ZIEHER

40 YEARS OF EXCELLENCE

2026

PROFESSIONAL

ZIEHER

Dear customers, dear friends,

2026 is a very special year for us. Zieher was founded in 1986 and has been in existence for four decades now. I am therefore delighted to present the Zieher catalogue 2026 to you, now in its 40th edition.

To once again offer you exceptional innovations this year, we have conducted extensive research, listened closely, and collected valuable feedback from our customers. It was particularly important for us to understand in which areas high-quality design combined with outstanding craftsmanship is in even greater demand.

One outstanding result of these considerations is our new beverage dispenser **"Vitron"** – a blend of delicate elegance and remarkable stability. The tall, profiled borosilicate glass cylinder rests on a solid stainless-steel base, finished either in matte black or in a high-gloss gold coating. A true statement of exclusivity, it sets new standards for presentation and design, especially at small yet sophisticated events in the luxury hotel sector.

I would also like to introduce other novelties to you:

The **"Orea"** buffet bowls captivate with their organic design and the warm, matte-golden tone of solid brass. The natural patina that develops over time lends each piece its own unique character and is turning every bowl into a one-of-a-kind item.

With **"Flora"**, we are expanding our range with two artistically crafted buffet bowls made from solid stainless steel. Hand-worked in a hammered finish and adorned with a delicate floral pattern, they combine timeless elegance with masterful craftsmanship. Resting on four ball feet, they become an eye-catching highlight on any buffet.

I wish you great pleasure in discovering our new products. Should you have any questions, suggestions or requests, I am always happy to assist you.
Thank you very much for your loyalty!

With best regards,

Dominik Zieher

7 **Buffet**
beverage dispenser "Vitron"
Buffet displays "The Pantry" – "Époques" – "Scala" – "Somnia" – "Stomp!" – "Sagano" – "Textura" – "Glow"
Buffet systems "Curve" – "Skyline" – "Squareline" – "Crossline"
The Zieher-system: "Luxor" – "Solid" – "Edge" – "Classy" – "Konkret!" – "Lightning Buffet" – "Neo" – "V12 – Carbon" – cooling element "Chiller-Base",
Buffet platters made of laminated plastic and glass, buffet steps made of glass
Buffet bowls made of brass, stainless steel, pewter, shell and glass
Buffet etageres made of brass and stainless steel, e.g. "Fleur Déco", "Fingerfood-Tree"
Buffet stands "Mikado" – "Stablo" – "Falcon"
Serving trays and buffet systems made of walnut "Mercato" – "Solid"

145 **Catering**
"Bento Box", melamine trays and accessories
Serving trays and cutlery boxes made of walnut and melamine
Tray system "Modul": walnut – melamine – glass and china inserts

158 **China, glass** and more
Main series and small series made of china, ceramics and glass
Porcelain plates, platters and bowls
Glass plates, platters and bowls
Pewter napkin rings, charger plates
Glass cloches

194 **Wine glasses, decanter, bar** and more
Wine glass series VISION and "Tesoro", an aid to wine enjoyment
Wine decanter "Doppio" - "Star" - "Star"-mini - "Eddy" - "Eddy"-mini - "Pebble"
Decanter accessories and drying racks
Champagne cooler "Stablo" and "Mikado"
"The Bar Collection", coloured thermoglasses and nut dispensers
Dash bottle "Eddy-Dash!"

227 **Miniatures**
Miniatures made of pewter and borosilicate glass, glass, china, stainless steel and melamine
Doublewalled thermo glasses, also made of coloured borosilicate glass
Anti-slip coasters made of silicone
Skewers and natural stone platters

249 **Cruet stands, trays, etageres** and more
"The Pantry" ash wood boxes and trays, "Bento Box" made of melamine
Trays and boxes made of melamine and wood
Chocolate/truffles boxes, suitable inserts made of solid surface material
Trays and serving platters made of walnut
Displays, etageres and bowls made of brass and stainless steel, jam trays and food displays
Cruet stands and trays with suitable inserts, bread boxes/baskets
Wind lights and accessories

295 **Room service, guest room**
Room service trays and accessories
Storage/presentation boxes, ash wood boxes "The Pantry"
Shelves and etageres "Flora", "Fleur Déco", "Orea" und "Orbis", "DressCoat", "DryPod"
Brass baskets and bowls "Roots", "Matrix", "Bosco", "Covo" and "Fronda"

Excellence since 1986

40 YEARS OF EXCELLENCE

In the year 2006 we designed the first items ourselves and placed them on the market.

Since that time developing and implementing exclusive design objects has been our calling. On this page we show a couple of the most important creations of the past years.

Design, innovation and quality are our mission!

"Vitron" NEW

A premium beverage dispenser for the highest demands

The "Vitron" juice dispenser represents uncompromising quality and timeless elegance. Crafted from exceptionally thick-walled borosilicate glass with an interior vertical profile, it combines a striking presence and material sophistication with a delicate structure that perfectly balances lightness and premium quality. The refined vertical profiling lends the design a clear and elegant appearance that sets it distinctly apart from conventional beverage dispensers used in the hospitality sector.

Its impressive dimensions further enhance its representative character: with a capacity of 4.5 litres, the dispenser reaches a height of 69 cm, the 5.7-litre version even impressing 81 cm. The slender glass cylinder rests on a stable and secure base made of solid, six millimetres thick, stainless steel, finished in a matt black coating that emphasises the dispenser's exceptional presence. The dimensions of the stand have been carefully calculated to fit tall long drink glasses. In the even more exclusive gold-coloured version, all stainless-steel components are polished to a high gloss and finished using the PVD process.

An integrated stainless-steel ice tube ensures consistent cooling, keeping beverages fresh without affecting their flavour. At the same time, it forms the mounting for the semi-circular lid, which echoes the form and material of the glass cylinder and creates an aesthetic yet hygienic closure for the "Vitron" dispenser. The range is complemented by a perfectly fitting drip tray made of black- or gold-coated stainless steel, which is durable, resilient and dishwasher-safe.

Designed for use in exclusive environments – such as small events, business meetings or the spa areas of the most luxurious hotels – the "Vitron" dispenser sets new standards in functionality, design and premium quality.

The ice tube is made of solid stainless steel and is available either with a matt finish or in a gold-coloured PVD version. Filled with ice, it reliably guarantees chilled beverages. The thick material helps prolong the cooling effect; at the same time, the inherent weight significantly reduces the unavoidable buoyancy even without ice. Two pins on the upper section engage securely into corresponding notches in the glass with a slight twist, ensuring that the insert always remains in the correct position.

A surrounding ring connects the cylinder and the lid, acting as a mounting frame for both elements, which together form a visual and formal unit. Only a small ventilation notch in the rim of the lid interrupts this form, ensuring a smooth and consistent outflow of beverages.

The filling opening for fresh juice has been designed as large as possible, allowing for easy refilling.

The drip-free faucet features a self-closing dispensing position as well as a free-flow position, allowing the dispenser to be emptied quickly for easier cleaning. High-quality seals inside the faucet reliably prevent dripping. For convenient cleaning of both the seals and the interior, the upper part of the faucet can simply be unscrewed.

Should it become necessary to replace the entire faucet over time, all spare parts are, of course, available on request. In addition, each dispenser comes with an assembly aid, which makes changing the faucet much easier. To avoid damaging the glass body, the faucet should gently be screwed into the dispenser hand-tight.

All information about "Vitron" and how to easily change the tap can be found in the enclosed product information flyer or at:
https://www.zieher.com/en/service/instruction-manuals/

drip tray
stainless steel 18/10, black pvd-coated, polished, dishwasher-safe

beverage dispenser "Vitron"
set consists of:
dispenser incl. lid borosilicate glass, profiled interior
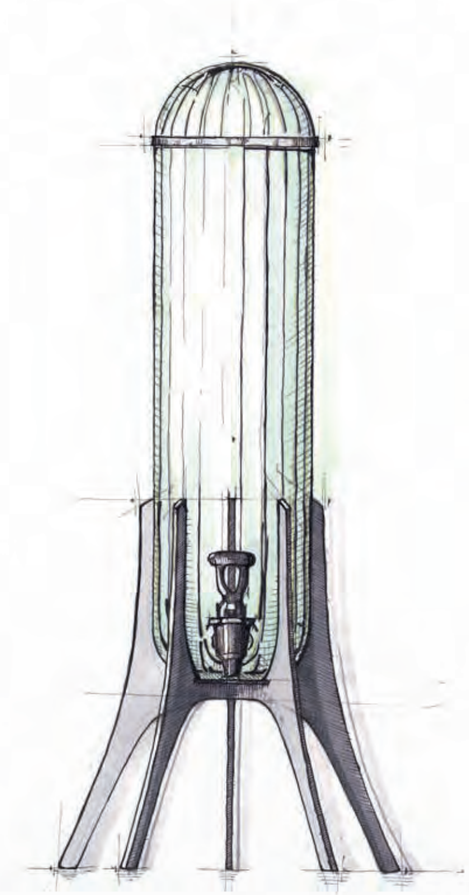
frame/ice tube/drip tray stainless steel 18/10, gold PVD-coated, polished, dishwasher-safe
drip-free faucet black, plastic
assembly aid for easy installation of the faucet
silicone mat black, for use as a non-slip underlay

item	height in cm	content in l	PU
4821.45	69.0	approx. 4.5	1 set (8 parts)
4821.57	81.0	approx. 5.7	1 set (8 parts)



Please note:

Due to its size, we recommend cleaning the glass cylinder by hand. The drip trays, thanks to their robust PVD finish, as well as the gold-coloured coated stand, are suitable for cleaning in the dishwasher. The matt black powder-coated stand, however, must be cleaned by hand only and must not be placed in the dishwasher under any circumstances.

The premium beverage dispenser for the highest demands

"The Pantry"

Video "The Pantry"

→ Buffet displays "Edge" | p. 53
→ Glass bowls "Cave" | p. 182

A shelving system as versatile as the choice of dishes

"The Pantry" is more than just a buffet system – it is an elegant and functional solution for presenting bread, pastries, fruit and other delicacies at breakfast or dinner in the hotel. Thanks to its flexible application options and quick setup and dismantling, the system is also suitable for conferences, coffee breaks, events or out-of-home catering.

The buffet shelf can be easily assembled without tools, adapted and rearranged again and again to meet specific requirements. All elements can be combined with each other and are simply hooked into place. This enables quick dismantling, easy handling during transport and space-saving storage – an invaluable advantage in the catering industry.

Design

"The Pantry" combines functional flexibility with modern design. It is made of solid ash wood, sealed with high-quality oils, and becomes an eye-catcher in combination with powder-coated sheet steel. The finely textured surface of the white coating is not only robust, but also harmonises perfectly with the warm colour of the ash wood. The mix of materials and the clear, linear design give the system a modern Scandinavian charm without sacrificing the necessary functionality.

Components and special features

The basis of the system is formed by the side panels, whose slanted and straight cross struts allow simple and flexible placement of connecting elements. These intermediate elements - a tray made of coated metal and a ledge board made of ash wood - connect the sides and can be used as shelves or as multifunctional back panels. When used as a back panel, they are held securely by integrated magnets and give the structure the necessary stability.

The ledge board offers the option of placing steel shelves in two sizes arbitrarily, creating additional storage space. These shelves can also be attached to the side panels. The smaller one is suitable for miniatures, jars of jam or cereal dispensers, while the larger shelf can also be fitted with a box or a matching glass tray.

→ Glass tray item 5160.31 | p. 16

If the ledge board is used as an intermediate shelf, the ash wood boxes, which are available in two sizes, can be positioned accurately and slip-proof. The precisely adjusted distance of the ledges and the leveling feet of the boxes guarantee a stable hold, even when positioned at an angle. An attached stopper prevents bread or baguettes from slipping off the shelf. The distance of the ledges also ensures an optimal air circulation, which helps to keep freshly baked goods crispy and crusty for longer.

The narrower intermediate shelf made of sheet steel can be inserted on all cross struts of the side sections. On the lowest level, it is even possible to place two of these trays directly behind each other (cf. setup 2). The width of these trays is precisely adjusted to the smaller box. They can also be fitted with ash wood inserts, which offer both a smooth side as a beautifully shaped shelf and a side with milled grooves, which is ideal as a cutting board for bread or similar.

"The Pantry" is a flexible, stylish and well thought-out shelving system that meets the highest demands in terms of both design and use – for every buffet, every event and every day in the catering trade.

Please note:

Due to the design of the system, it is not possible to place back panels or intermediate shelves directly next to each other in the same position. If this is desired, an additional side panel must be used.

Components setup 1:

2x 8270	2x 2402	5x 8272.01

2401+8273.01+8272.01

Please note:

All ash wood elements of "The Pantry" system are oiled. This protects and seals the solid wood and gives it a warm appearance. At the same time, sealing with oil makes it easy to refresh the surface due to slight wear and tear in daily use. It can be rubbed from time to time thinly with vegetable oil or care oil for solid wood kitchen worktops.

Wooden items are not dishwasher-safe. Please follow the enclosed care instructions.

The filigree "Edge" displays by Milanese designer Itamar Harari complement "The Pantry" buffet shelf very well, both formally and functionally. The same surface finish was therefore deliberately chosen. The displays are laser-cut from a solid piece of sheet steel and then edged. There are no welded seams or other connections that disrupt the design. The matt white powder coating with a fine surface structure protects the material and is extremely robust.

"Edge" quickly and flexibly creates additional levels at the buffet, while the airy and openwork design of the surfaces gives these displays a unique lightness. They are available in heights of 24 and 32 cm and can therefore be combined with numerous other Zieher systems. An overview of the system heights can be found on page 51.

"Époques"

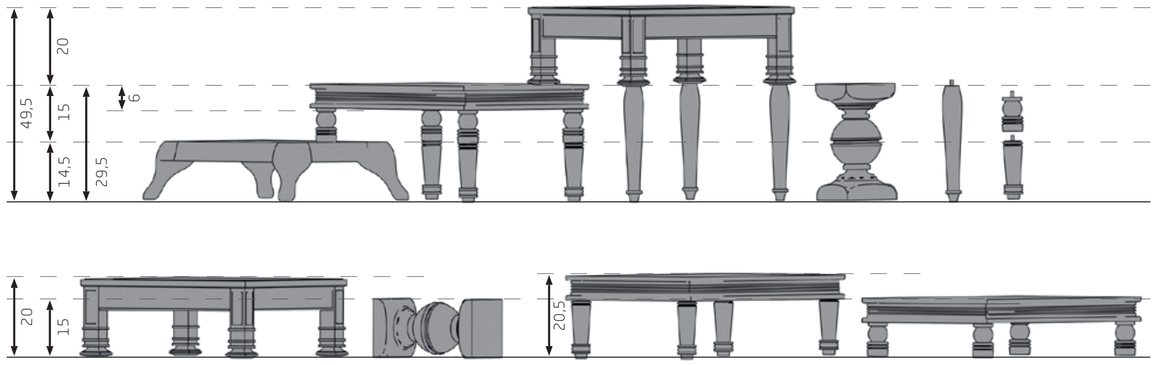
"Époques" – Timelessly Beautiful

The buffet system "Époques" combines the timeless beauty of classic style furniture with modern functionality and flexibility. This unique system consists of three miniature tables and an intricately turned column, which adapt numerous style elements from various eras of furniture construction. Each piece in this series is a one-of-a-kind, and though they are designed differently, they blend together in a remarkable way.

"Époques" is entirely crafted from solid wood. Antique-stained surfaces with food-safe sealing provide elegance and ensure the necessary durability for professional use.

These buffet pieces are exceptionally flexible by providing the possibility to adjust quickly and without tools the height of individual tables by fully or partially unscrewing the table legs. This results in various height options for customizing the buffet area. The medium-sized table can even be adjusted to four different heights and thus impresses by its versatility.

The buffet system "Époques" is a remarkable example of furniture design that pays homage to past eras while meeting the complex demands of the present – a historical tribute presented in a contemporary context!



The special height grid also allows for partial shortening of individual table legs. This means that displays can be placed in nested arrangements to create different levels on the buffet. This not only creates visually appealing presentations but also enables more efficient utilization of the available space.

Please note:

Products made of massive wood are not dishwasher-safe. Do not immerse in water. Please note enclosed care instructions.

"Scala"

"Scala" is a series of displays made from cast aluminium and subsequently refined. The raw and industrial character of these products is intentionally chosen and reminiscent of roughly cast steel parts with a rustic yet modern flair.

This design feature is also reflected in the colour scheme. "Scala" is available in various shades of grey and dark silver, offering exciting nuances in tone and brightness.

The 10 cm tall displays and the new buffet platters for the front area are also available in a golden variant.

Whether in a rustic, industrial setting or with a touch of elegance and glamour, "Scala" offers countless possibilities for variation. Thanks to the hexagonal design and the various heights and colour options, buffet presentations can be continuously reimagined and flexibly staged.

→ "Somnia" | p. 26

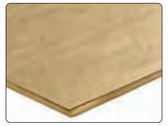
→ "Matrix" | p. 76

→ "Fleur Déco" | p. 105

The hexagonal shape allows for efficient and space-saving partitioning of areas into fixed sections. This enables an appealing and organized presentation of culinary creations on up to five levels. The flat, step-like structure provides good visibility and creates an aesthetic overall look.

A unique feature is the 20 cm tall display, designed as a halved version. This allows for closing gaps at the rear end of the setup without losing valuable space.

Half-size panels are now also available for the front area to utilise available space even more efficiently.



buffet platter "Scala"

The buffet displays and luminaires of the "Somnia" series are assembled from organically shaped, filigree rods which are made of solid brass in traditional sand casting. These single components, reminiscent of brittle branches, are afterwards melded in complex handicraft to impressive unique pieces. Optionally available black rubber caps can be fixed to improve the slip resistance and to protect the sensitive surface of furniture.

The wind light is equipped with a solid base plate with an elevated rim.
This base avoids a leakage of wax and protects the table surface from heat. Furthermore it forms the frame for a removable cylinder made of heat resistant glass, which by way of its satined surface, intensifies the mood of light and protects the flame from wind at the same time.

Please note:

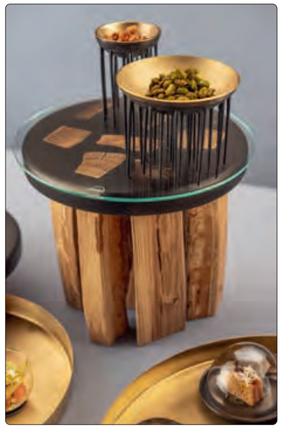
The buffet displays "Stomp!" are made of slightly translucent resin.

This ensures stunning effects, e.g. when used with illuminated buffet tables!

Oak wood is a natural product. Despite careful drying and selection of the pieces, cracks can form in the wood. These do not affect stability or function!

→ Brass trays "Orbis" | p. 78

→ Bowls "Fakir" | p. 76



Please note:

Coloured or clear glass platters can be attached to protect the surfaces. In order to ensure a secure hold, silicone feet can optionally be glued on.

"Sagano" & "Stomp!" – Unique like nature!

The desire for individuality and handmade, unique pieces is perceptible in all sections of the hotel business. Besides distinctive elements in architecture and interior, guests should also experience uniqueness at the food presentation on the buffet.

"Stomp!" and "Sagano" (page 30) are taking up this trend and playfully connect it with the tamed power of nature.

Pieces of solid oak wood, split by an axe, carefully oiled and individually arranged form the basis of the "Stomp!" buffet displays. These ethnic elements of nature are cast in anthracite, but nevertheless slightly translucent resin and thus durably fixed in their arrangement. The silk matt finish of the dark coloured resin forms a harmonic contrast to the oiled oak wood. The combination of "Stomp!" with items made from solid brass results in a solemn, almost mystical atmosphere.

More information can be found on the following pages.

→ Ceramic "Bosque" | p. 158
→ Cloches | p. 193

Please note:

Bamboo is a natural product. Despite careful drying and selection of the pieces, cracks can form in the poles. These do not affect stability or function!

Please note:

Coloured or clear glass platters can be attached to protect the surfaces. In order to ensure a secure hold, silicone feet can optionally be glued on.

charger plate
special hardened safety glass, 4 mm thick, round, polished rim, dishwasher-safe, rubber feet included (adhesive), underside scratch-proof

8242.16	16.0	27.0
8242.24	24.0	27.0

"Sagano" & "Stomp!" – Unique like nature!

Contrary to "Stomp!" (page 28), "Sagano" fascinates by its playful airiness and filigree vibrancy. Feathery bamboo poles in different diameters are composed in white resin. Here, the visible rings on the top of the displays create diversified, almost graphical effects.

Both lines have the same concept, but the final appearance is quite the opposite and yet easy to combine. Each display is one of a kind and absolutely unique.

The resin used in both series is food-safe and was refined with a silk-matt finish and finally oiled. So in case of wear in daily use, the surfaces can easily be refreshed.

To protect these surfaces, but also to arrange food directly on the displays, optionally available glass platters can be placed on top if needed and can also be replaced by new ones quickly.

Video "Textura"

"Textura"

→ Cooling elements "Chiller Base" | p. 62

"Textura" – indestructible, innovative, exclusive!

The exclusive cuboids consist of thin polyethylene filaments, which are convoluted intricately and fused together, awarding them a flexible and very stable texture. The true potential of this innovative material is disclosed in connection with light. The light-conducting properties of the filigree filaments manifest effectively when using the rechargeable Zieher LED-light (page 60), which fits exactly into the cut-outs on the bottom side of the displays. Buffet platters and trays are reliably kept in position due to the non-slip features of this material. The displays are indestructible and very light, washable and dirt-repellent. The countless interspaces create a light-flooded meshwork, which dries very quickly and is therefore resistant to humidity and mold.

Polyethylene can repeatedly be 100 % recycled without losing its outstanding characteristics. It is physiologically non-hazarous, odorless, tasteless and resistant to a variety of acids, oils and grease.

Precisely fitting recess for LED-lights | p. 60

buffet display "Textura"
polyethylene, transparent, with notch for rechargeable LED-light item 8150

item	l x w x h in cm
8232.24	approx. 24.0x24.0x10.5
8232.30	approx. 30.0x30.0x10.5

Please note:

In order to grant a harmonic all-over illumination while using stacked cuboids, it is recommended to use one LED-light per item. For usage of bigger buffet platters, we suggest to employ the elements with 30 cm edge length. Due to the flexible material, we recommend stacking a maximum of two cubes on top of each other, when the system is equipped with heavy platters or bowls.

"Glow"

"Glow" – reframing the buffet!

Filigree displays and frames with integrated lighting form the basis of the "Glow" system.

The matt black coating of these slim but still extremely sturdy lighting objects remains discreetly in the background and leaves the presentation of dishes to the warm and glare-free light.

"Glow" is a flexible system that creates unmatched buffet stagings. The filigree construction not only allows food and beverages to be presented on the displays, their interior space also creates enough space to effectively present delicacies in the right light.

All elements can be used lying or upright and create presentation levels at different heights. This is the base for varied and appealing buffet arrangements.

Two connecting boards made of bent sheet metal can be attached as desired and thus enable the flexible construction of several elements – even across corners. Matching buffet platters made of glass or laminated plastic, as well as trays made of melamine, complete the system.

Zieher buffet systems have been inspiring with innovative lighting concepts for many years. In "Glow", this is now firmly integrated for the first time. The resulting subtle look of these lighting objects creates completely new facets of atmospheric buffet ambiances.

8400.32	48.0x48.0x32.0

Components of the system:

- The illuminated cuboids offer, due to the two integrated connection sockets, the possibility of operating up to three elements with one power supply.
- Illuminated frames can be placed horizontally and thus enable the effective lighting of translucent buffet platters. When set up, they fit into the height grid of the buffet cuboids and thus function as a space-saving support for attached connecting boards.
- The connecting boards are made of powder-coated sheet metal and allow a two-sided use. They can simply be hung between the cuboids and frames, creating additional presentation levels and areas.
- Precisely fitting glass platters of various types and platters made of black laminated plastic make it possible to quickly and easily close the top of the illuminated cuboids. Various melamine trays from the range can also be used on some of the cubes. In the lying position, there is a large selection of suitable glass platters from the Zieher range available (50 x 50 cm / 50 x 42 cm / 42 x 42 cm). These buffet platters are available on pages 64 to 69. If the cuboids are positioned upright, they can be covered with laminated plastic platters.
- Rubberised magnetic buffers ensure the non-slip and noiseless support of all platters and trays. These are available as accessories and can be placed anywhere on the displays and frames. Furthermore, they create the necessary distance in order to place glass or laminated plastic platters in spite of the attached connecting boards.

Accessories LED lighting:

- The power supplies are available with EU, US and UK plugs. The power of the supplies is sufficient to connect up to three cuboids or frames. Since each cuboid has two connection options, they can be strung together without any problems. As they only have one connection option, the two frames form the end of the chain. The energy-efficient LED lighting in warm white colour is operated with harmless 24 volts.
- Connecting cables with angled plugs are available in two lengths and help to keep the number of cables required as low as possible in numerous setups.
- Shapely and reusable cable holders, made of durable silicone, help to lay and fix power and connecting cables inconspicuously or to bundle several cables.

The buffet system "Curve" in application

Design: Itamar Harari

buffet stand "Curve"
galvanised steel, 3 mm thick, matt black (powder-coated), not dishwasher-safe

item	l x w x h in cm	PU
8310.22	27.0x27.0x22.5	2 pcs
8310.46	27.0x27.0x46.5	2 pcs

Flexibility with a concept

"Curve" is made of 3 mm strong, galvanised steel with a high grade powder coating. This guarantees great stability and corrosion-resistance. The gaps between the bars were expressly chosen to make the raisers completely compatible with the systems "Skyline" (pages 40 to 42) and "Squareline" (page 43 to 45). "Curve" is therefore not only suitable as a starter version, but also as an optimal extension of existing systems. All components can be stored in an extremely space-saving way. Simple and swift to install, "Curve" is the perfect equipment for outdoor areas, events and catering.

- different versions: polished and white (golden, copper and matt black on request)

2177.58	32.0x32.0x58.5

Manhattan-Feeling on the Buffet

"Skyline" allows a maximum flexibility for the most exclusive buffet presentations. Different heights enable you to install big buffet platters on the one hand - on the other hand, they can be stabilised by insertion into the corresponding serration. The columns are made of stainless steel and due to the standardised serration heights, they can be combined with the "Squareline" (pages 43 to 45) and "Curve" series (page 39).

Please note:

The bread baskets from the "Skyline" series have a closed base plate and rubber feet. They deviate in height from the buffet stands items 2177... and 8305...

fruit/bread basket "Skyline"

massive stainless steel 18/10, highly polished, square, with bottom plate and 4 rubber feet

item	l x w x h in cm
2178.23	40.0x40.0x23.5

Due to the same serration heights, the "Skyline" system is combinable with our "Squareline" (p. 43-45) and "Curve" systems (p. 39). The acrylic connector of the "Squareline" system may equally be used with the "Skyline" stands (exception: columns with 58 cm height).

Spot colours upon request

The buffet system with 1000 faces!

The stainless steel displays of the "Squareline" series are available in two heights and three versions - highly polished, matt black and white coated. They can be stacked easily on top of each other by using an acrylic connector. A 90° rotated arrangement of the stands increases the creative leeway tremendously and permits a buffet setup at over corner.

The connector piece is available in satin light-diffusing acrylic. In connection with the various versions of displays and buffet platters, countless possibilities for the creation of a buffet arise.

Optionally, "Squareline" offers the possibility to be illuminated from the inside over the full height. When using the satined connector piece, its light-diffusing effect even enhances the spectacular sight. "Squareline" is based on the buffet classic "Skyline" (p. 40 to 42), thus a combination of both systems is possible.

Filigree understatement!

The filigree displays of the "Crossline" series feature enormous stability due to their cleverly elaborated statics. These elements, which have been deliberately designed to have a plain and restrained appearance, unobtrusively blend into every ambience.

The rectangular base has been constructed especially for a presentation bowl made of dark grey glass, which, among other things, impresses by its length of approx. 130 cm. Hinged beams at the upper side of the trestle can be adjusted to the shape of the bowl individually. The supports are felt-covered, which minimises disturbing noises, evens out smaller asperities and provides for slip-resistance.

All trestles are made of galvanised steel and afterwards coated with a robust and scratch-proof matt black powder-coating. Therefore the stands are also suitable for outdoor areas. The variant of raw steel with a rusted and sealed surface inspires by the charm of corroded metal and perfectly matches the industrial style of modern architecture!

Low weight, space-saving storage due to its stackability, easy handling and quick installation are just a few advantages of the "Crossline" series.

The "Zieher-System"

Zieher offers innumerable possibilities to present food optically appealing and highly flexible.

The "Zieher-System" with its different heights of 12, 24 and 36 cm or 8, 16, 24 and 32 cm leads to a perfect composition of different presentation levels on the buffet, thus offering more flexibility in its arrangement. A wide range of buffet platters and trays of hardened glass and laminated plastic in various styles is available on pages 63 to 71.

Thanks to the boundless possibilities in varying materials and designs, every buffet can easily be adapted to any accommodation. The system becomes part of the whole interior and assimilates harmonically into any ambiance.

"Edge"

The filigree "Edge" displays by Milanese designer Itamar Harari are laser-cut from a solid piece of sheet steel and then edged. There are no welded seams or other connections that would have disrupted the design. The matt white powder coating with a fine surface structure protects the material and is extremely robust.

"Edge" quickly and flexibly creates additional levels at the buffet, while the airy and openwork design of the surfaces gives these displays a unique lightness. They are available in heights of 24 and 32 cm and can therefore be combined with numerous other Zieher systems. An overview of the system heights can be found on page 51.

"Konkret!" – distinct design for highest flexibility!

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability, which greatly facilitates handling.

Both variants of the displays (light grey and dark grey) are available in eight sizes; a dark grey XXL bowl impresses with huge size paired with light weight.

Bringing light into the darkness!

The illuminated buffet stands, in connection with buffet platters made of laminated plastic or glass (from page 65), make every buffet shine in a radiant new light. The innovative LED technology does not emit any heat and is powered by a harmless voltage. It is characterised by its longevity and its low power consumption. All information on the matching rechargeable LED light 8150 can be found on page 60.

7002.24	24.0x24.0x24.0
7002.36	24.0x24.0x36.0

The buffet system "Neo" is made of anthracite coloured resin. The matt surfaces and softly rounded edges of these translucent cuboids appear unobtrusive and modern. The optionally available LED-lights (pages 60) are the ideal completion to put "Neo" into its true light. Thanks to the battery-operated LED-lights, which are waterproof to a depth of one metre and can be remote-controlled, even the ice in the ice containers can be illuminated from below. The large selection of different light colours enables spectacular effects!

Please note:

Isolated air inclusions in the material as well as slight colour deviations cannot be avoided due to production technology.

Rechargeable LED-light with radio remote control:

The compact LED-light is controlled by remote control, which allows for a more flexible use of the Zieher "Lightning Buffet" and renders it independent from any power supply and spatial requirement!

This creates a lot of new possibilities for the buffet setup: out in the open, next to the pool or in the middle of the room – without any troublesome cables and controllers that might get into the guests' or the personnel's way. The radio remote control item 8151 (to be ordered separately) rounds off the whole system in regard to function and handling and allows to choose the colouring within a range of up to 15 m without dismantling the buffet first. Due to many different colours and special programs, the buffet will fit into every kind of atmosphere. The lighting colour for the complete buffet can be changed by pressing only one button.

The luminosity depends on the spatial realities; the actual colouring may deviate from the colours shown in the pictures!

The entire instruction sheet with a detailed description of all functions is available at https://www.zieher.com/fileadmin/ZieherUploads/Bedienungsanleitungen/Bedienungsanleitung_Akku_LED_Leuchte__8150_.pdf

- 7 fixed colours and 3 special programs, manageable via remote control (white, green, red, blue, yellow, violet, turquoise, flickering-candle-effect, colour change, colour gradient)
- 3 different brightness-settings selectable (100 % – 70 % – 50 %, only adjustable directly)
- Fixedly integrated high-performance batteries guarantee a running-time of up to 20 hrs (at the lowest brightness-setting)
- LED-light waterproof up to a depth of 1 m
- Remote control (to be ordered separately) controls up to 20 LED-lights simultaneously / range up to 15 m
- Charging device can be mounted on a wall and features a space-saving cable spool

"V12" combines modern and reduced forms with the precious material carbon. The elegant and three-dimensional look of the carbon fibre paired with maximum stability – "V12" adds high-tech to the buffet!

Two sizes of the "V12" displays offer, due to the standardised heights, the possibility to combine it with other Zieher systems. For an overview, please consult page 51.

Cooling pillows

The cooling pads have been tailor-made for the melamine base to provide for an optimal cooling surface by the perfect fit. The pads can optionally be flipped, depending on whether the black top or the white bottom fits into the overall picture more harmoniously. This way, they are applicable inconspicuously, even with slightly translucent or satined buffet platters.

The attractive contrast of top and bottom can also be used on the laid table to deliberately set accents. Serving chilled food becomes a visual highlight. The high-quality case made of black resp. white nylon fabric looks very noble and yet discreet. It is filled with gel, which remains malleable, even when frozen and thus allows an adaptation to a wide variety of tableware used.

"Chiller-Base" – just stay cool!

The cooling elements are an elegant and simple solution for a quick and flexible installation of chilled platters. They can be arranged either at different heights by using displays or freely positioned on the buffet table.

The flat bowls are available in matt black and have been designed specifically for food whose presentation can be extended significantly by cooling.

The puristic form, the compact height of only 35 mm as well as the restrained colouring allow a stylishly discreet integration into numerous buffet constructions. Tailored recesses on the underside of the trays facilitate symmetrical positioning on most Zieher buffet systems. Unobtrusive rubber buffers in the corners of the "Chiller-Base" ensure a non-slip and secure fit of laid-up platters in sizes starting from 42 x 42 cm (page 64–69).

"Skyline" | p. 40-42 "Squareline" | p. 43-45 "Konkret!" | p. 57

Please note:

Cleaning the cooling tray "Chiller-Base" (4597...) in the dishwasher is possible up to a maximum water temperature of 70 degrees Celcius.

Buffet platters and more

Zieher is offering a wide range of buffet platters made of laminated plastic and glass. Due to the wide choice of formats and types of surfaces, there are many possibilities of combinations with Ziehers buffet systems (pages 12–63).

The offer is being completed by various buffet stairs, trays and bowls (from page 70).

Buffet platters made of laminated plastic

- Rusted look, black intermediate ply
- 8 mm thick
- Break-proof
- Dishwasher-safe
- Scratch-proof, antistatic

The buffet platters made of laminated plastic are available in two neutral versions as well as in an extraordinary version. They are break-proof, scratch-resistant, antistatic and dishwasher-safe and impress with these excellent properties and the resulting advantages. All laminated buffet platters by Zieher have a dark middle layer and can be used on both sides because of their double-coating.

Please note:

With this decor, each plate is unique – none of them look alike.

The glass steps items 5026... are adjusted to the Zieher system and due to their height of 12 resp. 24 cm, can easily be combined with many Zieher buffet raisers (page 51). All large steps are supplied in a sturdy wooden box!

"Covo"

Floral baskets and displays

"Covo", "Fronda" and "Bosco" (page 74/75) are artistically crafted brass baskets and displays that differ fundamentally in their floral design, but can still be combined harmoniously.

Matching stainless steel bowls, which are available individually or as a set with the baskets and displays, are ideal for professional use in the hospitality industry. The bowls are polished on the inside and the brushed outer sides are finished in anthracite using the PVD process.

The combination of matt grey, polished stainless steel and patinated brass creates interesting contrasts and yet a harmonious overall look (page 74/75).

"Covo" – the artistic nest

"Covo" brings a wow effect to any ambience. Numerous individual parts are soldered by hand to create these stylish brass objects. The artfully shaped nests have a slightly patinated surface that gives them an elegant and high-quality appearance. They are perfect for presenting bread and fruit, for example, in a stylish setting.

In addition to being used as a basket, a closed base plate also allows them to be combined with various bowls and inserts from the ZIEHER range.

→ Stainless steel bowl 2363.20 a. 2363.23 | p. 74

"Bosco"

"Bosco" – floral elegance for the table setting

Bamboo is associated with Far Eastern flair and elegance. The popularity of this delicate plant has been unbroken for years and is much more than just a fashion trend. In the "Bosco" basket, made of solid brass, the bamboo branches are stylishly arranged and given shape with fine details.

The matching stainless steel bowls are available in two sizes.

bowl/basket "Bosco"
set consists of:
basket, brass, gold-coloured, not dishwasher-safe

"Fronda" – forest mood as a culinary ambience

Ferns are symbolic of mysticism and the mysterious. The "Fronda" displays are reminiscent of the leaves of these plants and, like "Bosco", are cast from brass. The fragile design of these objects is an eye-catcher on any table and forms an impressive base for the presentation of culinary delicacies.

"Fronda" is available in three different sizes, and the matching inserts are also available individually.

2380.18	18.0	9.5

"Roots", "Matrix" and "Fakir" – Brass all of a piece

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

"Roots", a tight web of rootlike structures, and "Matrix", strictly geometrically constructed of hexagons, are entirely different in their shape but nevertheless belong together. This aspect makes the combination of the two so interesting.

An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

→ Buffet stands "Somnia" | p. 26

→ Buffet display "Stomp!" | p. 28/29

"Orbis" & "Orea"

The "Orbis" serving trays are made of solid brass and feature a matt surface texture. The modern look of these products is the result of their matt gold colour and minimalist, clear design. They are available in two sizes and are ideal for use in bars, buffets or restaurant service.

The new bowls of the "Orea" series take up the material and character of the "Orbis" trays, but reinterpret them in an organic way. Each piece is handmade, making it truly unique. The soft, flowing shapes of "Orea" contrast excitingly with the geometric design of "Orbis" – together they form a harmonious duo of clarity and naturalness. The bowls are available in three sizes and impress with their sensual design and artisanal charm.

patina

serving tray "Orbis"
brass (transparent coating, food-safe), not diswasher-safe

item	Ø in cm	height in cm
2378.30	30.0	3.0
2378.40	40.0	3.0

Like "Orbis", the "Orea" buffet bowls are also coated with a food-safe sealant. This primarily prevents the natural patina, that inevitably develops on brass, from forming too quickly. In the long term, this patina is actually desirable, as it is precisely the aged colour of brass which develops over time and use, that exudes a very special charm. The trays and bowls become more beautiful over time – each piece becomes unique.

Please note:

Brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

bowl "Orea"
brass (transparent coating, food-safe), organically shaped, not dishwasher-safe

item	l x w x h in cm
2390.44	approx. 44.0x32.0x6.0
2390.53	approx. 53.0x37.0x8.5
2390.63	approx. 63.0x44.0x10.0

Please note:

When cleaning in the dishwasher, the brass rim may change its colour in the course of time. Therefore it is recommended to clean these items by hand.

2371.14	14.5	7.0	approx. 0.7

The trays and bowls of the "Artisan" series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside. The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

"Medusa" NEW

"Medusa" – risen from the deep-sea

These organically shaped bowls resemble sea creatures gliding silently through the depths of the water. The tentacles, formed in numerous processing steps, appear extremely delicate, yet still provide a secure base. This gives the hammered bowls a natural lightness and an almost floating appearance, despite the solid stainless steel.

"Medusa" provides the perfect setting for all kinds of seafood or extravagantly presented salads and desserts. Even as a decorative storage space, these bowls cut a good figure. The largest version, with its elongated shape, is particularly well suited to expansive presentations and impressive arrangements.

2335	54.0x18.0x66.0

Large numbers of single parts are cast from premium pewter and assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork. The products of the "Reef" series are genuine gems of dining culture.

The outside texture of the bowls differs within the series: whether smoothly rounded or roughly structured with dark, patinated deepenings – each variant has its own charm.

"Leaf"

ⓘ

Please note:

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

"Capiz"

→ Rechargeable LED-light 8150 | p. 60

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights, the double-walled bowls, produced in mosaic-look, create fascinating effects. The double-walled construction provides insulating characteristics. This prevents the formation of condensation on the outside of the bowls to the greatest possible extent.

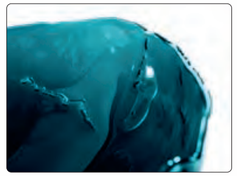
"Nox" NEW

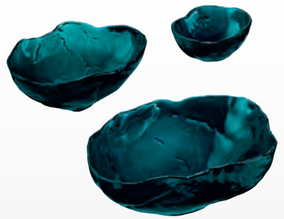
Handcrafted bowls with organic design

The "Nox" series captivates with its organic form and a fascinating colour palette of deep blue-grey shades. Each of these exceptional glass bowls, available in three sizes, is a handcrafted one-of-a-kind piece – shaped from molten glass that flows into irregular lines and soft contours.

ⓘ Please note:

The bowls of the "Nox" series are unique, handmade pieces. Small air inclusions and slight variations in the shape, colour and thickness of the glass are therefore unavoidable.





glass bowl "Nox"
glass, blue-grey, structured, oval, organically shaped

"Cave"

The handblown glass version of the "Cave" bowl is available in two sizes. The soft tinge of this grey glass at first glance allows an unobstructed view onto the content of these shapely objects. "Cave" offers the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories. The smaller version, made of china, is available on page 182.

glass bowl "Cave"

Please note:

All items shown on this pages are handblown. Therefore it is impossible to avoid variations in glass thickness, colour intensity and weight.

Item 4814.17 is varnished. Therefore we recommend hand washing for this bowl!

The handblown bowls made of grey tinted or varnished glass (4814.17) are restrained in their shape, but very versatile in their appearance. By combining the bowls with the gold-coloured stands of the "Somnia" series (page 26), opulent and extravagant buffet stagings can be created.

Optionally available silicone rings form a non-slip base and increase stability.

XXL-bowl made of grey glass

→ Rechargeable LED-light item 8150 | p. 60

This monumental bowl made of dark grey glass arches like a sculpture and melts optically with crushed ice to stage classy seafood or champagne in an opulent way.

In combination with the Zieher rechargeable LEDs, which perfectly accentuate the irregular structure of the glass, the presentation becomes even more dramatic! This effect is further intensified by the optical refraction of the ice.

This impressive bowl with a diameter of 82 cm can be placed free-standing on the floor by using the fitting rack (item 8213). But also right at the buffet table or arranged together with the stands of the "Crossline" series in different heights – these designer pieces know how to impress.

NEW "Valletta"

Waves of glass

These extraordinary glass plates, with their crinkled texture, combine elegance with great versatility. Numerous folds create small valleys that allow sauces or dips to be presented in an eye-catching way and dishes to be arranged with particular creativity. The smaller version of the "Valletta" plate is ideal for intermediate courses or desserts, while the larger one offers ample space for a selection of fresh fruit or dishes to share. Each plate is a unique piece – modern, distinctive, and a highlight on any table.

Manufactured in old tradition

Each of these high grade bowls is unique and almost completely handcrafted. At this, coloured glass is completely covered with crystal clear glass, which awards the bowls with top brilliance and an impressive look. The handblown glass blank is modelled manually, whereby unique pieces are created which excite by their organic shape.

Please note:

Due to the complex production process, small air inclusions in the glass are inevitable.

Thermo bowls "Shine"

The stainless steel bowls of the "Shine" series are double-walled and therefore have an insulating effect. This helps to prevent water condensation – even at higher temperatures. Cold food stays cold and warm food stays warm longer.

The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel) makes that series an eye-catcher.

bowl "Shine"

stainless steel 18/10, outside polished, inside satined, double-walled, round/oblique, dishwasher-safe

Etageres

→ Glass inlay, item 5244.21

→ Plate "Bolla", item 5186.22

→ Plate "Bosque", item 4544.20

Please note:

All items of the "Fleur Déco" series are food-safe, allowing for the direct placement of cold and dry foods on the etageres. For other purposes Zieher offers a wide selection of bowls as well as matching plates and dishes. Do not clean in the dishwasher.

You will find a selection of suitable plates and platters on page 264.

A Tribute to the Beauty of Nature

"Fleur Déco" embodies the true essence of luxury combined with elegance and, at the same time, pays homage to the art of craftsmanship.

Each component of these unique pieces is cast from brass and meticulously finished to achieve the perfect balance between golden and dark patinated areas. Each blossom, each branch is carefully assembled by skilled hands to create a harmonious and floral appearance that seamlessly blends natural beauty with functionality.

The series includes a three-tiered etagere for plates and dishes up to 22 cm in diameter. This beautiful etagere provides space for a variety of dishes and adds a highly elegant touch to every buffet or table setting. A serving platter, from the center of which a decorative plant emerges, serves as a centerpiece on any table. The buffet tree is a masterpiece of floral design, offering space for numerous culinary delights on its ten leaves.

"Fleur Déco" is the perfect choice for discerning hosts who value exceptional quality and design, and who give a high significance on both the taste and presentation of their culinary creations.

"Flex-Tree"

The "Flex-Tree" enthuses by its versatility! On these trees, plain discs replace the fixed leaves. With a diameter of 5.5 cm, they offer sufficient space to equip the tree either with glass, porcelain or stainless steel miniatures. To be on the safe side, they can be placed on white anti-slip silicone pads. This reduces the sound emission and at the same time increases the stability of the used miniatures.

All trees are made of massive stainless steel and are accurately high gloss polished. The 8 mm thick foot is the perfect base and guarantees a safe stand.

"Flower-Tree" – A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies. The shape of the leaves is based on the already existing plateau plates and "Flower-Tower" etageres (page 107). This opens up the option to arrange the buffet installations diversified and variable, but nevertheless harmoniously.

Tempting variety on the buffet

For the presentation of filigree delicacies in the smallest of spaces, the "Table-Trees" offer numerous possibilities for a stylish staging.

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower. The "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Each delicacy is held securely by an artfully shaped spiral that prevents slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss. The solid base forms the basis of these filigree products and ensures a secure stand.

Floral shapes in a steely gloss

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Two etageres and plateau plates in different heights (page 109/110) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet.

The ice cream/sorbet cup and petit-fours stand make a nice complement and stage individually appetizers or a dessert.

Please note:

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical cleavage, which makes every piece a unique product. Small deviations in structure, thickness and weight of the platters are inherent in the nature of the product and contribute to its precious and vivid appearance.

Specific groceries, especially those that contain fruit acid (citric acid) may damage the surface in case of prolonged contact. Therefore we recommend avoiding any direct contact with edibles.

The slate platters are not sealed. To achieve an evenly dark grey colouring, we recommend rubbing the platter with vegetable oil from time to time.

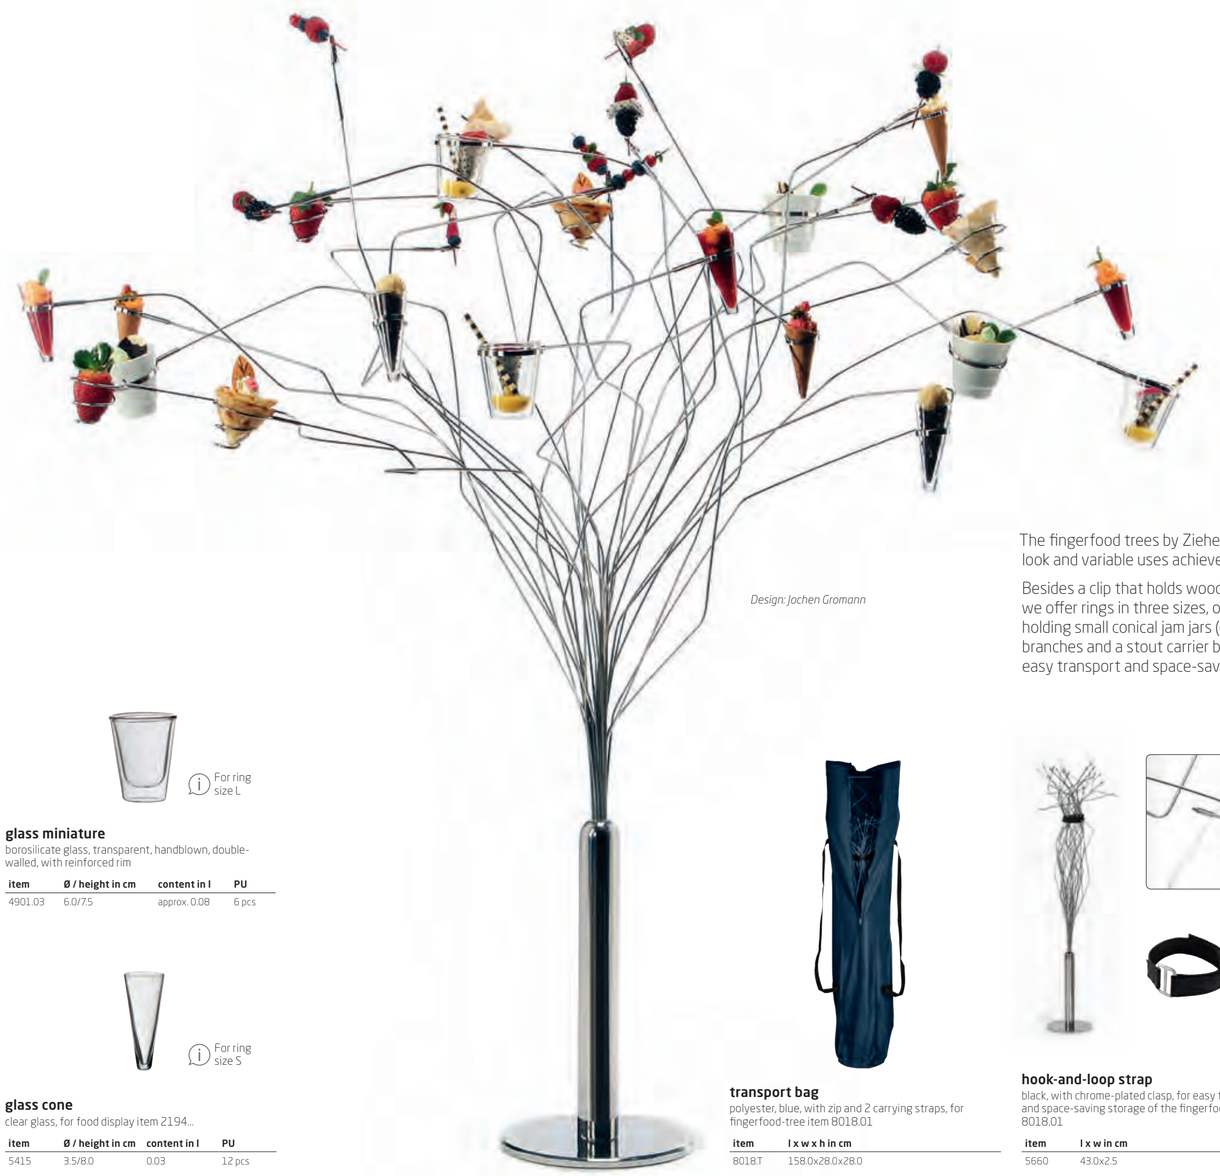
ⓘ Equipped with rings size M, the fingerfood-tree is perfectly suitable for presenting portion jam in conical glasses, e.g. Bonne Maman



Design: Jochen Gromann

"Fingerfood-Tree"

The fingerfood trees by Zieher are absolutely delightful due to their extraordinary look and variable uses achieved by the different attachments!

Besides a clip that holds wooden skewers and a spiral for small wraps and waffles, we offer rings in three sizes, of which the medium size is especially designed for holding small conical jam jars (e.g. Bonne Maman). Velcro straps to fasten the 30 branches and a stout carrier bag are available from the accessory section and allow easy transport and space-saving storage of the bent trees.

ⓘ

Please note:

The trees are delivered with unbent branches; the bending has to be arranged before the first use!

The branches are made of stainless steel and will sag when loaded with food. This is why the branches should not be bent too far down when empty. In order to obtain a more favourable result, it is recommended to bend the branches one by one and to work in a circle from the outside to the inside.

The different attachments can be screwed onto the end of the branches, whereas the connection point should only be tightened up slightly. When using the rings or spiral supports, it is recommended to leave the connection point open by about half a turn, as they will turn into the apt position by themselves due to the weight of the attachments.

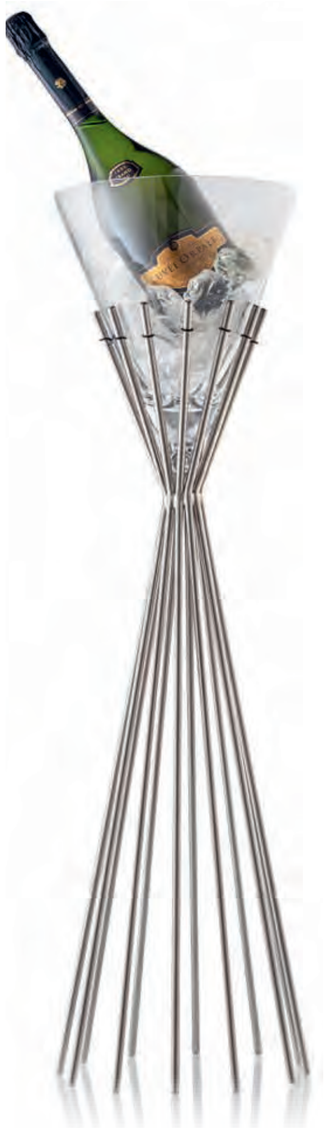
"Mikado"



"Mikado" – cool staging!

The bottle cooler "Mikado" is made of solid stainless steel and high gloss polished. Due to its weight and the generously dimensioned floor area, the solid frame has the required stability to offer the matching cooler made of hand-blown glass a secure hold.

Additional silicone rings on the upper side of the rods treat the glass body with care and avoid disturbing noises.

A very special highlight creates the optionally available waterproof LED-light, which can be placed right inside the cooler. Multiple colours and functions can be adjusted by a remote control, an optionally available supporting ring keeps the light in position. All information about the LED-light can be found on page 60.

The glass insert of the "Mikado" bottle cooler can also be used as cloche. The reinforced quality, which is indispensable for the use as a cooler, brings, besides the slightly higher weight, also an obviously improved stability. The integrated ball grip at the top provides an easy handling when used as a cloche (page 190).

8017.80	80.0	1 set (3 parts)

The buffet stands made of solid, high gloss polished stainless steel impress by their high-quality workmanship and delicate appearance. Bowls and dishes appear almost hovering while slip-proof caps on the feet ensure secure support.

The buffet stand with integrated ring (item 8016.01) can be extended to heights between 80 cm and 120 cm with matching extensions. Massive and bulky buffet tables thus become almost superfluous! In addition to placing bowls, plates and platters (max. Ø 21 cm on the lower level), it can also accommodate unusual wine coolers made of borosilicate glass. These can also be placed in the "Stablo" stands in sizes M and L when positioned at an angle.

The shape of the coolers corresponds to the already known Zieher cloches (p. 188/189); borosilicate glass in a reinforced quality guarantees the necessary stability! Condensing water on the outside is drained off to the bottom tip. Dripping water can be collected by placing a small bowl on the floor or buffet table! Optionally available Zieher rechargeable LED-lights put champagne and iced food in the limelight!

"Falcon" – really uplifted!

This etagere is giving wings to the creativity at the buffet. A single one can bear up to three plates on its wings or, when used as a duo, fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters.

As a high-tea stand, the etagere carries coup plates made of porcelain. Those plates fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated serving handles facilitate the service.

ⓘ The "Falcon" etagere – as most stainless steel items – can be refined by using the PVD process. Prices, minimum order quantities and delivery times upon request.

Elegantly served and presented in style – classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three levels and in two sizes. The classic mini format etageres effectively present petit fours, desserts, chocolates or other delicacies. The larger version is ideal for scones and jam during Five o'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table. Suitable inserts made of china or stainless steel are available on page 274 and 275.

Etagere “DressCoat”

Food: Pâtisserie Walter
www.patisserie.de

→ Series “DressCoat” | p. 179

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant base for many sorts of plates and platters. The supporting rings with a diameter of 15 cm offer the possibility to insert not only plates and platters, but alternatively also bowls. Black silicone rings keep inserted porcelain in position and prevent annoying noises.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plates of the “DressCoat” series. Numerous presentation areas on a total of four different levels can be created by placing additional plates directly on the table. The diameter of 22 cm is well suited to put different pralines, petit fours and other creations of confectionery into the limelight in an impressive way.

ⓘ We recommend the use of large plates on the lower level only

The plain bottles made of coloured borosilicate glass are not only a visual highlight, but also extremely functional. With a capacity of 0.4 to 1.0 litres, they are perfect as elegant dispensers for muesli, cereals or even dried fruit and nuts on the buffet. A loose cork ball reliably protects the contents from contamination, while the green or grey tinted glass shields the contents from harmful sunlight.

The smallest version made of green borosilicate glass is ideal as a nut chute or for nibbles at the bar, while the two larger models in grey-tinted glass are perfect for cereals, muesli mixes or other supplies.

4768.16	43.0x30.0x16.0

→ "Solid" bed tray | p. 297

The "Mercato" buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cutouts offer numerous advantages. "Mercato" can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (from page 64) can simply be laid on or pushed into the lateral cutouts of the baskets (max. width 21 or 34 cm).

The integrated rubber feet ensure secure standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation.

The "Solid" bed tray is a nice addition to this system. Due to its integrated foldable feet, there is no need for displays for elevated positioning. For more information on the bed tray, please see page 297, for the fitting "Solid" breakfast buffet, please check pages 130 onwards.

Bread and more – attractively presented!

The presentation of bread is not only important at the table, but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables.

A fitting cutting board including a crumb drawer and an exchangeable grate, two cutting boards made of end grain wood as well as a suitable bridge (page 134) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of this tray, which is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions for the tray offer space for several miniatures (from page 286) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the woods warm brown colours in different shades and its intensive and distinctive grain make every product a unique item.

Show cooking is a popular trend!

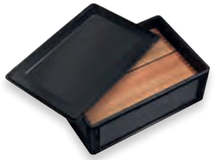
Whether using it for catering, at events or at the hotels own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both cutting boards and bridges have been chosen in such a way, that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

More items from this series can be found on pages 253 to 260.

Please note:

The Zieher cutting boards are oiled. The use of the cutting boards naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.



Stackable in all usual transport boxes with a size of 60 cm x 40 cm (e. g. meat box, height approx. 20 cm)

→ Further sizes and variations of the cloches | from p. 139

4778	29.0	8.5

The high-quality cutting board made of fine end grain walnut wood is much more than a shapely and elegant kitchen aid. This product only unfolds its full potential in connection with the respective stacking rings and bowls.

All parts have a groove at the top, which allows quick and easy stacking of the various items. The milled groove of the cutting board serves on the one hand as a juice groove, on the other hand as a receptacle for various glass cloches. Thus aromatic types of cheese can be presented. A classic cloche made of handblown glass or an extravagant shaped cover made of highly durable borosilicate glass protects and stages the food at the same time. The stacking ring creates different levels of presentation when used in a clustered arrangement of cutting boards and trays. Also, the capacity of the bowls can be increased in this way.

Accurately fitting connection plates made of hardened, white or black coloured glass, can be slid exactly into the grooves of the stacked rings and thus work as buffet platters between the columns. This creates additional space and raises the flexibility of this system at the same time.

Cutting board, ring and bowl are sealed with high quality oils. Especially regarding the cutting board, this enables the simple refurbishment of the surface.

"Solid"

This elegant serving platter impresses with its extraordinary shape and stylish combination of oiled walnut wood and slate coloured ceramic.

As a serving tray, it can be used to present individual courses or mixed arrangements – so-called "sharing plates" – in an attractive way. The pentagonal design allows for numerous arrangements and thus enables effective organisation of the available space.

The protruding handle allows for easy removal of the insert which enables easy cleaning of the thin, yet very robust ceramic.

Both the Roomservice tray and the bed tray allow you to eat directly from it due to the recessed longside.

The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The tray also cuts a good figure on the buffet. The positioning feet make it possible to dispense with the use of displays for heightened placing. A speedy setup and flexible handling facilitate daily operations.

The shapely stand always provides the appropriate possibility to set up the "Solid" room service tray (item 4735) in the hotel room, but also in the restaurant. Combined with trays and glass platters in sizes starting from 55 x 36 cm, it easily and flexibly creates new spaces at a comfortable height. Thus, it is predestined for the use at the buffet and during coffee breaks in the congress and convention business. The massive frame made of walnut wood harmonises perfectly with other buffet items of the series (from page 128) and can be combined with them very well. Rubber feet on the top prevent the shifting of platters and trays, felt gliders at the base protect the parquet flooring and ensure safe standing.

"Bento Box" – flexible mobility

Matt black melamine, modern design and subtle contrasts, created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The box is divided into a main compartment for plates up to a diameter of 28 cm and a narrow side compartment for cutlery and napkin or miniatures made of glass and porcelain.

Optionally available inserts create additional space for side dishes, sauces or dips, when placed above the cutlery compartment. Up to four of these boxes can be placed in a Bento Box if required, and, with a correspondingly flat content of the main compartment, create a second level for even more flexibility.

The cover has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

Box, insert and lid are sold separately and can be combined as desired. All components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Advantages of melamine:

- food-safe
- odourless

The advantages of melamine are particularly evident in daily catering use.

The matt black surface of the Zieher melamine items generates a superb contrast to glass and porcelain and impresses by its pleasant haptics. The trays are available in common GN formats and in three slim rectangular formats.

Different boxes made of the same material can be arranged in a variety of combinations on all melamine trays and thus offer enormous potential for a use at the Flying Buffet, in catering, at the bar or at the breakfast buffet. A selection of suitable combinations is available on the following pages.

The sturdy containers can also be used as plain elevations for platters and trays. Without additional efforts in procuring material, it is possible to arrange varied buffet presentations quickly and easily.

The bridges and spoon rests (page 154) can be used on all trays, non-skid rubber feet on the bottom side facilitate the service enormously.

Cooling pillows

The cooling pads have been tailor-made for the melamine base to provide for an optimal cooling surface by the perfect fit. The pads can optionally be flipped, depending on whether the black top or the white bottom fits into the overall picture more harmoniously. This way, they are applicable inconspicuously, even with slightly translucent or satined buffet platters.

"Modul" – walnut

"Modul" is a flexible product ready for "Flying Buffet" service - and therefore ideally suited for the use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top.

→ More items made of walnut | p. 128–143 and 253–261

→ Buffet stands "Lightning Buffet" | p. 58

"Modul" – melamine

In addition to solid walnut wood, "Modul" is also available in a modern matt-black melamine design.

Advantages of melamine:

- modern design with matt-black surface
- food-safe
- odourless
- easy-care

"Modul" – melamine

→ Skewer 1939.01 | p. 156

→ Plate "Modul" 4383 | p. 156

Please note:

Cleaning in the dishwasher is possible up to a maximum water temperature of 70 degrees Celsius.

The grooves on the underside of the tray allow water to drain away.
Handwashing recommended!

→ Melamine trays in GN-dimensions | p. 149

The advantages of the robust and food-safe material melamine are particularly evident in daily use in the catering business!

The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and modern appearance.

"Modul" – walnut

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the woods warm brown colours in different shades and its distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

"Bosque"

A breeze of enchanted forest

The imperfection and individuality of handmade ceramics convince, opposite to the standardised results of industrial manufactured bulk goods, by their very charming and natural flair.

It's only the used reactive glaze that awards the organically shaped plates and bowls of the ceramic series "Bosque" their very special charm. These effect glazes react during the firing process with special ingredients and thus create fascinating patterns, which are basically similar but never identical. They emphasise the handmade character of the crockery and make each piece unique.

With "Bosque", a play of colours of different shades of green, blue and grey is created in fascinating gradients and effects that exude an elegant vibrancy and a festive mood.

"Pulsar" – Sparkling impulses!

This gourmet plate is predestined for appetizers, intermediate courses or desserts.

The surface is reminiscent of the playful waves created on a smooth lake after a stones throw. The viewer's gaze purposefully wanders to the centre of the concentric design and this way, the served dishes come straight to the fore.

"Pulsar" is made of high-quality hard porcelain in a surprisingly soft composition and is available glazed in glossy white or in matt black.

The fitting cloches are based on the extraordinary design of the "Nostalgic" glasses from the VISION series. The language of design of the wine glasses recurs in the cloches that are mouth-blown as well – the perfect combination for a balanced and harmonic staging on the table.

These exclusive covers are available in two sizes: The small version precisely spans the inner circle, the bigger one additionally covers the first wave.

4507.02PB + 5482.10/5482.15

Design: Grace Liu, Jian Ping Li

"Cuspis"

Borosilicate glass in its most beautiful shape!

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes. The inspiration for their shaping was derived from the nut of the oak tree. The unglazed outside of the porcelain bowls and plates is reminiscent of acorn caps.

The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest while the filigree glass cloche protects the presented delicacies and puts them into the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

Design: Michael Schwarzmüller

Please note:

If the large plate is used upside down, the two rings on the underside can be used to separate the prepared dish into different sections but also allow the use of different "Cuspis" cloches (4940.10 on the inner ring, 4940.25 on the outer ring).

"Valletta" NEW

"Valletta" – Waves of Glass

These extraordinary glass plates, with their crinkled texture, combine elegance with great versatility. Numerous folds create small valleys that allow sauces or dips to be presented in an eye-catching way and dishes to be arranged with particular creativity. The smaller version of the "Valletta" plate is ideal for intermediate courses or desserts, while the larger one offers ample space for a selection of fresh fruit or dishes to share. Each plate is a unique piece – modern, distinctive, and a highlight on any table.

"Gelo"

The glass plates and bowls of the "Gelo" series set frosty accents and convey a high valence on the set table by their satined surface and robust style. The bowls, which feature a slight structure on the inside, harmonise very well with the smooth surface of the organically shaped plates. All items of this series are made of extra white special glass which, compared to standard glass, contains a significantly reduced green component.

"Nox" NEW

Handcrafted bowls with organic design

The "Nox" series captivates with its organic form and a fascinating colour palette of deep blue-grey shades. Each of these exceptional glass bowls, available in three sizes, is a handcrafted one-of-a-kind piece – shaped from molten glass that flows into irregular lines and soft contours.

The combination of a glossy surface and intense, iridescent colouring makes the "Nox" bowls striking design objects. They highlight the beauty and allure of imperfection, providing an appealing yet understated stage for presenting fine dishes.

Please note:

The bowls of the "Nox" series are unique, handmade pieces. Small air inclusions and slight variations in the shape, colour and thickness of the glass are therefore unavoidable.

"Collina" is perfectly suitable for antipasti and delicacies from the patisserie, but a selection of fruits can also be beautifully put in the limelight in the hotel room.

In order to protect the sensitive surfaces of furniture, every plate comes with feet made of rubber, which can be stuck on if needed. The rigorously geometrical structure permits the assembling of several plates, which allows to enlarge the effective area of the platters in both length and width. When looking at the surface from the side, the arrangement has the appearance of a desert landscape formed by the wind.

"Donna"

Food: Grzegorz Parczewski
www.facebook.com/grzegorz.parczewski.1

Bedded on glass or china

The organic form of these extraordinary objects offers an ideal presentation area for high-end dishes or for storing various items of everyday life. The glass cushion also cuts a fine figure when used as a soap dish. The larger version made of porcelain sets the scene for every dish in a surprising way and forms an exciting contrast to conventional porcelain shapes.

"DressCoat"

→ Etagere "DressCoat" | p. 270

Food: Pâtisserie Walter (www.patisserie.de)

"DressCoat" was created by the glass and porcelain designer Nadine Podewski. The creation of the plates and bowls respectively is characterised by the apparently free falling drapery of table cloth. This creates a seemingly weightless, almost floating effect. The slightly concave shaped surface offers space for artfully decorated dishes and reliably avoids the sloshing of sauce.

"DressCoat" is available in three different sizes. Besides the main application as a plateau plate, each item can also be used as a bowl. The falling folds add up to an exciting game of shapes – in particular if used as a bowl.

Design: Nadine Podewski

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With the two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

You can find all information about the utilisation of the cooling pads at the buffet on page 62.

"Cave" consists of intricately worked hard porcelain and captures by its soft shaping and the velvety haptic of the unglazed outside. The miniature bowl is predestined for the use at standing receptions or at the flying buffet. It can be carried comfortably and fits perfectly/ in the palm of the hand.

The glass version of the "Cave" bowl is available in two sizes and offers the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad. The soft tint of the grey glass, which is hand-blown in the traditional way, stages the contents of these shapely objects. They remain protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance.

The decanter cooler "On The Rocks" has been exclusively designed for Zieher decanters "Eddy" (4883) and "Star" (4947). The selected grey marble is captivating due to the diverse patterns of its marbling. Each piece is unique and offers the opportunity to decant and simultaneously chill white, rosé and red wines in a stylish manner.

However, "On The Rocks" also allows for the exceptional presentation and serving of chilled dishes on ice. From oysters or a small serving of caviar to a selection of delightful pralines, the possibilities are virtually limitless.

You can find all information about "On The Rocks" on page 217.

Please note:

Marble is a natural product and the grey marbling can vary significantly, creating a lively and exceptional effect for this natural stone.

Certain foods, especially those containing fruit acids (citric acid), can potentially affect the surface with prolonged contact. Therefore we recommend avoiding direct contact with food. Please clean with a damp cloth and mild cleaning agents only. Not dishwasher safe.

"Cuspis"

The cloches and porcelain coasters of the series "Cuspis" are inspired by the nuts of the oak tree. The ball-shaped handle at the tip of the cloches allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain coasters with its distinctive texture is reminiscent of acorn caps. The coaster can be used on both sides.

If the item is used upside down as a plate, the two rings on the big plate's underside can be used to separate the prepared dish into different sections but also allow the use of different "Cuspis" cloches (4940.10 on the inner ring, 4940.25 on the outer ring).

The glass cloches, which are available in 6 sizes (diameters 9 cm to 30 cm), delight by their high quality and unusual form.

The covers are heat resistant, light but robust, dishwasher-safe and easy to use. Each item is manufactured by hand and shaped individually.

The raw material for these items is borosilicate glass, which is mainly used for laboratory dishes.
Its main features are great resistance against heat and changes in temperature as well as high break resistance. A wine cooler of the same design is available on page 220.

Please note:

The cloche 4848 can also be used as an elegant wine cooler and is therefore manufactured in stronger quality. The result is a slightly higher weight with significantly improved stability. The suitable stand "Mikado" is available on page 221.

→ Wine cooler stand "Mikado" | p. 221

The cloches on this pages are handblown and, in contrast to our cloches made of borosilicate glass (page 188/189), are worked by hand from a solid glass drop. Therefore small air inclusions and minor streaks cannot be avoided completely. Each cloche is unique, the result is a harmonic enlivenment of the buffet for an attractive price.

Wine glasses, decanters, bar & more

@trotterwine

The VISION of simplicity

No distinction is made between red wine or white wine glasses in this collection - the glasses are simply theme-based or character-based. The names of the glasses FRESH, STRAIGHT, INTENSE, BALANCED, RICH, NOSTALGIC and SIDE clearly explain what they are used for: You intuitively reach for the glass, which in the best way presents the flavours of the wine you particularly wish to emphasise. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation, that mirrors your requirement best.

Follow us on YouTube:
"ZIEHER VISION video"

Skilfully handblown

Filigree craftsmanship meets innovative design

Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass blowing workshops in the world. The glasses are manufactured of lead-free crystalline glass, using a traditional glass-blowing method. Each glass is unique and has been created by a glass blower with artistry and dedication.

Filigree craftsmanship

Functional design for maximum presence of aroma

The VISION range is guaranteed to provide a highly sophistica-ted and fascinating design, accompanied by a unique aesthetic per-ception. The shape of the chalices and waveform of the bottom enable a maximum presence of aroma and optimum development of the wine.

Unique light refraction

The VISION series provides perfect wine enjoyment: intuitive, uncomplicated and always in accordance with your own desires. However, it is particularly the fascination of the light, the colours, the refraction and the visual depth, that make it impossible to tear your eyes away from the glass, because: You have never seen wine like this before!

VISION – The taste experience!

The wave which releases a wine's full potential

The shape of the bottom of the glass bowl increases the surface area so that the wine is aerated more easily and is able to open up faster. The wave creates a dynamic that intensifies the sensory perception of taste and aroma and transforms the enjoyment of wine into a truly sensual experience.

"Thanks to the oxygen integration, the wine is stabilised, its aromas are enhanced and harmonised and even the most challenging wines appear perfectly balanced."

Silvio Nitzsche, Sommelier

FRESH now with effervescent point!

Get to know VISION!

The glasses FRESH, STRAIGHT, INTENSE and BALANCED are also available in a single package.

FRESH
crystalline glass, transparent, handblown, including effervescent point

item	Ø / height in cm	content in ml	PU	
5480.01	8.0/24.0	approx. 340	2 pcs	
5480.01-1	8.0/24.0	approx. 340	1 pc	

For extremely fresh white wines, Prosecco or any variety of sparkling wine, light rosé wines

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides the palate with a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, freshly acidic structures is encouraged, and individual features of the bouquet are brought into focus. The effervescent point at the bottom of the goblet creates a fine string of rising carbon dioxide bubbles in sparkling wine.

STRAIGHT
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU	
5480.02	9.0/27.0	approx. 540	2 pcs	
5480.02-1	9.0/27.0	approx. 540	1 pc	

For pure grape varieties and fruity / aromatic red and white wines

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aroma culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

INTENSE
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU	
5480.03	10.5/28.0	approx. 640	2 pcs	
5480.03-1	10.5/28.0	approx. 640	1 pc	

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wines

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

BALANCED
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU	
5480.04	12.0/25.0	approx. 850	2 pcs	
5480.04-1	12.0/25.0	approx. 850	1 pc	

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagne

A perfect glass for wine that is not for decanting due to its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

The Zieher Food-VISION

The VISION series is predestined for wine and has been created to perfectly represent its different facets. In addition to this, the glasses offer an extraordinary platform for small delicacies or complimentary dishes from the chef. The harmonic wavy shape of the bottom creates an eye-catching ring when filled with spume or liquids. The depression in its centre provides space for amuse bouches or decorative highlights.

RICH
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU	
5480.05	7.0/23.0	approx. 280	2 pcs	

For fortified, sweet and dessert wines and any type of distilled beverage

A glass for the majority of heavyweight or high-proof drinks. The small presentation surface ensures that the wine or brandy does not become overly concentrated, so that the heavyweight aromatic elements are released in a nuanced way. Due to the glass having a narrow opening, the nose cannot go in very far, which prevents the perceiving mucous membranes from receiving a barrage of alcohol.

NOSTALGIC
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU	
5480.06	10.5/16.5	approx. 250	2 pcs	

For cocktails or as a food glass

The wide chalice is perfect for elegant presentations of creative cocktails, spectacular hors d'oeuvres or sophisticated sweets. Ideal in combination with SIDE for plain water, for easy service distinguishing both types of water.

SIDE
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU	
5480.07	9.0/10.5	approx. 480	2 pcs	

For carbonated mineral water and soft drinks

Complementing the wine glass series, this glass is the tasteful companion for a stylish presentation of carbonated mineral water and soft drinks. The carbon dioxide is harmonised and the acids and mineral elements of fine sources are delivered to the tongue and the palate in a refreshing way, without being intrusive.

VISION

"Of course, there is life without wine, but who wants that?"

Silvio Nitzsche, Sommelier

For further information about the VISION series, philosophy and a far-reaching analysis of sommelier Silvio Nitzsche, please visit:
www.zieher.com/en/highlights/vision

For more than 30 years, Silvio Nitzsche has looked after both the guests and the wine as a sommelier, amongst others in some of the best Michelin-starred restaurants.

Some of his high-profile positions have been:

- Sommelier at "Dieter Müller Restaurant" (19,5 GM, *** Michelin), Bergisch Gladbach / GER
- Sommelier at "Erna's Elderberry House", Oakhurst / CA, USA
- Assistant Restaurant Manager and Sommelier at "Speisemeisterei" restaurant (18 GM, ** Michelin), Stuttgart / GER
- Management of the wine retail and wholesale company KierdorfWein

In 2007, the sommelier found a new home in Dresden. Opening the WEIN | KULTUR | BAR he and his team managed to establish one of the best wine bars in Europe in the wine consciousness of many. He has succeeded in creating a place where wine is a given. It is not for nothing that he has already won the "Best Wine List of the Year" award six times.

The WEIN | KULTUR | BAR is listed in Gault & Millau guide and is quoted by Falstaff BARGUIDE 2024 as Germany´s best wine bar. The NZZ named the wine bar the best wine bar in Europe in 2024.

Early 2024 Silvio Nitzsche handed over his wine bar to a former employee , who is continuing to run it with great success. Since the beginning of 2024, he has successfully dedicated himself to the podcast project "SOMMELIER", in which he invites Germany's most interesting sommeliers to a dialogue.

In his professional life, the sommelier has received numerous awards for his work and for his company. Silvio Nitzsche has been voted one of the ten best sommeliers in Germany several times by "Der Feinschmecker" magazine and received the "Award of Honour" in 2019. For well over ten years, he has been consistently listed in the top 50 listings of the best German sommeliers by Rolling Pin and Busche Verlag/Aral Schlemmer Atlas. Most recently, he was named "Sommelier of the Year" by Falstaff magazine.

Silvio Nitzsche tastes wines for the "Vinum Wineguide" and for the "Weinwisser" magazine, where he is responsible for the Saale-Unstrut region.

Remarks by wine experts

"With each sip, I understand a little more that this glass is not just a support, but a tool that sculpts the experience."
Yoann Palej, journalist, @yoannpalej, France

„It is most impressive how wine-friendly the Zieher glasses are. They make tasting and drinking wine a real pleasure."
Alison Flemming, MW, Germany
www.tastebyflemming.de

"Zieher glasses manage to enhance the wine with an elegance and delicacy that is unmatched"
Emanuele Trono, @enoblogger, Italy

"In my restaurant, guests often ask me about our Zieher Vision glasses. Not considering the perfect presentation of wines in a gastronomic setting would leave the culinary experience incomplete."
Christian Stahl, Michelin-starred chef and winemaker
winery Stahl, Germany

"The world´s best wines, served in a Zieher glass, are the perfection of my menus!"
Christian Senff, @naminewitt
Föhr, Nieblum, Germany

"Zieher glasses open new facets and show wine in a completely different way."
Christian Müller, winery Max Müller I
Volkach, Germany

The product:

The "Tesoro" wine glass lid preserves the volatile aromas and fits on every VISION wine glass. At the same time it protects the wine from flying insects and other foreign bodies.

The lids are made of high-quality borosilicate glass, which originates from the laboratory sector and is known for excellent chemical resistance and high light transmission in combination with a flawless surface quality.

The break-proof glass can easily be cleaned in the dishwasher and is odourless – the basic requirement for preserving the aromas of the wine.

Putting the rule to the test:

Take two glasses of the same kind. Now fill both of them equally. "Seal" one of the glasses with "Tesoro" and leave the other one open. Wait for just five minutes and then smell both glasses.

Both wines will be identical in taste! This reflects the development the opened wine is nevertheless going through. Note the variety of aromas, which you can absorb and analyse in the glass previously closed with the lid. You will be astonished.

Tapas culture:

Tapas (lit.: small lids) meanwhile have become a gastronomic concept. According to the actual literal origin, you can arrange accompanying snacks and sweets on the "Tesoro" and serve them to your guests with the wine glass.

wine glass lid "Tesoro"
borosilicate glass, transparent, handblown

item	Ø in cm	height in cm	PU
5478	9.0	2.3	2 pcs.
5478-06	9.0	2.3	6 pcs.

Covers fine wines, preserves volatile aromas and acts as a serving lid.

An aid to wine enjoyment!

"It's not just a wine glass lid, it's about capturing transience. Hardly anything is as volatile as the wine aromas that escape from an open bottle or a filled wine glass. It happens automatically and naturally. It is irreversible and, in retrospect, often leaves a feeling of regret for not being able to capture the moment.

Sometimes it's in fact the small and inconspicuous things that leave a particularly big and lasting impression - like the "Tesoro" wine glass lid. It creates wine experiences you have never before consciously and obviously perceived."

Silvio Nitzsche, Sommelier

The function:

Inside a wine glass, a microcosm of different aroma molecules is created. The variety of primary, secondary and tertiary fragrances emanates from a wine glass in several stages and cannot be enjoyed in interplay.

The "Tesoro" lid preserves the volatile aromas within the glass. The wine does not develop more slowly, but the fragrance molecules, which normally vanish, can be perceived gradually or together - at your own discretion. Thus the little enjoyment helper enables a completely new wine experience.

VISION

The premium polishing cloth made of microfibre is scratch- and lint-free, which makes it excellently suited for polishing wine glasses and decanters. The polishing cloth is washable at up to 90 degrees celsius and ensures streak-free results. Please follow the care instructions.

Care instructions VISION:

To maintain the attractive appearance of the glasses for as long as possible, we recommend washing by hand. If you do use the dishwasher, we suggest the following:

- Select the shortest possible rinsing cycle at low temperatures, use a cleaning agent that is suitable for glasses, and ensure that the water hardness is between 4 and 6.
- Remove your glasses from the dishwasher as soon as the rinsing cycle is completed if possible.
- Polish your glasses with half-linen or microfibre towels for the best result. Cotton towels may leave small scratches and traces of lint.
- It is best to use 2 cloths for drying. This way you can polish the glass from the inside and outside at the same time. Please avoid to turn at the base, as this may cause the stem to brake.

Further information:
WWW.ZIEHER-VISION.COM

For series VISION, we recommend the CAMBRO – Camrack® Warewashing System

If you are interested or if there are any questions, please don´t hesitate to contact your Cambro representative.

Camrack® 4-in-1 Warewashing System

- Efficient washing
- Optimum sanitary storage
- Inventory control
- Safe, sanitary transportation

The Camrack® Warewashing System will protect your valuable stemware and tumblers not only during washing, but also during stacking, storage and transportation. This helps to avoid costs related to damaged glasses. Detailed information about the Camrack® Warewashing System is available at www.cambro.com

Camrack® Warewashing System

Cambro® offers a 4-in-1 system where glassware is washed, stored, identified and transported in one single unit. This multipurpose unit involves the Camdolly®, Camrack® compartment racks and the Camrack® cover.

Further information about "Doppio"

"Doppio" – how about a little extra?

In the "Doppio" decanter, wine is given a double stage that attracts attention and provides surprising effects.

The geometric silhouette and the reduced design directs the view to the inside, because the whole secret of this extraordinary design discloses in filled condition.

Attractive visual effects appear already during the pouring process when the wine is divided onto both levels of the "Doppio" decanter. It almost seems that the wine is levitating.

In addition to the natural flow of the wine, which pours over the inside of the decanter onto the two levels, the division into two levels also has a beneficial effect on the development of the wine. The splitting creates a significantly larger surface of the wine with a comparatively small space requirement on the table, which maximises the possible oxygen contact. The division also remains when pouring out, so that the cascaded flow creates a waterfall effect, which additionally increases aeration through swirling.

"Doppio" is elaborately handcrafted from high quality borosilicate glass, which is robust and easy to clean. The ideal charge of the decanter is 0.75 litre in order to generate maximum oxygen contact and the most beautiful optical effects.

Design: Itamar Harari

"Star" - mini

Uniqueness in practice

"Many decanters provide a fast but completely unbalanced development of wines because the wines develop only by a macro-oxidation on the surface. It's more balanced and harmonic to implement the necessary oxygen in a very soft and gentle way.

The filigree rays of the centric star animate the served wine to a very soft enhancement. During the slewing, the oxygen is mildly folded in and integrated into the wine. Thus the wine starts to develop on its own terms and not – as with other decanters – just on the surface.

The swirling of the wine is a fascinating view and helps in a three-dimensional development to harmonise the acid and to synchronise different levels of aroma.

By using borosilicate glass as raw material for this decanter, which sticks out by its extremely smooth surface, another highly pleasant effect is that the aromatic molecules aren't expelled from the wine but allowed to present themselves completely in the wine glass. The aerated wine becomes extremely balanced, carefully crafted and centered. An additional value which is simply priceless!"

Silvio Nitzsche, Sommelier

Cocktail: Spanish Stargazer

→ VISION Nostalgic | p. 201

The small "Star" - mini is particularly suitable for the decantation of open wines or small bottles. The ideal charge to provide a maximum of oxygen is 0.375 ltr. The reduced size allows to decant white wines and still to temper them in wine coolers. Also for dessert wines, the staging of innovative high-end cocktails, flavoured spirits, to the point of exotic juices – this unique product is the perfect solution.

"Star"

The art of decanting

The decanter "Star" synergises the aesthetics of a unique copy with the functionality of a professional tool for vinophile pleasure.

Based on products from glassblower Detlef Greiner-Perth and presented by Silvio Nitzsche, "Star" is possibly the most fascinating wine carafe in a long time, due to its exceptional design.

The individual star raises each carafe to an exceptional piece and forms a fascinating basis for discussions with interested guests. This artistically designed centerpiece becomes a unique element in a complex process due to numerous processing steps. This is pure luxury in our uniform world because not a single "Star" is like another.

Idea: Detlef Greiner-Perth

The big "Star" has a recessed grip in the bottom, which on the one hand improves the swirl during filling and slewing, on the other hand it ensures good handling and a secure hold when serving the wine.

The collar, which is included in the gift box, is made of matt black silicone and also allows an inclined positioning.

Follow us on YouTube: Making of "Star"

"Eddy" - mini

The small "Eddy" - mini is perfectly suitable for the decanting of wines by the glass and little bottles. Thereby the ideal charge to maximise the content of oxygen is 0.375 litre. The compact design is perfectly suitable to decant white wines first and then to temper in a wine cooler. By the extravagant character of this design item, even high-end cocktails and other exotic creations can be staged harmoniously.

The basic material for this development worker for wine is extremely robust, high-grade borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, is the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they create visually interesting colour reflections and graphic effects.

Further information about "Eddy"

"Eddy" – the wine development worker

→ Illuminated ring | p. 216

"The decanter "Eddy" defines the world of extreme wine instruments in a completely new way. Their functionality has seldom been united with an aesthetic language of design in such a spellbinding way. The matchlessly fast-paced development of structure, which all wines undergo in that respirator, is really fascinating! Once rotating in this texture stimulator, due to the thousand-fold swirls at the conical indentations, the wine goes through a process, whose behavior is equivalent to an oxidation reaction of several hours, within a few seconds."

Silvio Nitzsche - Sommelier

The volume of the big "Eddy" has been dimensioned in a way that, with a filling of up to 1.5 litre, the extension of the wines surface becomes as large as possible. Due to the flattened bottom, "Eddy" stands safely and straight, the ring, which is included in the gift box, is made of matt black silicone and also allows an inclined positioning.

“Pebble”

“Pebble” is made of high-grade, lead free crystal glass. The unfilled decanter inspires by the brilliance of the glass alone and the resulting light reflections.

These products are hand-blown with perfect craftsmanship. The sensitivity and longstanding experience of the glass blowers become apparent in particular in the creation of the bottom, which is extensively dimensioned and separated into three convex segments.

While filling the decanter the wine flows, due to the shaping of the neck, along the complete inside area, which maximises the surface of the wine and thus contributes to the aeration. The three swales at the bottom serve to further swirl the poured wine, which results in a gentle but nevertheless very effective aeration. This effect can be intensified by warily swinging the filled decanter.

The diagonal cut of the neck and the accurate polishing of the raw edges minimise the formation of drops while pouring out.

Design: Itamar Harari

Decanter
accessories

This base ring for the "Eddy" (item 4883) and "Star" (item 4947) decanters offers the chance to stage served wine by the means of illumination.

The rechargeable Zieher LED-light (item 8150) fits exactly into the cavity at the bottom part of the ring and thus puts the served wine inside the decanter into the limelight in a fascinating way. In the beginning, the illumination effect in the filled decanter can be very unobtrusive when serving strongly pigmented red wine. But at a decreasing level, the play of light and colours becomes more and more intense in an exciting way.

These accessories are also suitable to illuminate glass bowls and -platters. In combination with the ring, the LED-light and remote control still maintain their known options, such as adjustable brightness, 7 different colours and various colour-changing functions. Detailed information about the Zieher rechargeable LED-light can be found on page 60.

All components (ring, light, remote control and charger) are available either as single parts or as a set in a gift box.

Detailed description rechargeable LED-light

Please note:

The chargers in the gift box are equipped with a EU plug, chargers with US resp. UK plugs are available upon request.

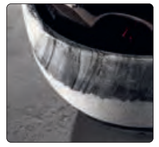
Carved in stone

On hot days, decanting wine while keeping it at the optimal drinking temperature can be quite a challenge. The decanter cooler "On The Rocks" offers an innovative and highly aesthetic solution for this situation.

"On The Rocks" has been exclusively designed for Zieher decanters "Eddy" (item 4883) and "Star" (item 4947). The selected grey marble is captivating due to the diverse patterns of its marbling. Each piece is unique and offers the opportunity to decant and simultaneously chill white, rosé and red wines in a stylish manner.



The top part of the cooler is stored in the freezer, while the matching base remains unchilled. It captures the condensation that forms on the frosted top part during use, ensuring that the table remains dry and free from unwanted water stains. The frozen shell ensures that the wine maintains the desired drinking temperature for longer on hot days. Two silicone rings, included in the set (8059.PB), dampen noise and protect the decanters when inserted into the cooler.

With "On The Rocks", chilled dishes can also be presented and served on ice in an exceptional way. From oysters or a small serving of caviar to a selection of delightful pralines, the possibilities are virtually limitless (page 183).

1 set in black gift box

item	Ø / height in cm	content in l	PU
8059.PB	approx. 20.5/11.0	approx. 1.4	1 set (4 parts)

Please note:

"On The Rocks" is suitable for Zieher decanters "Eddy" (4883) and "Star" (4947).

Marble is a natural product and the grey marbling can vary significantly, creating a lively and exceptional effect for this natural stone.

Certain foods, especially those containing fruit acids (citric acid), can potentially affect the surface with prolonged contact. Therefore we recommend avoiding direct contact with food. Please clean with a damp cloth and mild cleaning agents only. Not dishwasher-safe.

Care instructions decanters:

Most of these carafes have microscopically seen a rough surface, which left-overs of the wine might adhere to and cause an unattractive appearance of the decanters. Our decanters have the advantage of being made of particularly high-quality laboratory glass, which is extremely smooth and repellent. In case of traces, these can easily be removed by using a mixture of citric acid and water. After a 2 hours residence time, the problem should be solved. The optionally available drying racks made of stainless steel, facilitate the drying of the decanters after rinsing.

item	Ø top/bottom in cm	height in cm	PU
B014.20PB	15.0/23.0	20.0	1 pc

Suitable for the Zieher decanters "Doppio", "Star", "Eddy" and "Pebble". Also suitable for the presentation of the decanter "Star".

Creating a useful tool with a high demand on aesthetics – this was the idea during the development of "DryPod". The solid rack made of brushed stainless steel, PVD refined in either black or brass coloured, forms the basis for this shapely product. An accurately fitting drip tray, made of translucent resin, is placed inside the rack and harmonises with its anthracite colouration with both variants.

Primarily "DryPod" is a drying rack for decanters. The geometry was chosen in a way that all Zieher decanters can be placed safely. Besides the big variations of "Eddy", "Star", "Doppio" a.s.o., it can also take hold of the smaller versions of some types as well as many other decanters in classical format. The drip tray securely collects dripping water and can be easily removed for cleaning.

Even after drying, all decanters are well stored in "DryPod". No matter if in a showcase or on the shelf, the decanter is stylishly presented by the precious display. Here, the downward-pointing opening helps prevent dirt from getting in easily.

Besides its actual determination, "DryPod" is temping by its versatility. As an etagere on the laid table or in the hotel room, the item can be equipped with numerous other Zieher articles and thus presents food and delicacies in an impressive way.

Please find a selection of fitting combinations as well as further inspirations on pages 269 and 308.

"Mikado" – cool staging!

The bottle cooler "Mikado" is made of solid stainless steel and high gloss polished. Due to its weight and the generously dimensioned floor area, the solid frame has the required stability to offer the matching cooler made of hand-blown glass a secure hold.

Additional silicone rings on the upper side of the rods treat the glass body with care and avoid disturbing noises.

A very special highlight creates the optionally available waterproof LED-light, which can be placed right inside the cooler. Multiple colours and functions can be adjusted by a remote control, an optionally available supporting ring keeps the light in position. All information about the LED-light can be found on page 60.

The glass insert of the "Mikado" bottle cooler can also be used as cloche. The reinforced quality, which is indispensable for the use as a cooler, brings, besides the slightly higher weight, also an obviously improved stability. The integrated ball grip at the top provides an easy handling when used as a cloche (page 190).

Design: Itamar Harari

THE BAR COLLECTION

"The Knobbed" plays with its content, because the attached knobs imitate the bubbles of carbonic acid in an amusing way. Interesting contradictions to the actual content can be taken to extremes here.

"The Vikings" are vaguely reminiscent of the headgear of ancient Vikings. They offer a large, clear chalice on satined feet, in which strong cocktails can be staged transparently. The variant with two feet surprises with its tilted position, while the three-foot variant appears stable and yet almost floating.

"The Pill" allows for many associations: The risks and side effects of the drinks served in these glasses range from the feeling of well-being after consuming various healthy drinks to the intoxicating effects of high-proof cocktail creations.

For drinks with character

THE BAR COLLECTION by Zieher enriches the bar scene with new characters which are predestined for independent creations beyond the cocktail mainstream. Each jar playfully and humorously picks up on a different theme and thus exudes a good portion of humor in its own way.

Made of particularly break-proof and temperature-resistant borosilicate glass, all glasses not only offer an extravagant outer shell, but with a capacity of up to 500 ml, also provide plenty of space for extraordinary experiments and countless recipes.

Despite their differences, all glasses are easy to combine and create possibilities that go far beyond serving a drink. Besides the taste, a haptic and visual experience is generated as well, which fulfils the basis of modern cocktail staging.

→ Buffet display "Edge" | p. 17

Perfectly protected, stylishly presented!

The simple bottles made of coloured borosilicate glass are not only a visual highlight, but also extremely functional. With a capacity of 0.4 to 1.0 litres, they are perfect as elegant dispensers for muesli, cereals or even dried fruit and nuts on the buffet. A loose cork ball reliably protects the contents from contamination, while the green or grey tinted glass shields the contents from harmful sunlight.

The smallest version made of green borosilicate glass is ideal as a nut chute or for nibbles at the bar, while the two larger models in grey-tinted glass are perfect for cereals, muesli mixes or other supplies.

The thin yet extremely robust borosilicate glass is very sturdy, lightweight and particularly resistant to rapid temperature changes – properties that make it valuable for use in the catering trade as well as in everyday life.

"The Stripes"

"The Stripes" are characterised by a puristic design: The filigree groove embossing on the outside and the grey-tinted interior lend these glasses an elegant simplicity. The floating effect of the drink is skilfully emphasised.

"The Diamonds" and "The Stripes" – coloured thermo glasses with texture

The double-walled glasses made of high-quality borosilicate glass skilfully set the scene for both hot and chilled drinks. The insulating vacuum between the glass walls ensures that drinks stay at the ideal temperature for longer. These special glasses impress with the pleasant feel of their decorative outer sides and the subtle yet refreshing colours on the inside.

→ Glass tray | p. 174

"The Diamonds"

With their diamond-shaped embossing, "The Diamonds" are reminiscent of the artistic facets of crystal glasses. Despite their delicate appearance, the thin but sturdy borosilicate glass impresses with its low weight and exceptional robustness. Like "The Stripes", these glasses are double-walled and the inner glass shimmers in an elegant green, creating a stylish accent.

Both glasses – "The Stripes" and "The Diamonds" – are available in 250 ml and 350 ml sizes and offer a wide range of uses. They are perfect for presenting soft drinks, cocktails, coffee specialities or even small dishes and desserts in an appealing way.

The dash bottle "Eddy - Dash!" for dosing bitter or sour ingredients is, alongside the glasses, an important part of THE BAR COLLECTION. A fitting squirt dispenser comes with every bottle. This vessel is formally based on the well-known "Eddy" wine decanters from Zieher and, in addition to being used as a dash bottle, also enables further uses. Thus for example, a "cocktail from the bottle" can be served in these vessels, the inwardly directed swirling bodies allow the ingredients to be mixed right before the drink is enjoyed.

The smallest "Eddy" can also be used in the restaurant. For this purpose, Zieher offers suitable cruets as well as matching bottle pourers with hygienic sealing caps, which allow the "Eddy - Dash!" to be used as an oil or vinegar bottle.

Miniatures

→ Item 2311 | p. 90

Showpieces of table culture

Large numbers of single parts are cast from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork.

The small presentation baskets can be equipped with miniatures made of clear or coloured glass and give your food a stunning stage.

Borosilicate glass in its most beautiful shape

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes.

The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

→ Big cloche "Cuspis" 4940.25 | p. 162

Please note:

Since all glasses of this series are handblown, deviations from the declared capacity may occur.

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features.

The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The insulating effect keeps cold liquids cold and warm ones warm for longer.

The thin yet extremely robust borosilicate glass is very sturdy, lightweight and particularly resistant to rapid temperature changes – properties that make it valuable for use in the catering trade as well as in everyday life.

No sliding, no clattering – non-slip solutions from Zieher!

The coasters made of food-safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are therefore a thing of the past.

The white, skid-proof discs with their delicately structured, matt surface facilitate the service work and ensure undisturbed enjoyment for the guest.

A ring and a test tube holder made of black silicone provide a stable base for numerous small bowls and miniatures.

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight, this porcelain piece only partly reveals its interior.

"Cave" consists of intricately worked hard porcelain and captures by its soft shaping and the velvety haptics of the unglazed outside. "Cave" is predestined for the use at standing receptions and flying buffets. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

Design: Wilma Greim

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With the two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

Please note:

Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

These slate plates are unsealed. In order to give them an evenly dark grey colour and to freshen up the surface, we recommend rubbing the plates with some vegetable oil from time to time.

Slate is a unique and exceptional natural product. The surfaces of our slate platters have the typical slaty cleavages, therefore every piece is unique. Small deviations in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance.

Cruet stands, trays, etageres

2401+8272.01+8273.01

→ Ceramic series "Bosque" | p. 158
→ Bar glasses "The Stripes" | p. 224

"The Pantry" is made of solid ash wood sealed with high-quality oils and combined with powder-coated metal. The finely textured surface of the white coating is extremely robust and harmonises very well with the warm colour of the oiled ash wood.

Originally designed as a buffet system for the attractive presentation of bread and pastries at breakfast in hotels, "The Pantry" offers much more than that.

"The Pantry" also unfolds its flexibility away from the classic buffet area and offers numerous application possibilities for catering to guests. The slim, coated steel tray is ideal for service and can also be used in hotel rooms. Equipped with a box and/or matching inserts as a serving platter or chopping board, it creates a stylish setting for small snacks or an extensive breakfast in the hotel room.

"The Pantry" combines high functionality with aesthetic design and is a sophisticated and attractive solution not only in the buffet area, but also in room service.

You can find more information on the versatile applications of this system on pages 12 to 16.

ⓘ Item 8272.01 suitable for tray 2401

tray/backwall "The Pantry"
steel, matt white (powder-coated), not dishwasher-safe, as serving tray or for placement between 2 side parts 8270

item	l x w x h in cm	PU
2401	72.1x20.4x2.5	2 pcs

Please note:

All ash wood items are oiled. This protects and seals the solid wood and gives it a warm appearance. At the same time, sealing with oil makes it easy to refresh the surface due to slight wear and tear from daily use. They can be rubbed thinly with a vegetable oil or a care oil for solid wood kitchen worktops from time to time.

Wooden items are not dishwasher-safe. Please follow the enclosed care instructions...

The sleek ash wood boxes are available in two sizes and offer not only a wide range of uses within the system, but can also be used independently on the buffet. Stacked freely on top of each other or staggered, they can be used to create appealing "food islands" that stylishly showcase specialities and small delicacies.

Like all wooden parts of "The Pantry", the boxes are made of solid ash wood and are impressively sturdy. Particularly noteworthy is the decorative corner joint, which not only gives the boxes stability, but also adds a special aesthetic touch. This combination of functionality and timeless design makes the ash wood boxes a flexible and elegant element for any buffet.

“Bento Box” – flexible mobility

Please note:

Items made of melamine are not to be used for cooking in microwave and combi steam oven!

Cleaning in the dishwasher is possible up to a maximum water temperature of 70 degrees Celcius.

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The “Bento Box” from Zieher has been designed especially for these requirements – all components are stackable. This way, a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time, is guaranteed.

The versatility of the individual components also becomes evident in the cover. This lid can also be used as a tray, whose lightly textured inside has an anti-slip effect.

All information about the “Bento Box” can be found on page 147.

Breakfast in bed – inroom dining!

The room service tray as well as the bed tray stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray.

The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, comfortable sitting beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

This service tray with integrated separation is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 287. The trays are equipped with integrated grip holes and are stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in daily use.

Please note the enclosed care instructions: The products are not dishwasher-safe, do not immerse in water!

cutlery/napkin box "Solid"

walnut, food-safe sealed, not dishwasher-safe, with rubber feet in the lid (soft closure, can be opened to an angle of 90° only), with black felt insert, stainless steel platter with space for an engraving (price and quantity upon request), height with open lid: 15.5 cm

Instagram: marco.dandrea.pastry

Finest creations of the pâtisserie have to be presented in a worthy frame!

Marco D'Andrea:

"The round deepenings in this presenting box are specifically matched, that even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look.

The tinted glass reveals the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours."

The idea and design for these presentation boxes "Solid" for truffles and filled chocolates are from Marco D'Andrea, "Junger Wilder 2012" and proclaimed "Pâtissier of the year 2014" during the "Leaders of the Year Award" convention (powered by ROLLING PIN). His first cookbook "Modern TeaTime" was published by Südwest Verlag in autumn 2021.

Further awards:

"Pâtissier of the year 2019" – Rolling Pin
"Pâtissier of the year 2020" – Gault Millau
"Pâtisserie team of the year 2020" – Schlemmer Atlas

Delicacies in delicate settings!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. The lid made of tinted glass, which is also available, sets the scene for what is being presented.

“Solid” – Enjoyment in a pentagon

This elegant serving platter impresses with its extraordinary shape and stylish combination of oiled walnut wood and slate coloured ceramic.

As a serving tray, it can be used to present individual courses or mixed arrangements – so-called “sharing plates” – in an attractive way. The pentagonal design allows for numerous arrangements and thus enables effective organisation of the available space.

The protruding handle allows for easy removal of the insert which enables easy cleaning of the thin, yet very robust ceramic.

Serving platters made of walnut

“Connect!”

Please note the care instructions: not dishwasher-safe, do not immerse in water!

“Connect!” convinces as an extremely versatile tool such as a snack board, serving or cutting board, or as a presentation platter created by the combination of several elements.

The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Matching cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high quality oils, which makes it easy to freshen up the surface from traces of everyday wear and tear.

The "Fleur Déco" series embodies the true essence of luxury combined with elegance, while simultaneously paying homage to the art of artisanal craftsmanship.

It is the perfect choice for discerning hosts who value exceptional quality and design and and who place a high emphasis on both the taste and presentation of their culinary creations.

"Fleur Déco" is entirely crafted from brass and includes a three-tiered etagere for plates and platters, a serving platter and a floral-designed buffet tree. You can find all the information about the series on pages 104 to 105.

Floral elegance for the table setting

Bamboo is associated with Far Eastern flair and elegance. The popularity of this delicate plant has been unbroken for years and is much more than just a fashion trend. In the "Bosco" basket made of solid brass, the bamboo branches are stylishly arranged and given shape with fine details.

The matching stainless steel bowls are available in two sizes.

→ Brass baskets "Covo" | p. 72

Forest ambiance as a culinary setting

Ferns are symbolic of mysticism and the mysterious.

The "Fronda" displays are reminiscent of the leaves of these plants and, like "Bosco", are cast from brass. The delicate design of these objects is an eye-catcher on any table and forms an impressive base for the presentation of culinary specialities.

"Fronda" is available in three different sizes and the matching inserts are also available individually.

Please note:

The displays and baskets of the "Fronda" and "Bosco" series are made of solid brass and are therefore only suitable for cold and dry food when used without the stainless steel bowls. Do not clean in the dishwasher!

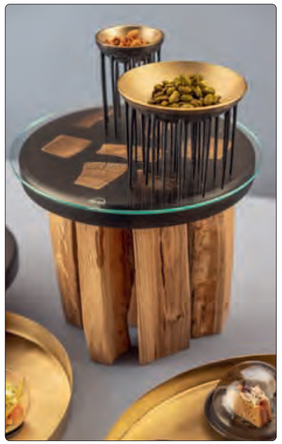
"Fakir"



→ "Stomp!" | p. 28

Please note:

Brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

Primarily, "DryPod" is a dry rack for decanters.

The solid structure made of brushed stainless steel, refined in either black or brass colour, forms the basis for this shapely product.

Also besides its actual determination, "DryPod" is tempting by its versatility. As an etagere on the laid table or in the hotel room, the rack can be equipped with numerous other Zieher articles and thus presents food and delicacies in an impressive way.

Please find all information about "DryPod" on page 219.

Etagere “DressCoat”

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Black silicone rings keep inserted porcelain in position and prevent annoying noises.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plates of the “DressCoat” series. In connection with the almost invisible tier stand, the plateau plates appear amazingly airy and playful by their floating look-and-feel. Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with “DressCoat” or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All information about this etagere is available on page 124.

Please note:

Suitable plates are available from page 164. We recommend the use of large plates on the lower level only.

Floral shapes in a steely gloss

Two etageres as well as plateau plates in different heights (page 246) allow a visually harmonious yet flexible and diversified presentation of appetizers, fingerfoods or desserts. The ice cream/sorbet cups and petit-fours stands make a nice complement and individually stage petit fours and more.

The formal base for all products is a slightly arched and kidney-shaped miniature plate. On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice, even as a stylish storage dish for different types of fruit or accessories of daily use.

Tempting variety on the buffet

For the presentation of filigree delicacies in the smallest of spaces, the "Table-Trees" offer numerous possibilities for a stylish staging.

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower. The "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Each delicacy is held securely by an artfully shaped spiral that prevents slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss. The solid base forms the basis of these filigree products and ensures a secure stand.

ⓘ Anti-slip-pads for "Flex-Tree"

A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies.

The "Flex-Tree" enthuses by its versatility! It can be equipped with various miniatures. You can find a small selection and all information about these etageres on page 106.

The leaves shape of the "Flower-Tree" is based on the already existing "Flower-Tower" etageres and plateau plates (page 109 and 110). Especially on the buffet, this opens up the option to arrange installations diversified but yet harmonious and variable.

Elegantly served and presented in style – classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three levels and in two sizes. The mini format etageres effectively present petit fours, chocolates or other delicacies.

The larger version is ideal for scones and jam during Five o'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table.

Really uplifted!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet and on the table. A single one can bear up to three plates on its wings or, when used as a duo, also fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters. As a high-tea stand, the etagere carries plain white coup plates, which fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service.

Candle holders, wind lights

"Reef"

Please note:

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

The wind light fascinates with the reflections of light and the dancing shadows. A removable cylinder made of heat resistant glass protects the flame from wind and thus allows the usage in the garden and on the terrace.

Since medieval times, pewter has been used for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then, the usage of pewter has focused mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

"Somnia"

With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

The filigree rods are made of brass and manufactured piece by piece in traditional sand casting. Afterwards they are soldered onto a solid baseplate with an elevated rim. This baseplate avoids the leakage of wax and protects the table surface from the heat.

Additionally, it forms the frame for a removable cylinder made of heat resistant glass, which by way of its satined surface, intensifies the mood of the light and protects the flame from wind at the same time.

Please note:

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

4700.01	15.3/2.0	9.3

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 287.

The trays are equipped with integrated grip holes and are stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

Please note:

The trays 4707 and 4769 are not suitable for the tray stand item 4748 (p. 297).

4707 + 1668.03

4707	53.0x37.0x4.0	50.2x34.2

4748+4735

The room service tray (4735) as well as the "Solid" bed tray (4773) stand out due to the recessed longside, which enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable seating beneath the tray is guaranteed.

The tray stand always provides the appropriate possibility to set up the "Solid" room service tray (4735) in the hotel room, but also in the restaurant. Rubber feet on the top prevent the shifting of platters and trays, felt gliders at the base protect the parquet flooring and ensure safe standing.

All information can be found on page 143.

tray stand/side table "Solid"

walnut, with black nylon ribbons, anti-slip rubber feet on top and felt gliders at the bottom, for trays and buffet platters in sizes starting from 55 cm x 36 cm, 102 cm high (folded up), 87 cm high (opened)

item	l x w x h in cm (opened)
4748	54.5x36.0x87.0

The rubber feet at the base are set back from the rim to enable the transport on a tray trolley in 1/1 EN-format (60 cm x 40 cm).

Delicacies in delicate setting!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material.

Apart from an insert with round cavities for nine truffles/ chocolates and a flat plate which can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc.

The glass lid made of grey-tinted glass, which is also available, impressively sets the scene for what is being presented.

Please note:

Wooden items are not dishwasher-safe, do not immerse in water!

"The Pantry"

The elegant, matt white coated steel tray from "The Pantry" buffet system is not only ideal for service, but also a perfect addition to hotel rooms. Equipped with a box and/or matching inserts, it can be used as a serving platter or chopping board and provides a stylish setting for small snacks or a hearty breakfast.

"The Pantry" combines high functionality with aesthetic design and represents a well thought-out and attractive solution – both in the buffet area and in room service. Further information on this system can be found on pages 12–16 and 250/251.

Please note:

All ash wood elements of "The Pantry" system are oiled. This protects and seals the solid wood and gives it a warm appearance. At the same time, sealing with oil makes it easy to refresh the surface due to slight wear and tear in daily use. It can be rubbed from time to time thinly with vegetable oil or care oil for solid wood kitchen worktops.

Wooden items are not dishwasher-safe. Please follow the enclosed care instructions.

Item 8272.01 suitable for tray 2401

“Fleur Déco”

A Tribute to the Beauty of Nature

“Fleur Déco” is entirely made of brass and includes a three-tiered etagere for plates and platters, a serving platter and a buffet tree with a floral design.

Each component of these unique pieces is cast from brass and meticulously finished to achieve the perfect balance between golden and dark patinated areas. Each blossom, each branch is carefully assembled with loving craftsmanship to create a harmonious and floral appearance that seamlessly blends natural beauty with functionality.

You can find all the information about the series on pages 103 to 105.

Please note:

All items of the „Fleur Déco” series are food-safe, allowing for the direct placement of cold and dry foods on the etageres. For other purposes Zieher offers a wide selection of bowls as well as matching plates and dishes. Do not clean in the dishwasher.

“Orea” & “Orbis”

NEW

Bowls and trays made of solid brass impress with the matt gold colour of this noble material. The patina of brass, which develops over time and with use, exudes a very special charm and makes each piece unique.

You can find all the information about “Orea” & “Orbis” on pages 78/79.

NEW

Please note:

Brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

→ “Bosque” | p. 158

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

The bowls "Roots", a tight web of rootlike structures, and "Matrix", strictly geometrically constructed of hexagons, are entirely different in their shape but nevertheless belong together. This aspect makes the combination of the two so interesting.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

→ "Fakir" | p. 76

Please note:

The items made of brass are suitable for cold/dry food only, not dishwasher-safe.

Etagere "DressCoat"

We recommend the use of large plates on the lower level only.

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" or other tableware, small snacks, a selection of fruits or a sweet welcoming treat can be staged in an appealing way. All information about this etagere is available on page 124.

Extraordinary storage places for extravagant guestrooms!

The organic forms of these extraordinary objects offer an ideal presentation area for high-end dishes or to keep various items of everyday life.

"DryPod"

Primarily, "DryPod" is a dry rack for decanters.

The solid structure made of brushed stainless steel, refined in either black or brass colour, forms the basis for this shapely product.

Also besides its actual determination, "DryPod" is temping by its versatility. As an etagere on the laid table or in the hotel room, the rack can be equipped with numerous other Zieher articles and thus presents food and delicacies in an impressive way.

Please find all information about "DryPod" on page 219.

Zieher – somewhat different!

The Buffet systems by Zieher were developed to put the most exquisite products into the limelight in a very effective and diversified way. The section "displays" shows that they are not limited to the use with food. High-class jewellery and watches, as well as other kinds of luxury goods find a representative stage with the Zieher display systems. The discreet and classy design does not push for attention, but offers a unique and distinctive means of presentation that puts the product at the centre of attention.

Making precious materials more precious – whether it is glass, china ...

"platin"

"gold"

"bronze"

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage.

Since the coatings are made of precious metals, the use in microwaves is not recommended under any circumstances.

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

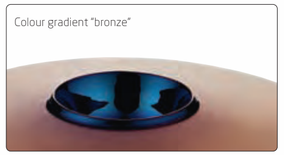
In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result, the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys, we obtain a connection to the varnish, which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the decor. Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones, which blend into each other and create unique effects. Specific patterns/orders are usually executed quickly.

Please do not hesitate to send us your special request.

Satin-coated logos applied before the refinement still remain visible!



Colour gradient "bronze"

Individuality in glass ...

For designs on double-walled glasses, it is possible to apply the print on the outside of the inner glass. In this way, the print is fully protected against abrasion and wear.

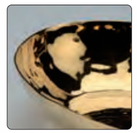
... melamine ...

... china ...

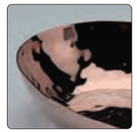
... and stainless steel!

... or stainless steel – nearly everything is possible!

stainless steel, polished



golden



copper

black

Stainless steel refinement through PVD-technology

Highly polished and matt stainless steel can be refined by using PVD-technology to obtain golden, copper and black colouring.

PVD stands for **P**hysical **V**apour **D**eposition and describes a method to coat products with different materials by way of sputtering in a vacuum. Contrary to the galvanic refinement, for example with copper, items refined by using PVD-technology will neither oxidise nor tarnish at the surface. Thus any copper refinement can be done without applying specific anti-tarnish protection. The technical feasibility of PVD-refinement depends on size and shape of the items and has to be checked individually.

Price, minimum order quantity and delivery time upon request!

Advantages of the PVD-coating:

- Food-safe
- Dishwasher-safe
- Better strenght and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

We will be delighted to advise you!

Powder-coating:

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to the PVD refining, this coating is not dishwasher-safe.

ZIEHER excellence since 1986

a success story with a future

Extravagance designed by Zieher

Since 2006

The first Zieher designed products were released in 2006. Individual creations in the luxury segment emerged from the close cooperation with renowned chefs and the inspiration by their artistry. Besides the cooperation with well-known Designers such as Itamar Harari for instance, many products bear the signature of Oliver Zieher. In 2009, "Skyline" – a benchmark for extremely flexible buffet systems – has been developed.

Since 2014, Zieher presents its newly designed showroom in Himmelkron near Bayreuth, right at the motorway to Berlin.

Founding years and establishment as gastronomic partner

1986 - 2005

The company was founded in 1986 by Manfred Zieher and his wife Christa. Classic catering products were offered under the name MAC, which were soon presented in their own catalogues and at trade fairs.

The company, which increasingly established itself as partner of gastronomy specialised shops, was given the name ZIEHER in 1994. The prominent brand logo was registered in 2004 as a word and figurative mark.

Zieher for Wine Lovers

Since 2015

The cornerstone for a collection for ambitious wine lovers was laid in 2015 with the VISION series. These unique wine glasses have been developed together with sommelier Silvio Nitzsche as a counterpart to the previously common red and white wine glasses. As of 2017, the range has been extended with extraordinary decanters such as "Eddy" and "Star", and supplemented by further functional wine accessories such as "Tesoro". The exclusive FOR WINE LOVERS collection is also available to end customers through high-quality specialist retailers.

Silvio Nitzsche

Zieher today

In 2026, Zieher is present in 5-star-hotels and top restaurants in more than 100 countries and appreciates the long-lasting, often amicable relationship with clients, partners and suppliers.

40 YEARS OF EXCELLENCE

The success story continues

Generational change 2021

Zieher is increasingly focusing on its strengths and is positioning itself with a streamlined range as an extravagant design manufacturer for luxury food presentation and wine glasses. In 2021, the generational change has been carried out and the company has been handed over to the children Dominik Zieher, Jennifer Hübsch and Oliver Zieher (ltr).

Manfred and Christa Zieher receive the Lifetime Achievement Award from the renowned industry magazine TableWare International for their life's work.

FOR WINE LOVERS

ZIEHER

The **VISION** of simplicity

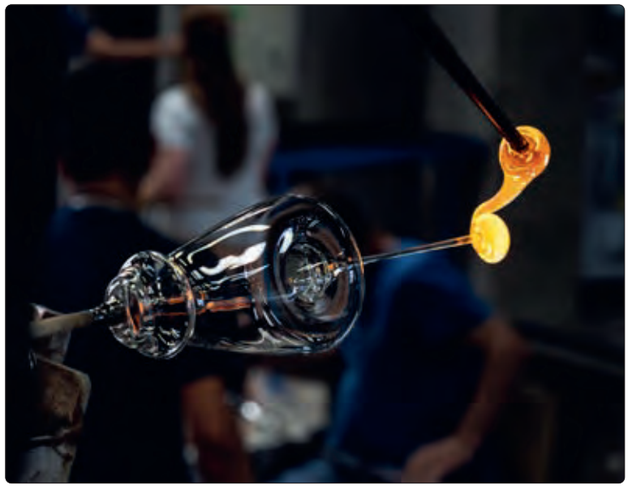
No distinction is made between red wine or white wine glasses in this collection, the glasses are simply theme- or character-based. The names of the glasses FRESH, STRAIGHT, INTENSE, BALANCED, RICH, NOSTALGIC and SIDE clearly explain what they are used for. You intuitively reach for the glass, which in the best way presents the flavours of the wine that you particularly wish to emphasise. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation, that mirrors your requirement best.

For further information about the VISION series, philosophy and a far-reaching analysis of the sommelier Silvio Nitzsche, please visit **www.zieher-selection.com/en/vision**

VISION – The taste experience!

SIDE NOSTALGIC RICH STRAIGHT FRESH BALANCED INTENSE

Skilfully handblown



Filigree craftsmanship meets innovative design

Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass blowing workshops in the world. The glasses are manufactured of lead-free crystalline glass, using a traditional glass-blowing method. Each glass is unique and has been created by a glass blower with artistry and dedication.

Functional design for maximum presence of aroma

The VISION range is guaranteed to provide a highly sophisticated and fascinating design, accompanied by a unique aesthetic perception. The shape of the chalices and waveform of the bottom enable a maximum presence of aroma and optimum development of the wine.

Unique light refraction

The VISION series provides perfect wine enjoyment: intuitive, uncomplicated and always in accordance with your own desires. However, it is particularly the fascination of the light, the colours, the refraction and the visual depth, that make it impossible to tear your eyes away from the glass, because: You have never seen wine like this before!

Filigree craftsmanship

The wave which releases a wine's full potential

The shape of the bottom of the glass bowl increases the surface area so that the wine is aerated more easily and is able to open up faster. The wave creates a dynamic that intensifies the sensory perception of taste and aroma and transforms the enjoyment of wine into a truly sensual experience.

"Thanks to the oxygen integration, the wine is stabilised, its aromas are enhanced and harmonised and even the most challenging of wines appears perfectly balanced."

Silvio Nitzsche, Sommelier

VISION – The taste experience!

wine glasses VISION

content approx. 340 ml
diameter 8 cm
height 24 cm

№ 5480.01
PU 2 pieces
EAN 4023174211535

№ 5480.01-1
PU 1 piece
EAN 4023174301892

FRESH

For extremely fresh white wines, Prosecco or any variety of sparkling and light rosé wines; with effervescent point

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides the palate with a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, fresh acidic structures is encouraged and individual features of the bouquet are brought into focus. The effervescent point at the bottom of the goblet creates a fine string of rising carbon dioxide bubbles in sparkling wine.

content approx. 540 ml
diameter 9 cm
height 27 cm

№ 5480.02
PU 2 pieces
EAN 4023174211542

№ 5480.02-1
PU 1 piece
EAN 4023174301922

STRAIGHT

For pure grape varieties and fruity / aromatic red and white wine

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aromatic culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

content approx. 640 ml
diameter 10.5 cm
height 28 cm

№ 5480.03
PU 2 pieces
EAN 4023174211559

№ 5480.03-1
PU 1 piece
EAN 4023174301908

INTENSE

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wine

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

content approx. 850 ml
diameter 12 cm
height 25 cm

№ 5480.04
PU 2 pieces
EAN 4023174211566

№ 5480.04-1
PU 1 piece
EAN 4023174301915

BALANCED

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagne

A perfect glass for wine that is not for decanting because of its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

content approx. 280 ml
diameter 7 cm
height 23 cm

№ 5480.05
PU 2 pieces
EAN 4023174211573

RICH

For fortified, sweet and dessert wines and any type of distilled beverage

A glass for the majority of heavyweight or high-proof drinks. The small presentation surface ensures that the wine or brandy does not become overly concentrated, so that the heavyweight aromatic elements are released in a nuanced way. Due to the glass having a narrow opening, the nose cannot go in very far, which prevents the perceiving mucous membranes from receiving a barrage of alcohol.

content approx. 250 ml
diameter 10.5 cm
height 16.5 cm

№ 5480.06
PU 2 pieces
EAN 4023174211580

NOSTALGIC

For cocktails or as a food glass

The wide chalice is perfect for stylish presentations of creative cocktails, spectacular hors d'oeuvres or sophisticated sweets. In combination with SIDE ideal for plain water, for easy service distinguishing both types of water.

content approx. 480 ml
diameter 9 cm
height 10.5 cm

№ 5480.07
PU 2 pieces
EAN 4023174301885

SIDE

For carbonated mineral water and soft drinks

Complementing the wine glass series, this glass is the tasteful companion for a stylish presentation of carbonated mineral water and soft drinks. The carbon dioxide is harmonised and the acids and mineral elements of fine sources are delivered to the tongue and the palate in a refreshing way, without being intrusive.

“Of course, there is life without wine, but who wants that?”

Silvio Nitzsche, Sommelier

For more than 30 years, Silvio Nitzsche has looked after both the guests and the wine as a sommelier, amongst others in some of the best Michelin-starred restaurants.

Some of his high-profile positions have been:

- Sommelier at “Dieter Müller Restaurant” (19,5 GM, *** Michelin), Bergisch Gladbach/GER
- Sommelier at “Erna’s Elderberry House”, Oakhurst/CA, USA
- Assistant Restaurant Manager and Sommelier at “Speisemeisterei” restaurant (18 GM, ** Michelin), Stuttgart/GER
- Management of the wine retail and wholesale company KierdorfWein

In 2007, the sommelier found a new home in Dresden. Opening the WEIN | KULTUR | BAR he and his team managed to establish one of the best wine bars in Europe in the wine consciousness of many. He has succeeded in creating a place where wine is a given. It is not for nothing that he has already won the “Best Wine List of the Year” award six times.

The WEIN | KULTUR | BAR is listed in Gault & Millau guide and is quoted by Falstaff BARGUIDE 2024 as Germany´s best wine bar. The NZZ named the wine bar the best wine bar in Europe in 2024.

Early 2024 Silvio Nitzsche handed over his wine bar to a former employee , who is continuing to run it with great success. Since the beginning of 2024, he has successfully dedicated himself to the podcast project “SOMMELIER”, in which he invites Germany’s most interesting sommeliers to a dialogue.

In his professional life, the sommelier has received numerous awards for his work and for his company. Silvio Nitzsche has been voted one of the ten best sommeliers in Germany several times by “Der Feinschmecker” magazine and received the “Award of Honour” in 2019. For well over ten years, he has been consistently listed in the top 50 listings of the best German sommeliers by Rolling Pin and Busche Verlag/Aral Schlemmer Atlas. Most recently, he was named “Sommelier of the Year” by Falstaff magazine.

Silvio Nitzsche tastes wines for the “Vinum Wineguide” and for the “Weinwisser” magazine, where he is responsible for the Saale-Unstrut region.

Votes by wine experts

“Zieher glasses open new facets and show wine in a completely different way.”

Christian Müller, winery Max Müller I
Volkach, Germany

“Zieher glasses manage to enhance the wine with an elegance and delicacy that is unmatched”

Emanuele Trono, @enoblogger, Italy

“With each sip, I understand a little more that this glass is not just a support, but a tool that sculpts the experience.”

Yoann Palej, Journalist,
@yoannpalej, France

„It is most impressive how wine-friendly the Zieher glasses are. They make tasting and drinking wine a real pleasure.“

Alison Flemming, MW, Germany
www.tastebyflemming.de

“In my restaurant, guests often ask me about our Zieher Vision glasses. Not considering the perfect presentation of wines in a gastronomic setting would leave the culinary experience incomplete.”

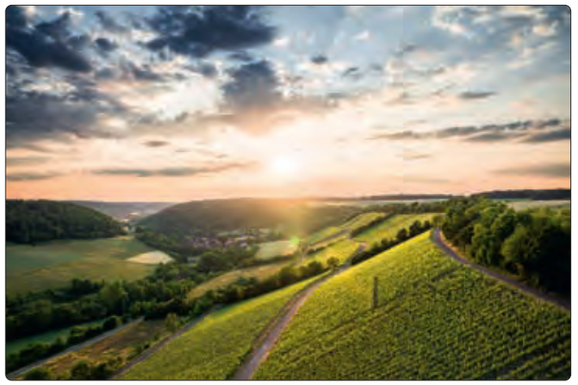
Christian Stahl
Michelin-starred chef and winemaker,
@christianl.stahl, Germany

“The world´s best wines, served in a Zieher glass, are the perfection of my menus!”

Christian Senff, @naminewitt
Föhr, Nieblum, Germany

”Zieher challenges and encourages us like no other glass manufacturer in our approach to our own work. The perfect glasses accompany us from the wine-making process in the cellar to the precise preparation of culinary compositions in the restaurant. We are united by our uncompromising commitment to quality for the finished product. For me, this is a strong and unrivalled partnership in the exciting world of wine, cuisine, enjoyment and table culture.”

Christian Stahl
Winemaker & Michelin-starred chef



“Partners in Dine”:

@stahlwein & @zieherglass

“In our family, wine is part of meals, family discussions and our life together. However, for the perfect enjoyment experience, the glass culture must also be right. Zieher is my first choice, because great wines belong in great glasses.”

Christian Stahl, www.winzerhof-stahl.de

With over 50 hectares of vineyards, the Stahl winery is one of the most progressive wineries in southern Germany. The former agricultural business in Auernhofen, between Würzburg and Rothenburg ob der Tauber, has been owned by the Stahl family since 1814 and, under the leadership of Christian Stahl and his wife Simone, has developed over the past 20 years into a showcase business with a winery, fine dining restaurant, wine shop and event location.

In 2024, Christian Stahl’s restaurant was awarded its first Michelin star, which was confirmed in 2025. Stahl is thus the only winemaker in Germany to hold a Michelin star.

Here, two worlds come together in a unique way: the menus are composed around the wines. The result is a unique harmony and tension between the wines and accompanying dishes, which results in incomparable taste experiences.

TESORO

THE FLAVOUR PRESERVER

TESORO

An aid to wine enjoyment

№ 5478 (page 16)

The product:

The "Tesoro" wine glass lid preserves the volatile aromas and fits on every VISION wine glass. At the same time, it protects the wine from flying insects and other foreign bodies.

The lids are made of high-quality borosilicate glass, which originates from the laboratory sector and is known for excellent chemical resistance and high light transmission in combination with a flawless surface quality. The break-proof glass can easily be cleaned in the dishwasher and is odourless - the basic requirement for preserving the aromas of the wine.

The function:

Inside a wine glass, a microcosm of different aroma molecules is created. The variety of primary, secondary and tertiary fragrances emanates from a wine glass in several stages and cannot be enjoyed in interplay.

The "Tesoro" lid preserves the volatile aromas within the glass. The wine does not develop more slowly, but the fragrance molecules, which normally vanish, can be perceived gradually or together - at your own discretion. Thus the little enjoyment helper enables a completely new wine experience.

Tapas culture:

Tapas (lit.: small lids) meanwhile have become a gastronomic concept. According to the actual literal origin, you can arrange accompanying snacks and sweets on the "Tesoro" and serve them to your guests with the wine glass.

TESORO

The flavour preserver

Beguiling aroma variety:

"It's not just a wine glass lid, it's about capturing transience. Hardly anything is as volatile as the wine aromas that escape from an open bottle or a filled wine glass. It happens automatically and naturally. It is irreversible and, in retrospect, often leaves a feeling of regret for not being able to capture the moment.

Sometimes it's in fact the small and inconspicuous things that leave a particularly big and lasting impression – like the "Tesoro" wine glass lid.

It creates wine experiences you have never before consciously and obviously perceived."

Silvio Nitzsche, SOMMELIER

Putting the rule to the test:

Take two glasses of the same kind. Now fill both of them equally. "Seal" one of the glasses with "Tesoro" and leave the other one open. Wait for just five minutes and then smell both glasses.

Both wines will be identical in taste! This reflects the development passed through by the opened wine nevertheless. Note the variety of aromas, which you can absorb and analyse in the glass previously closed with the lid. You will be astonished and will probably never want to enjoy a wine without "Tesoro" again.

TESORO – an aid to wine enjoyment

Noble wine glass lid that preserves volatile aromas and creates a complete wine experience.

The exceptional
- Preserves volatile wine aromas in the glass
- Elegantly protects against foreign bodies and flying insects
- For serving wine-accompanying snacks

Material
Borosilicate glass, hand-blown, dishwasher-safe

Delivery contains: 2 pieces

In black gift box

Glass polishing cloth

Premium polishing cloth made of microfibre. Ideal tool for scratch-free and lint-free polishing of wine glasses and decanters.

The exceptional
- Easy-care microfibre
- Washable at up to 90 degrees celsius, without using fabric softener, please follow the care instructions
- Scratch- and lint-free
- For streak-free glasses

Material
Microfibre

Delivery contains
1 polishing cloth in polybag

VISION presentation case

Sturdy hard-shell case with a foam insert precisely fitting for all glasses of the VISION series. Ideal tool for presenting the glasses to interested parties on site.

Delivery contains
- Glass series VISION:
  1x FRESH, STRAIGHT, INTENSE, BALANCED, RICH, NOSTALGIC, SIDE
- 1 Zieher microfibre polishing cloth
- 1 pair of cotton gloves
- Information flyer: Zieher wine glasses and decanter

Care instructions VISION

Valuable information about the care of the VISION glass series

Polishing wine glasses correctly

To maintain the attractive appearance of the glasses for as long as possible, we recommend washing by hand. If you do use the dishwasher, we suggest the following:

- Select the shortest possible rinsing cycle at low temperatures, use a cleaning agent that is suitable for glasses and ensure that the water hardness is between 4 and 6.
- Remove your glasses from the dishwasher as soon as the rinsing cycle is completed, if possible.
- Polish your glasses with half-linen or microfibre towels for the best result. Cotton towels may leave small scratches and traces of lint.
- It is best to use 2 cloths for drying. This way you can polish the glass from the inside and outside at the same time. Please avoid to turn at the base, as this may cause the stem to break.

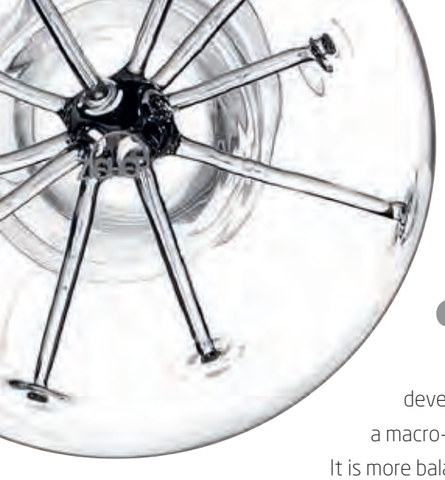
For further information please visit: WWW.ZIEHER-VISION.COM

WINE DEVELOPMENT WORKERS

EDDY

STAR

DOPPIO



decanter/carafe
STAR

reddot winner 2020

№ 4948.PB (page 24)

Many decanters provide a fast but completely unbalanced development of wines, as they only develop by a macro-oxidation on the surface. It is more balanced and harmonic to implement the necessary oxygen in a very soft and gentle way. The filigree rays of the centric star animate the served wine to a very soft enhancement. During the slewing the oxygen is mildly folded in and integrated into the wine. Thus the wine starts to develop on its own terms and not – as with other decanters – just on the surface. By using borosilicate glass as raw material for this decanter, which stands out by its extremely smooth surface, another highly pleasant effect is created: the aromatic molecules are not expelled from the wine but allowed to present themselves completely in the wine glass. The aerated wine becomes extremely balanced, carefully crafted and centered. An additional value, which is simply priceless!"

Silvio Nitzsche, SOMMELIER

You can find more information about the wine decanter "Star" at www.zieher-selection.com/en/star/

№ 4945.PB (page 24)

The big "Star" has a recessed grip at the bottom, which improves the swirl during filling and slewing. On the other hand, it guarantees a safe handling and firm stand while serving the wine. A black silicone base ring, enclosed in the present box, offers an attractive base and allows inclined positioning of the decanter.

The small "Star" is particularly suitable for the decantation of wines by the glass or small bottles. The ideal charge to provide a maximum of oxygen is 0.375 ltr. The reduced size allows to decant white wines and still to temper them in wine coolers. Also for dessert wines, the staging of innovative high-end cocktails, flavoured spirits, to the point of exotic juices – this unique product is the perfect solution.

THE ART OF DECANTING

The decanter "Star" synergises the aesthetics of a unique copy with the functionality of a professional tool for vinophile pleasure. The individual star raises each carafe to an exceptional piece. This artfully created centerpiece becomes a unique element in an excessively complex multi-stage process. This is pure luxury in our uniform world, because not a single "Star" is of the same kind.

№ 4948.PB

№ 4945.PB

decanter/carafe
EDDY

The volume of the big "Eddy" has been dimensioned in a way that, with a filling of up to 1.5 litre, the extension of the wine's surface becomes as large as possible. Due to the flattened bottom, this respirator stands safely and straight, the enclosed collar made of matt black silicone also allows an inclined positioning.

The small "Eddy" is perfectly suitable for the decanting of wines by the glass or little bottles. Thereby the ideal charge to maximise the content of oxygen is 0.375 litre. The compact design is perfectly suited to decant white wines first and then to temper in a wine cooler. By the extravagant character of these design elements, even high-end cocktails and other exotic creations can be staged appropriately.

The basic material for this development worker for wine is extremely robust, high-grade borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, is the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they also create visually interesting colour reflections and almost graphic effects.

DESIGN
Silvio Nitzsche

№ 4884.PB (page 25)

drying rack (page 34)

№ 4891.PB (page 25)

"The decanter "Eddy" defines the world of extreme wine instruments in a completely new way. Their functionality has seldom been united with an aesthetic language of design in such a spellbinding way. The matchlessly fast-paced development of structure, which all wines undergo in that respirator, is really fascinating! Once rotating in this texture stimulator, due to the thousandfold swirls at the conical indentations, the wine goes through a process, whose behavior is equivalent to an oxidation reaction of several hours, within a few seconds."

Silvio Nitzsche
SOMMELIER

SPOT ON!

Base ring with LED light

This base ring for the "Eddy" (item 4884.PB) and "Star" (item 4948.PB) decanters offers the chance to put served wines into the spotlight by illumination.

The rechargeable Zieher LED light fits exactly into the cavity at the bottom part of the ring and thus can put the served wine in the limelight from inside the decanter. In the beginning, the illumination effect inside the filled decanter can be very unobstrusive, when serving strongly pigmented red wine. But at a decreasing level, the play of light and colours becomes more and more intense in an exciting way.

The gift set is an effective accessory for the Zieher decanters "Eddy" and "Star" and comprises besides the ring, made of matt black silicone, also the light, remote control and the charger. LED light and remote control offer various functions, such as adjustable brightness, 7 different colours and various colour-changing functions.

Detailed information about the Zieher rechargeable LED light can be found at the following link: www.zieher-selection.com/akku-led

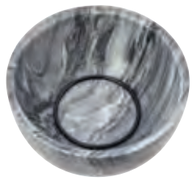
CARVED IN STONE

On hot days, decanting wine while keeping it at the optimal drinking temperature can be quite a challenge. The decanter cooler "On The Rocks" offers an innovative and highly aesthetic solution for this situation.

"On The Rocks" has been exclusively designed for Zieher decanters "Eddy" (4884.PB) and "Star" (4948.PB). The selected gray marble is captivating due to the diverse patterns of its marbling. Each piece is unique and offers the opportunity to decant and simultaneously chill white, rosé, and red wines in a stylish manner.

№ 4948.PB (page 24)



№ 8059.PB

content	approx. 1.4 l
diameter	approx. 20.5 cm
total height	approx. 11 cm
PU	1 set (4 parts)
EAN	4023174304558

"ON THE ROCKS" DECANTER COOLER SET

The top part of the cooler (suitable for decanter "Eddy" and "Star") is stored in the freezer, while the matching base remains unchilled. It captures the condensation that forms on the frosted top part during use, ensuring that the table remains dry and free from unwanted water stains.

The exceptional
The frozen bowl ensures that the wine maintains the desired drinking temperature for longer on hot days. Two silicone rings dampen noise and protect the decanters when inserted into the cooler.

Material: Polished marble/silicone

Delivery contains
1 bowl and 1 saucer made of marble,
2 silicone rings compatible with "Star" 4948.PB (page 24) and "Eddy" 4884.PB (page 25)

Please note:
Marble is a natural product, which means that the grey marbling can vary strongly. This is exactly what creates the vivid and unique look of this natural stone. Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles. Please clean only with a wet cloth and gentle cleaners. Not dishwasher-safe.

DESIGN AWARDS
WINNER 2021

№ 5480.04 (page 7)

DESIGN
Itamar Harari

In the "Doppio" decanter, wine is given a double stage that attracts attention and provides surprising effects.

The geometric silhouette and the reduced design appears almost technical and direct the view to the inside, because the whole secret of this extraordinary design only discloses in filled condition.

Attractive visual effects appear already during the pouring process when the wine spreads onto both levels of the "Doppio" decanter. It almost seems that the wine is levitating.

In addition to the natural flow of the wine, which pours over the inside of the decanter onto the two levels, the division into two levels also has an extremely beneficial effect on the development of the wine. The splitting creates a significantly larger surface of the wine with a comparatively small space requirement on the table, which maximises the possible oxygen contact. The division also remains when pouring out, so that the cascaded flow creates a waterfall effect, which additionally increases aeration through swirling.

№ 4894.PB (page 32)

"Doppio" is elaborately handcrafted from high quality borosilicate glass, which is robust and easy to clean. The ideal charge of the decanter is 0.75 litre in order to generate maximum oxygen contact and the most beautiful optical effects.

MAY IT BE SOMETHING MORE?

wine decanter

PEBBLE

drying rack (page 35)

№ 5480.04 (page 7)

№ 4890.PB (page 32)

Due to the shaping of the neck, the wine flows along the entire inside area while filling the decanter, which maximises the surface of the wine and thus contributes to the aeration.
The three swales at the bottom serve to further swirl the poured wine, which results in a gentle but nevertheless very effective aeration. This effect can be intensified by warily swinging the filled decanter. Furthermore, the three bulges at the bottom provide a wiggle-free and safe stand. The diagonal cut of the neck and the accurate polish of the raw edges minimise the formation of drops while pouring out.

FORMED BY HAND!

"Pebble" is made of high-grade lead-free crystalline glass. The unfilled decanter inspires by the brilliance of the glass alone and the resulting light reflections. This product is hand-blown with perfect craftsmanship. The sensitivity and longstanding experience of the glass blowers become apparent in particular in the creation of the bottom, which is extensively dimensioned and separated into three convex segments.

"DOPPIO" THE DOUBLE STACK

When pouring into the "Doppio" decanter, the wine is distributed over two levels, creating appealing visual effects and maximising the oxygen contact of the wine through the significantly enlarged surface. The division into two is retained even when pouring out and intensifies the ventilation through additional swirling.

The exceptional

- The first decanter of its kind worldwide!
- Innovative design concept with filling on two levels for more oxygen contact
- Each piece is unique – created by craftsmanship

Ideal charge for a maximum of aeration: 0.75 litre

Material: High-quality borosilicate glass, robust and easy to clean

Delivery contains: 1 decanter

In black gift box

"PEBBLE" THE CLASSIC

The handblown decanter in classical shape results from the high craftsmanship of experienced glass blowers. The shaping of the neck, the bell-bottomed body and the three dents, integrated in the bottom, already provide a maximisation of the surface during the pouring. Thus the maximum possible contact with oxygen and at the same time, a mild development of the wine can be achieved.

The exceptional

Inducted by the shaping, the wine runs along the complete inner surface already during the filling. Three dents in the bottom provide a gentle swirl and a soft aeration. This effect can be intensified by a soft slewing.

Ideal charge for a maximum of aeration: 0.75 to 1.5 litre

Material: High-grade lead free crystal glass

Delivery contains: 1 decanter

In black gift box

DRYPOD

Creating a useful tool with a high demand on aesthetics – this was the idea during the development of "DryPod". The solid rack made of brushed stainless steel, either black or brass coloured, forms the basis for this shapely product. An accurately fitting drip tray, made of translucent resin, is placed inside the rack and harmonises with its anthracite colouration with both variants.

Primarily "DryPod" is a drying rack for decanters. The geometry was chosen in a way that all Zieher decanters can be placed safely. Besides the big variations of "Eddy", "Star", "Doppio" a.s.o., it can also take hold of the smaller versions of some types as well as many other decanters in classical format. The drip tray securely collects dripping water and can be easily removed for cleaning.

Even after drying, all decanters are well stored in "DryPod". No matter if in a showcase or on the shelf, the decanter is stylishly presented by the precious display. Here, the downward-pointing opening helps prevent dirt from getting in easily.

care instructions decanter

№ 8014.20PB

Looking at "Doppio", "Star" or "Eddy", almost everybody who already gained experience with decanters, will intuitively ask how to clean them. Many decanters have the nature, in particular when used for red wines, to absorb the colour pigments and to show light grey or brown surface layers after a certain usage. Most of these carafes have microscopically seen a rough surface, where leftovers of the wine might adhere to and cause an unattractive appearance of the decanters.

With our decanters made of borosilicate glass, this effect might appear after a much longer period due to the extremely smooth and repellent surface of this high-quality laboratory glass. In case it actually happens, these traces can easily be removed by using a mixture of citric acid and water. After a 2 hour residence time, the problem should be solved.

Optionally available drying racks, made of stainless steel, facilitates the drying of the decanters after rinsing.

Extravagant treasures packed in a stylish way

The products of the Zieher VISION series and the decanters are delivered in a matt black gift box.
Due to the elegant overall appearance, each VISION glass or each decanter
convinces even before unpacking.
The folded, solid cardboard box assures safe and easy transportation.

Get to know VISION!

The wine glasses of the series are also available in individual packaging (pages 6 and 7).

Our partners, fans and friends, among them many top chefs and sommeliers from all over the world,
are using Zieher products to stage drinks and dishes and to present them on social media.

Below is a great collection of very special Zieher moments.

Thanks so much for your creativity!
