the moonlight, a table glows — a deep red linen spread across it, rich and textured, the color of late summer evenings.

Here, the **Riviera collection** by French floral designer Christian Tortu meets Carsten Gollnick's **Ramo cutlery**, set over Portuguese-crafted linens. A gathering of European charm, reimagined under the Algarve night sky, where every piece tells a story of design, craft, and the art of living beautifully. The scene is dramatic yet effortless — a perfect reflection of how COSTA NOVA lives at the table: where stoneware, glass, linen, and metal blend seamlessly, each detail in harmony.

At Quinta do Pinheiro, the exterior flows seamlessly from the interior. Summer nights lead us to the patio, where COSTA NOVA colors dress the table to harmonize with the surrounding scene.
