Made For Life

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all Performance and Distinction products manufactured in our UK factory are fit for purpose.

All Performance and Distinction products are made with high-alumina content to ensure ultimate strength. Vitrified Ceramics prevent crazing and cracking that lead to bacterial ingress over time, thus enhancing sanitation and food safety efforts. Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip-free. This commitment to quality excellence ultimately results in product that you will replace less often – great for your kitchen, great for your long term costs and great for the environment.

Environmental & Sustainability Practices

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuring maximum efficiency and cost savings for the future sustainability of the business.

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2019 Steelite were awarded an engineering gold Green Apple Award for the implementation of a waste water centrifuge system.

Our new centrifuge system works by spinning waste material out of waste water at very high speed, the water is separated from waste glaze and then reclaimed saving around 20 cubic metres of water per day. This has dramatically improved the quality of waste water that does leave site. Apart from significantly reducing water, it saves glaze and lowers energy usage on site too.

In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

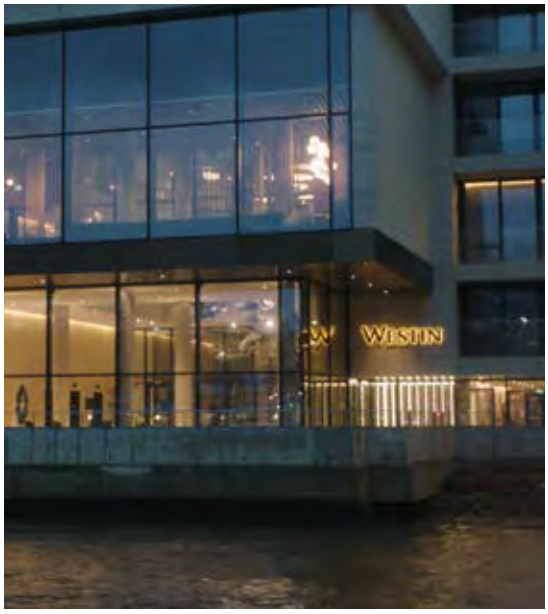
The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 99% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.

Sascha Stemberg, Chef/Owner • Haus Stemberg – Anno 1864. Velbert, Germany

Haus Stemberg has long been one of the established top restaurants in the Bergisches Land. The philosophy of tradition combined with innovation has been consistently recognised with a Michelin star since 2013. This family tradition began in 1864 at the current location in Velbert. In 2003 Sascha returned as the Head Chef in charge, he stands for sophisticated, fine regional cuisine. Since 2015, he has been running the house in the fifth generation with his wife Coren. “Steelite for me is the perfect match: From rustic, colourful tableware to elegant fine bone china, here I find a great selection for my different dishes and applications in fine dining or catering. However, what impresses me most is its exceptional breaking strength. Despite daily use, the breakage so far is virtually zero.”

Tamer Al-Noty, Executive Chef • Dukes the Palm a Royal Hideaway Hotel, Dubai, UAE

"At Dukes the Palm, we pride ourselves on delivering an exceptional dining experience to our guests, and William Edwards plates play a crucial role in achieving that standard. Their superior quality, durability, and elegant designs perfectly complement the aesthetics of our presentations, enhancing the overall guest experience. Personally, I have always loved white plates, as they provide the perfect canvas to make the food and its ingredients stand out, allowing the creativity and craftsmanship behind each dish to truly shine. Choosing Steelite is not just about functionality but also about aligning with our commitment to excellence and innovation in hospitality."



Peter Bradley, Director of Food and Beverage • The Westin London City, UK

Opened in 2021, The Westin London City hotel boasts an impressive riverside location and spectacular views over London's historic River Thames. Carefully designed with sympathy for local elements, every detail of this spa hotel has been curated to ensure customer experience is of the highest level. This includes the F&B offerings, whether it be in Hithe + Seek, a stunning wine bar with panoramic London views, or Mosaic, the convivial all-day dining restaurant. "I think the Art of Presentation is an excellent way of describing it because presentation is an art. It's not just about sitting down and having food or drinking a cocktail. It's about what it's served on. The reason we went with Steelite is because they proved themselves to be the best."

Ivan Capo, Head Chef • Weisses Rossli, Switzerland

Weisses Rössli has been part of Damn Delicious GmbH, the gastronomy business run by Federico Freiermuth. Federico bubbles with creativity and is constantly coming up with new ideas for Zurich's gastronomic scene. In September 2023, and at just 28 years old, Ivan Capo took over the helm in the kitchen. "I found that Steelite offers high-quality products that perfectly meet my specific requirements. Steelite's offerings consistently exceed expectations, providing customers with reliable solutions that fulfil their needs effectively. This commitment to quality ensures customer satisfaction and fosters long-term loyalty".

Massimiliano Mascia, Head Chef • Ristorante San Domenico, Italy

Opened in Imola in 1970, San Domenico had earnt its first Michelin Star in 1975, shortly followed by its second in 1977. Right from its beginnings in the 1970s, the San Domenico took a whole new approach to the restaurant business which had, until then, simply been seen as an alternative to the domestic model. “At the Ristorante San Domenico of Imola, the kitchen has close ties to the land, it is a place where we seek out the best ingredients, grown under the best conditions; it is a place of constant evolution, where new techniques are at the service of tradition.” “As I see it, respect for ingredients and their seasonal freshness is essential as it lays the foundations for further research and innovation of preparation techniques”.

Simon Hulstone, Chef Proprietor • The Elephant, Torquay UK

Run by chef proprietor, Simon Hulstone and his wife Katy, The Elephant was the first restaurant in Torquay to be awarded a Michelin star & the only one to retain it. Which it has maintained Since 2006. The restaurant offers a delicious à la carte menu and set menus featuring fish, meat and vegetables all sourced locally from the surrounding area. All dishes served at The Elephant change regularly depending on the locally grown and reared ingredients that are best. Many of these are sourced from their dedicated farm. "I've been working with Steelite for 20 plus years and not once has Steelite sat still, every season a must have range has been designed that sits perfectly with my restaurant, my food and my customers."

Asma Khan, Founder • Darjeeling Express, London UK • First British chef to be featured on Netflix's Chefs Table • Author of The Times Cookbook of the Year 2022, Ammu: Food to Nourish Your Soul, from a Life of Cooking

Darjeeling Express started as a dinner for 12 guests at home, serving Indian food lovingly cooked from family recipes that go back generations. Though the restaurant has changed and grown over the years, Steelite have been there every step of the way. "Bringing a dish to the table is a very personal thing. It presents your entire brand so it has to be beautiful and meaningful. It's been a huge difference to work with a company so big but they came across so personal. That's the real achievement of Steelite, and for me, that's the art of customer service."

Geni Perramón, Chef • The Tavern of the Gourmet, Alicante Spain

The Tavern of the Gourmet is a space where innovation is at the heart of service. Organic and traditional flavours, succulent tapas and montaditos, and salted cheese are prepared in a lively bar using the highest quality ingredients. The Tavern of the Gourmet is an example of the basic pillars of good cuisine: the best products, nice, comfortable space and professionalism. A gastronomic space that you must stop and visit. “Steelite is synonymous with bringing elegance to our tables. Excellent durability and service from the factory, also a lifetime edge chip warranty gives us peace of mind.”

Iacopo Vannini, Chef Patron • Restaurant Villa Garzoni, Collodi Italy

The restaurant Villa Garzoni can be found in Collodi, the province of Pistoia revealing a perfect blend between the Tuscan traditional flavours and the innovation of contemporary cuisine, in a picturesque location. “There are moments in life when you meet someone for the first time and you feel you already know them. When I saw Steelite for the first time I was speechless, I knew I had found what I was looking for. I will continue to use Steelite for the rest of my professional life.”

Brian Landry, Chef/Owner Qed Hospitality • The Kitchen Table Clermont, KY

Our restaurant, The Kitchen Table, is located on the Kentucky Bourbon Trail. When opening our restaurant, we wanted pieces that were upscale and comfortable, pieces that would highlight the nature of the Bourbon Trail. The Steelite products we selected are the perfect balance between high-end quality and comfort.

Jared Tees, Executive Chef • L'Auberge Casino & Hotel Baton Rouge, LA

Steelite always has something fresh on the horizon, and the collaborations with artists allow me to create a beautiful experience for our guests. The variety, from high end to casual and for specialties like Asian and sports bars, has enabled us to use it exclusively across multiple concepts. I appreciate that continuity, as well as the quality, pricing, and reliability. Working with the same reps over the last decade has also made this part of my job joyful.

Kimberly Lallouz, Chef • Restaurant Monsieur Montreal, Quebec

Steelite is everywhere around me – it's in all of my restaurants, in most of my photoshoots, and even my #1 choice for international competition plates. From Birdbar's laid-back fried chicken and champagne comfort dishes to Restaurant du MAC & Monsieur Resto+Bar more delicate and soignée plates. I love the variety, durability and look of the brand; there's something for everyone from the various lines that are offered. Customer service and client support are bar none, so it's a true pleasure for me to work with the reps and products alike every season.

Urban

Heightened senses, amplified presentation

Urban appeals to a sharper, city aesthetic where food is still tied to the traditional values of honesty, integrity and authenticity, but requires a slightly more formal, more defined and refined presentation style. Emulating a concrete look, Smoke is a new collection of tableware that takes its inspiration from the aesthetics associated with the act of cooking. The subtle and nuanced tones of grey contrast with the darker reactive elements to mirror the effects of browning and searing, creating a connection between the food and the plate.

Ink

A collection that evokes a sense of heritage

The Steelite Performance Ink line has expanded with the exciting additions of Nomad Blue, Nomad Sand, Legacy Blue, Legacy Teal and Legacy Ginger. Nomad is a collection of handcraft-inspired decorations which add texture, colour and a sense of history to the tabletop. While Legacy pays tribute to the faded opulence of antique decoration. Like finding a treasure-trove of heirloom pieces, Legacy inspires and delights with its playful, casual mix of relaxed style and comfortable living.

Craft

The original Craft

Steelite is proud to introduce four new shapes to the iconic craft collection, bringing a stacking element that adds an exciting dimension to the tablescape. Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre".

Revolution

Nuanced artisan experience

Using reactive glazes that change in colour and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for Chefs to showcase their art, no matter what the cuisine style.

Revolution Edge

Casual and easy-going style

The use of hand-applied reactive glazes on Revolution Edge frames food beautifully, allowing for a slightly more formal approach to relaxed presentations. Revolution Edge allows food to be presented on a clean white platform complemented by a contrasting colour field. This has the effect of highlighting Chef's creativity, allowing it to speak for itself.

Revolution Edge can be used as a single colour presentation or mixed and matched freely with others in the range. It also co-ordinates beautifully with Revolution for a more casual and easy-going style.

Nordic

Simple, yet sophisticated

The Nordic region has become synonymous with Chefs' skills in developing dishes that utilise the very best local ingredients and presenting them in a sympathetic and contemporary manner. Such an important culinary aesthetic deserves its own platform and the new Nordic range encompasses these shared design values. The simple but sophisticated plate profiles allow Chef's space to present dishes that can 'breathe', whilst simultaneously being framed by a deep, gently-curving rim. This enables the ultimate showcasing of some of the most innovative and influential dishes belonging to this cuisine.

Koto

David Kinch

A daring pattern for a dramatic presentation

Koto, one of Steelite International's most unique ranges, was designed in collaboration with world renowned Chef, David Kinch. The inspiration was drawn from ancient Japanese Tenmoku Glazes. These beautiful glazes vary subtly in texture and tone from piece to piece, embodying the craft of the traditional potter. The pieces are hand finished with a rich iron red glaze, which interacts in the kiln to produce a warm, organic, lustrous effect. The deep black textured surface allows food to be perfectly framed, adding drama and contrast to your presentation.

Frost

Frosted edge

This collection has been created in collaboration with two-starred Michelin chef Brett Graham. The rimless design means there's no visual distraction from the finest cuisine, while the frosted edge prevents finger marking as the plate is set down on the table. Extra weight has also been added to the centre of each plate, to optimise retention of heat or cold.

Essence

Profiles in elegance

Essence is a new shape in porcelain designed by Rene Ozorio. The collection of rimmed presentation and banquet plates, coupes, trays, and bowls provide a clean, modern look for tabletops and food presentation.

For Rene Ozorio, Essence signifies “the return to the pure nature of white porcelain in a shape whose sculptural simplicity speaks of modernity.” The thin, elegant profile provides a light & contemporary product that is durable and ideal for hotels & restaurants.

Atelier

“In praise of shadows” ~ Jun’ichiro Tanizaki

Atelier: the name evokes the hand of craftsmen and the tradition of artisanal fabrication. The realisation of this fluid optical design was through the collaboration with artisans, who hand carved the models for each piece. The calculation of the embossment and the glazing produces an effect of ebbing water in the tide pools. Designed with fine dining in mind, the lightness in weight and porcelain colour speak of quality and craftsmanship.

“Atelier is inspired by nature, light and shadows. I was reminded of the days by the sea, watching the changes in the sand & pools of water brought by the ebb & flow of the tides. The element of water in motion.” ~ Rene Ozorio

Terrace

Simple, tactile, embossment

The Terrace range brings together the look and feel of Stoneware with the timeless appeal of a simple, tactile embossment. The range utilises semi-matt glazes which pool and interact with the embossed surface to give the impression of hand-worked, semi-precious stone.

The embossment is carefully arranged to draw the eye to the centre of each piece, where the focus is on the food, framing it perfectly. In addition to a useful range of standard coupe plate sizes, Terrace comprises a full suite of bowl sizes and shapes and a comforting beverage collection.

Azores

Tastefully organic stoneware

Reminiscent of the dramatic landscapes and natural beauty of the Azores Islands of Portugal, the Folio Azores collection is comprised of tastefully organic stoneware. With graceful yet irregular shaped edges, Azores emulates the look of authentic, hand-thrown stoneware, designed specifically for casual dining and small bites. The reactive hand-applied glaze colours, are aptly named and inspired by the harmonious scenery of their namesake islands.

Spice

Coloured and neutrals/semi-matte glazes

Maham is a designer specialising in ceramics for Chefs and restaurants. She has worked with the design group Queensberry Hunt for over 15 years on various design projects as well as working as an independent designer for retailers, factories and restaurants. For the Spice range Steelite and Maham explored the qualities of the unglazed outside and glazed inside, using a range of glaze effects - coloured and neutrals/semi matt and mottled. The range includes items not just for restaurants and hotels but also includes items for small bites/short eats and bar food. It mixes well with Craft, Brown Dapple, Robert Gordon and Anfora.

Off Grid Studio

The essence of hand–thrown stoneware

Steelite have teamed up with Off Grid Studio to create a unique collection of stoneware. A passion for hand-crafting ware on a potter's wheel led Off Grid Studio to start a business and build a 100% 'off-grid' home and pottery studio bordering a National Park in Gembrook Australia.

The raw clay body, representing the terra of the surroundings, is generally present in the minimalist stoneware shapes. Functionality and a strong connection to the hospitality industry drive the design process.

- Handcrafted aesthetic
- Fusion of form & function
- Unique collection
- Freezer, oven, microwave & dishwasher safe.

Fire NEW

Where earth meets flame

Fire from Off Grid Studio is designed by Potter Sam Gordon to blend the look of hand-crafted pottery with modern durability. Inspired by the raw beauty of wood-fired ceramics, Fire captures the essence of this traditional process, where wood is the sole fuel and the kiln requires constant attention to reach and maintain high temperatures. As the wood burns, its natural minerals vaporize and interact with the clay, creating organic, brush-like glaze effects that only nature can achieve. Offered in three semi-matte glazes, Smoke, Timber, and Ember, each piece is intentionally reactive, showcasing unique highlights, subtle colour shifts, and one-of-a-kind edge details. Available in nine shapes across coupe and presentation-style profiles, Fire pairs timeless craftsmanship with functional elegance for today's tabletop.

"Wood fired ceramics is in my opinion the truest form of pottery;
the clay is dug from the earth, touched by hands and transformed by fired wood." -Sam Gordon

Gembrook

The essence of hand-thrown stoneware

Gembrook consists of two colours, creamy white and deep grey, where each item is decorated with a sheer white, hand-applied glaze, allowing the beauty of the clay to show through. The bottom of each piece and small portions of the top are unglazed, to authenticate where the potter would hold each piece while glazing, resulting in double dips, drips, and exposed clay lending to its hand-thrown authenticity. Meanwhile, a handful of pieces flaunt a distinct indent, which mimics the thumb mark of the potter and creates a conversation piece for diners.

Honeybourne

Inspired by the traditional silversmith technique of planishing, the Honeybourne collection makes a tactile and light reflecting statement on the table. Featuring classic proportions of long tines and a traditional heel, the deliberately thin neck exaggerates the wide curves of the subtly textured handle. The feel in the hand is well-considered as the texture fades to smooth at the neck of each piece.

Sandstone

Sandstone cutlery by Robert Welch, features a unique ‘stippled effect’ which adds texture and tactility to the handles. Our Designers have added a subtle feature, by incorporating a gradual fading of the texture into the neck of each piece. Sandstone is a slender pattern and has a comfortable, ‘soft feel’ in the hand.

The beautiful surface reflects the light with a gentle glow, creating a statement on the table alongside both formal and casual tableware.

Westbury

Westbury Bright cutlery is a geometrically inspired design, featuring an unusual angled v-shaped bolster on the knife. The tapered handles finish at a diamond point. Comfort in the hand is a Robert Welch Designs signature and whilst not an obviously curvaceous design, the finish of the pieces is smooth to the grip.

Robert Welch Ashbury

Ashbury is a classic pattern with a contemporary twist; the knives feature a fluid curve which creates a feeling of movement. The table knife is designed to be poised for use, resting vertically with the cutting edge raised from the table top. The classic styling of Ashbury forks and spoons contrasts against the modern silhouette of the table, dessert and steak knives, as the gentle kick up of the end of the fork and spoon handles presents a mirror image of the downward curve of the knife handle. Traditionally shaped knives are also available.

Adam Simha

Steak Knives

High-quality knives

Created by designer Adam Simha, these are the knives you will always reach for, feel compelled to care for, and never want to put down. Adam's original knife designs are based on over 20 years of knife making, his own professional kitchen experience, and the custom knives he has built for working chefs. He provides service for these knives exclusively, giving him first hand feedback on every detail from material to blade shape to edge geometry, to hardness, to hardware.

"The knives I began making and enjoyed the most turned out to be knives for cooking, which brought me full circle back to the sphere of culinary arts." - Adam Simha.

Nexis® LED Candle System by Hollowick is the most advanced rechargeable candle system in the world. Careful attention was paid to function, performance and ergonomics to set this ground breaking commercial lighting system apart from the rest. Features like an easy-to-grab, realistic flexible flame tip, a bevelled top for greater illumination, options of steady or flickering light, and IP44 certification for water resistance make this product a go-to choice for foodservice operators. All the while pairing up with a wireless, magnetic charging tray that holds up to 40 candles and offers a 26-hour average run time, this flameless system is top of the line.

Hollowick

Liquid Candles

Candlelight without the melted wax mess

Liquid candles from Hollowick are the ideal choice for lighting up the tabletop. These liquid fuel cells burn cleaner than solid wax candles and are disposable, making clean up quick and easy without the melted wax mess. Available in a variety of sizes, a strategically chosen liquid candle will sit low inside a table lamp in order to illuminate the colours or beauty of the lamp itself. With a burn time that is twice that of a standard tealight, Liquid Candles from Hollowick are staple for those restaurants & hotels looking for the elegance of live flame.

Proper use of liquid candles

In order to illuminate the colours and beauty of a lamp, select a liquid candle that sits low within the lamp, and does not touch the sides.

Hydraulic Chafers

Chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a convenient large glass view in the cover in order to increase visibility of the food while minimising the times the lid is opened, therefore keeping the heat in and the food at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.

Storing:

- Placing rubber or plastic mats on large stainless steel surfaces usually found in industrial kitchens can help reduce metal marking to ceramics.
- Rubber or plastic mats can also be placed in stacking areas, trolleys or sinks to further reduce the chance of metal marking.
- Replace or repair any plastic coated racks that may have become worn and the metal underneath exposed, as this again could cause damage to your ceramics.
- Do not stack items more than 15" high.
- Only stack products that are designatedas stackable.

Using:

- Don't scrape off leftovers – wipe off with a paper towel or a plastic/rubber scraper.
- Do not slide items across each other to reduce abrasions.
- Minimise handling to reduce glaze abrasion.
- Be sure to rotate your stock to prevent uneven wear.
- Use cutlery that is of a high grade steel as a minimum requirement, as some cutlery in use today is made from low grade steel, which being soft in nature increases the chance of metal marking.
- Using metal utensils against ceramics can also cause metal marking, try to keep this to a minimum or use plastic utensils.

Washing:

- Seventy percent of product damage/loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys.
- To ensure the quality level of the product it is important to take note of the following:
- Items should be washed within 45 minutes of removal from the table and pre-rinsed.
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- All items should be separated into type prior to washing.
- Stack ceramics separately to other crockery in the dishwasher such as cutlery or pans and ensure items do not vibrate against each other during the cycle.
- Avoid contact between ceramics, dinnerware and metals.
- Strictly follow recommended dishwashing procedures set out by the manufacturer and use the correct dose application of the detergent.
- The use of an approved detergent is recommended.

- For effective cleaning, we recommend that the dishwashing temperature and the final rinse be set between 55 to 60°C. Operating at higher temperature levels in order to wash crockery 'properly' is a definite case of overkill and detrimental to all tableware.
- Repair or replace any plastic coated metal in the dishwasher that may have worn away as this may result in metal marking.
- Overdosing on detergent or using excessively high temperatures will cause deterioration to the glazed finish or damage any decoration on the product.

Metal Marking:

- Metal marking occurs when a ceramic item comes into contact with metal surfaces or utensils, which can cause metal tracing to be left on the ceramic item due to certain types of steel being softer than the glaze of the ceramic.
- Despite the unsightly appearance of metal marking, it is not a cause for concern as it can be easily removed by the application of a gentle household non-abrasive cleaner.

Custom Decoration:

- Gold and platinum decorations are not microwave safe.
- Utopia ceramics are suitable for microwave use, however be advised that any decorated item that includes metal will not be microwave safe.
- Hand washing is recommended to prolong the metallic lustre of decoration.

To help maintain the look and feel of your tableware it is important to consider the washing process. Washing temperature, detergents, and water types are key factors when caring for your product whilst also ensuring that you do not let dirt and residue build up over long periods of time. The recommendations on the next page will help to maintain the performance of your product in service.

Always wash as soon as possible after use. Before loading into the dishwasher, rinse with hot water and avoid leaving food on china for any significant length of time.

Do not overload the dishwasher and ensure that the water temperature is in accordance with the manufacturer's recommendations. Ensure the dishwasher is regularly serviced and in good order. We strongly recommend using a rack with custom compartments to ensure that there is no impact during the washing cycle. Avoid overlapping and overloading the dishwasher.

There are many automatic dishwashing detergents available today to suit different operating conditions. It is important to select the correct one for the dishwasher as some detergents can cause corrosion and permanent damage to the tableware decoration. For any regions with hard water, it is suggested to use a hard-water detergent and rinse-aid.

Recommended dishwasher temperature for china is 69-74°C/156-165°F and a rinse at 83°C/181°F. A wash temperature of 69°C/156°F is recognised as the most effective for removal of food soiling, with less risk of damage to the decoration. We do not recommend the use of dishwashers for product with metallic trim.

The use of scourers will lead to damage on plates, often seen by visible circular scratches. We suggest not to use a scrubbing sponge and instead rinse the plate with hot water as soon as possible.

After washing, wipe with a damp cloth (microfibre) to remove any watermarks that may occur during the washing process. If watermarks are excessive check the dosage of rinse aid.

To remove coffee and tea stains, or any stubborn built-up dirt use Tannin Remover powder. Mix the powder with water and place the crockery in a bath of the solution for 30 seconds. Use a soft sponge to remove stains. Do not use a scrubbing sponge as it can damage the glaze.

Using higher temperatures or overdosing on detergent will cause deterioration to the glazed finish or damage any decoration on the product. Most dishwashers have a short wash or china/crystal cycle that should be sufficient for most cleaning of china.

Fine bone china should not be used for cooking purposes. Do not expose it to a naked flame and avoid use in an oven. Products with gold or platinum decoration must not be used in a microwave due to the metallic content.

Precious Metals

It is important to take additional care for items incorporating precious metals such as gold, silver, and platinum. These metals have a compromised technical and durability performance compared to ceramic colours. To maximise shelf life, we recommend hand washing and the use of a soft cloth to dry thoroughly before storage. Do not use abrasive materials when cleaning.

Stainless Steel, though its name suggests otherwise, it is not completely 'mark proof'. It is much more resistant to staining or marking than other metals however contact with certain substances will start the process that leads to staining and pitting.

Storing:

- Never store cutlery where it can become damp, as this can cause corrosion.
- Store out of direct heat, as this can cause the metal to mark.
- Never leave cutlery with food on as many corrosive substances are found in food, such as acids, like vinegar and lemon juice, mineral salts found in tap water, fats and meat juices.
- Other corrosive substances are bleach and harsh detergents, so ensure your cutlery is not left to soak.
- Be sure cutlery is completely dry before storing in a dry location away from the kitchen.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

- When pre-rinsing cutlery ensure all food debris is removed before being washed.
- Follow the manufacturer's instructions, particularly in relation to adding dishwasher salt as excess salt can cause corrosion.
- Always wash cutlery immediately, never leaving it with food debris present.
- It is advisable to place cutlery vertically into dishwashers with the head up; and not too tightly packed together, this assists the water flow at the end of the cycle.
- Remove cutlery immediately after washing/dry cycle is finished and wipe over with a dry towel. If the cutlery is left to cool in the dishwasher, trace mineral salts and the dishwasher salt residue will settle on the cutlery in the moist atmosphere and start the pitting and staining process.
- Never mix stainless steel and silver plated cutlery in the same basket of the dishwasher the chemical reaction between detergent and steel can cause the silver plate to mark.
- Do not use the rinse and hold cycle on dishwashers with cutlery this will leave the cutlery to soak in water which can be damaging.
- Wood handled cutlery is not suitable for cleaning in a dishwasher.

PVD Coated Items

- For PVD coated items extra care should be taken.
- Whilst dishwasher safe, handwashing is recommended to preserve the finish.
- Avoid prolonged contact with acidic food types.
- Avoid abrasive pads and harsh or chlorine-based detergents.
- Remove promptly after washing and dry thoroughly.
- Do not leave to soak.

Steak Knives:

Wood Handled Knives

- Handwashing is recommended for the best performance and optimal product life.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.
- Water and harsh detergents will dull the finish and dry out the handles.
- It is recommended that the wooden handles be oiled as needed.

ABS (Resin) Handled Knives

- Low temp dishwasher safe.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.
- Not recommended for high temp dishwashers that exceed 167°F / 75°C.
- Knives should not be exposed to extreme temperature changes, which will cause the abs handle material to crack over time.

Stainless Steel Knives

- Dishwasher safe.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.

Blade Sharpening

- Serrated blades cannot be sharpened.
- Blades with no serrations can be sharpened as needed.
- The frequency will depend on how often the knives are used and how well they are maintained.

Types of Metal – What is Stainless Steel?

Choosing the right type of cutlery for what you need it for can be confusing, Utopia have tried to simplify this by splitting the ranges into different types of stainless steel 18/10 and 18/0. These ranges can be further identified through the colour coded collections.

Stainless Steel is an iron and chromium alloy containing more than 11% chromium. There are three types of stainless steel used to make cutlery:

18/10

This is used for contemporary cutlery except knives; it contains 16-18% Chromium and 8-10% Nickel. This is the only steel that can guarantee against corrosion when properly cared for.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
304	18 / 10 or 18 / 8	16–18%	8–10%	3%	29–33%	Iron

18/0

This steel is used for value cutlery e.g. Parish, Economy or some value options of Contemporary cutlery. Due to the high % of chromium, it is more resistant than 13/10 but not as resistant as 18/10.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
430	18 / 0	16–18%	-	2	18-20%	Iron

13/0 or Knife Steel

This steel is used to make knives, as it can be hardened to create a sharp edge. The quality used is AISI 420, containing 12-14% chromium. This is the least corrosion resistant form of stainless steel.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
420	Knife Steel	12–14%	-	2	14-16%	Iron

Storing:

- Never use glass to carry or store cutlery.
- Do not stack glasses that have not been designed to stack.
- Use properly sized compartmented glass racks.

Polishing Stemware:

- Use white cotton gloves or 2 cloths for polishing.
- Polish the bowl first followed by the stem and then the base.
- Do not hold the glass by the stem or the base when polishing the bowl.

Using:

- Do not pick up glasses in clusters.
- Never let the beer tap come in contact with the glass.
- Do not use glassware as an ice scooper.
- Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks.
- Pre-heat glasses for hot drinks by running them under the hot tap.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic glass washers found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

- Always wash new glasses before use.
- Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass and give the glass a shadowy tinge.
- Water on the premises should be stored at 60°C. If water is stored at a higher temperature e.g. 85°C, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass.
- Coffee cups should never be washed in a glass washing machine, as coffee dregs can taint the water and stain the glasses – this also applies to drinks that contain cream.
- If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.
- Gold decorated glassware is suitable for handwash only.
- After washing, remove basket and leave to cool and dry.
- Do not handle stemware when hot.

Improved working practices for the use of Polycarbonates will extend the life of the product:

- Polycarbonate drinkware is supplied with the verified CE Mark or Lined and Stamped exactly like Glassware.
- Polycarbonate Barware is dishwasher safe to a temperature of 60°C.
- When using glass washers, it has been suggested that the use of detergent without rinse aid is preferred.
- To maintain the product in its best condition, it is recommended that a low temperature wash cycle below 60°C for both wash and rinse temperature is used. The combination of detergents and raised temperatures can lead to environmental stress cracking in the plastic surface. If washer temperatures are above this then it is recommended to hand wash the plastic barware.
- It is important to make sure that the Polycarbonates are not rubbing together during the rinse cycle in a glass washer.
- It is safe to use Liquid Renovate. This will enhance the visual presentation of the product where needed.
- Regular checking of Polycarbonates to assess scratching is needed so as to offer the customer a perfect drink.
- It is important that Polycarbonates are not stacked tightly together as the inside of the product will scratch.
- Polycarbonates are quite often found on the floor and on hard floors they will scratch. Where possible Polycarbonates should not be left on the floor.
- Polycarbonate is a tough transparent thermoplastic that has many applications, which demand high performance properties.
- Dishwasher & freezer safe.
- Items must be carefully placed in the dishwasher while avoiding direct contact with other dishes and drinkware.
- Do not wash with harsh abrasives such as brushes or scrubber pads as this may cause scratches; harsh chemicals including strong acid or alkali cleaning agents should also be avoided.
- Use warm, soapy water or a neutral dishwashing liquid for cleaning.
- Dry naturally or with a soft cloth after hand washing; we recommended using a microfibre cloth to preserve clarity.
- Product can be used normally between temperatures of -30°C and 110°C (-22°F and 230°F).
- Avoid prolonged exposure to UV light, sunscreen or chlorine.
- Not recommended for use in microwaves or high temperature sterilisers.

Polycarbonate drinkware is almost indestructible, hard and rigid and in many cases virtually identical to glass. It is the preferred product for Police Forces and Local Licensing Authorities where drink related violence is an area of concern.

Although the product is virtually unbreakable it is subject to considerable wear and tear, unlike glass, which would simply break and then be replaced, regular checking of polycarbonates to asses scratching is needed as to offer the customer a perfect drink.

Utopia Drinkware:

Drinkware is supplied in four different types of plastic:

- Polystyrene – our plastics shots are Polystyrene, these are dishwasher safe up to 100 washes.
- SAN (Styreneacrylonitrile) is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure. This product is glass washer proof.
- Polycarbonate – is a very strong and virtually unbreakable plastic, the strongest plastic of all. Our polycarbonate glassware is glass washer safe up to 500 washes.
- MMS – is a transparent copolymerization primarily composed of methyl methacrylate (MMA) and styrene monomer (SM). This is glass washer safe up to 100 washes.

Polypropylene Lids, Stoppers & Bottoms:

- Do not use strong acid or strong alkaline cleaning agents.
- Temperature should not exceed more than 104°F (40°C).
- Avoid excessive water pressure as well as objects pressing on the product or it may cause deformation.

Creations Wood:

To best maintain product finish and condition:

- Do not place near an open flame or grille.
- Products should be stored in a dry location at room temperature.
- Do not store near heat sources or in humid places.
- This product should not be used in the dishwasher, oven, microwave or freezer.
- Clean with a soft damp cloth or wash with hot soapy water, do not soak in water or wash with harsh detergents.
- Sanitise using an antibacterial spray or food safe liquid sanitiser.
- Dry promptly after cleaning, ensure products are dry before stacking.
- In order to maintain product finish and condition, apply a light coat of mineral oil with a clean dry cloth, to prevent wood from drying and cracking.

Placemats

- Hand printed pure silicone, non-porous, food grade and plastic-free.
- High heat resistance up to 425°F / 220°C (not to be used as a trivet).

Trivets

- Pot holder + trivet, the interlocking design turns the trivets into a table runner.
- High heat resistance up to 675°F / 355°C.

Handling & Care:

The correct handling and care of your Melamine buffet and tableware will enhance the appearance and longevity of the product in use. The following guide will assist you.

- Handle melamine dinnerware like any quality dinnerware.
- Clean as soon as possible to help avoid staining and protein build-up.
- Use only plastic pads or plastic type bristle to remove dried food.
- Pre-soak melamine products, if necessary, in a high quality pre-soak dishwashing detergent.
- Immediately remove any damaged or chipped melamine products from operational use.
- Melamine products can withstand heat up to 212°F (100°C).
- Do not use in oven, microwaves or expose to direct flame, this can cause cracking and blistering from the heat.
- Do not use with heat lamps, conveyor belts, or plate warmers.
- The use of serrated knives is not recommended on melamine products.
- To avoid chipping and scratching, do not strike melamine products with or on any hard surface while attempting to remove excess food.
- Do not use harsh or abrasive cleaners, steel wool, or metal scouring pads.
- Do not use chlorine bleach or chlorine-based sanitising solutions when caring for melamine products.
- Only use sanitisers developed for commercial use.
- To avoid chipping and scratching, do not overload your dishwasher rack.

Melamine is a thermosetting plastic that is strong, lightweight and hard with the look and feel of ceramic product. It is highly break and scratch resistant, but it is NOT 100% unbreakable, it can be scratched and broken.

Melamine is often used for dinnerware, mixing bowls and laminated counter tops because it resists acids, alkalis and most food stains.

Melamine is hard and smooth and can withstand some fairly warm temperatures, but it does absorb heat and will soften if it gets too hot. While melamine is perfectly safe when it comes in contact with warm temperatures, melamine is not microwavable.

In general, melamine products are not designed to withstand temperatures that exceed 100°C and should not be submerged in boiling water or placed in the oven.

Also, be sure to avoid exposure to hot objects or prolonged exposure to boiling water. Melamine is suitable for use over a bain-marie as the water is circa 70°C, to hold food above a temperature of 60°C.

Melamine is dishwasher safe (as long as the water temperature does not exceed the 100°C guidelines). Scouring powder should not be used, as it will scratch the surface, also never use chlorine bleach on melamine buffetware.

Destaining

- Periodically presoak melamine products before dishwashing to prevent staining and to maintain lustre.
- For staining, use an oxygen-releasing compound such as Dip-It XP (ECOLAB).
- Sponges or woven plastic pads are recommended for cleaning.
- Do not use harsh or abrasive cleaners, steel wool, or metal pot scouring pads to remove food or stains.
